## Best state flagship universities

Fayetteville State University, a public university founded in 1867, enrolls nearly 6,000 students. Part of the University of North Carolina System and Thurgood Marshall College Fund, FSU offers more than 60 undergraduate and master's degree options as well as a Doctorate in Educational Leadership. For students with university loans, the school offers seven undergraduate studies in criminal justice, sociology, fire brigade and emergency services administration, nursing and more. Online students can also earn a master's degree in criminal justice and business administration. Online courses follow the asynchronous format without fixed class hours. Online students have access to the university's writing center, library resources and professional services. The university is authorized to offer online programs in 18 states. Fayetteville State University is accredited by the Southern Association of Colleges and Schools (SACS). Coming Soon: 20 Best Online MBA Regional Accreditation Entrepreneurship Programs (SACS) Public/Private Nonprofit Region Southeast Acceptance Rate 60% Retention Rate 75% Completion Rate 33.1% Requires ACT or SAT SAT or ACT Cost on credit (In-State/Out-of-State) Undergrad: \$365/\$1816Grad: \$421/\$1777 Website address: 1200 Murchison Road, Fayetteville, NC 28301 USA Students also watched these schools last updated: October 27, 2017 Learn more about the best online colleges and universities to earn a degree online. Complete the course from anywhere with online programs, a more accessible path to some extent. Arizona State University has developed a new model for American Research University, creating an institution that is committed to excellence, access and impact. As a comprehensive public research university, ASU is measured not by whom we exclude, but by whom we turn and how they succeed; deepening research and discovering public value; and taking primary responsibility for the economic, social, cultural and general health of the communities we serve. The Global Freshman Academy of Arizona State University and edX, innovative

leaders in providing unprecedented access to education, have joined forces to create the Global Freshman Academy, offering a unique, cost-effective way to break down barriers to quality education. The GFA provides students with the opportunity to complete the entire first-year course without risk and pay for the credit earned after completing the course. Courses are open to all, without application or transcription. Arizona State University MOOCsBrowse free online courses in various subjects. Arizona State University courses found below can be inspected for free or students may choose to receive a verified certificate for a small fee. course to learn more. Fayetteville State University is a four-year public institution that lends high-quality science to science shaping students into factors of change and leadership. FSU provides the region with economic drive, cultural enrichment and academic opportunities, from teaching and research to scholarships and service. Students and faculty are able to work with companies, nonprofits and institutions, strengthening initiatives to learn services and the academic community. Fayetteville State University's distance curricula are offered in a flexible and affordable format. Earn a bachelor's degree online or master's degree in programs such as sociology, criminal justice, business and more. Many of these options include graduation programs and engaging adult students through discussion boards and access to career development services. Founded in 1969, Governors State University GSU is a four-year public university in Illinois that supports openness, innovation and flexibility. GSU offers study and certification programs to enable students to acquire the qualifications they need to succeed in business, industry, healthcare, arts and education. Governors State University offers bachelor's degree programs, master's programs, specialized educational program, doctoral programs and certification programs. In each program, students find talented professors to help them along the way to their goals. GSU offers fully online degrees at all levels as well. These degrees offer diversity and flexibility, allowing students to continue their lives and careers, as well as education. An independent, trusted guide to online education for over 22 years! These top public universities are state-funded schools with excellent facilities, a world-renowned faculty, and powerful name recognition. Each of them represents great value, especially for students in the state. I mentioned schools alphabetically, rather than trying to make superficial differences between excellent universities. There are many reasons why you might be attracted to universities here. Most of them are large research institutions consisting of many universities and schools. Academic opportunities typically include more than 100 majors. In addition, the vast majority of schools also have plenty of school spirit and competitive NCAA Division I sports programs. Keep in mind that these universities are selective, and many more students receive rejection letters than admissions. If you compare SAT scores and ACT score data for schools, you'll see that you probably need results that are well above average. Binghamton University. Greynol1 / Wikimedia Commons Binghamton University, part of the State University of New York (SUNY) system, is usually one of the best public universities in the Northeast. For his strengths in liberated arts and sciences, Binghamton University was awarded the prestigious Phi Beta Kappa Honor Society. 84% of students come from the top 25% school class. On the sports front, the university competes in the NCAA Division I America East Conference Tilman Hall at Clemson University. Angie Yates/Flickr Clemson University is located at the foot of the Blue Ridge Mountains along Lake Hartwell in South Carolina. The university's academic units are divided into five separate colleges from the College of Business and Behavioral Science and the College of Engineering and Science with the highest enrollment. In athletics, the Clemson Tigers compete in the NCAA Division I Atlantic Coast Conference. Enrollment: 23,406 (18,599 students)For acceptance rates, test scores and other admissions data, see the Clemson College of William & Mary profile. Photo: Amy Jacobson William & Mary usually ranks atop or near small public universities. The university has respected programs in business, law, accounting, international relations and history. Founded in 1693, the College of William & Mary is the second oldest higher education institution in the country. The campus is located in historic Williamsburg, Virginia, and the school educated three U.S. presidents: Thomas Jefferson, John Tyler and James Monroe. The university has not only a chapter of Phi Beta Kappa, but a society of honor was established there. Registration: 8,617 (6,276 undergraduate) For acceptance rates, test scores and other admissions data, see William & Mary UCONN's profile. Matthias Rosenkranz/Flickr University of Connecticut at Storrs (UConn) is the flagship institution of higher education. It is a Land and Sea Grant University composed of 10 different schools and universities. UConn's faculty is heavily involved in the research, but the university has also been awarded the Phi Beta Kappa chapter for its strengths in undergraduate education in the arts and science. On the sports front, the university competes in the NCAA Division I Big East Conference. Enrollment: 27,721 (19,324 students)For acceptance rates, test scores, and other admissions data, see the University of Delaware's UConn profile. Alan Levine/Flickr University of Delaware in Newark is the largest university in Delaware. The University consists of seven different colleges, of which the College of Arts and Sciences is the largest. UD's College of Engineering and its College of Business and Economics often also rank in national rankings. In athletics, the university competes in the NCAA Division I Colonial Athletic Association. Registration: 23,009 (19,215 students) For acceptance rates, test scores and other admissions data, see the Delaware Tree-Lined Walk profile at the University of Florida. Photo Credit: Allen Grove Florida offers a huge range of undergraduate and master's degree courses, but they have the most name for themselves in pre-professional areas such as business, engineering and Sciences. The attractive 2,000-acre campus is home to the Phi Beta Kappa chapter thanks to the university's many strengths in liberal arts and sciences. Research strengths have earned school membership in the Association of American Universities. The University of Florida is a member of the NCAA Southeastern Conference. Registration: 52,367 (34,554 students)For acceptance rates, test scores and other admissions data, see the profile of the Florida University of Georgia Consumer Sciences Building. David Torcivia/Flickr Founded in 1785, UGA has the distinction of being the oldest state university on an attractive 615-acre campus in the US that offers everything from historic buildings to contemporary skyscrapers. For a high-achieving student who wants to feel the education of a liberal arts college, UGA has a respected Honors Program of about 2,500 students. The university competes in the NCAA Division I Southeastern Conference. Registration: 36,574 (27,951 students) For acceptance rates, test scores and other admissions data, see Georgia Georgia Tech's profile. Hector Alejandro/Flickr Located on a 400-acre city campus in Atlanta, Georgia Tech consistently ranks as one of the best public universities in the United States. Georgia Tech's greatest strengths are in science and engineering, and the school often appears in the rankings of the best engineering schools. The Institute places great emphasis on research. Along with strong scientists, the Georgia Tech Yellow Jackets compete in NCAA Division I inter-college athletics as a member of the Atlantic Coast Conference. Registration: 26,839 (15,489 students)For acceptance rates, test scores and other admissions data, see the profile of Georgia Tech University of Illinois Urbana-Champaign, UIUC. Christopher Schmidt/Flickr The University of Illinois' large flagship campus includes the twin cities of Urbana and Champaign. UIUC consistently ranks among the best public universities and the best engineering schools in the country. The attractive campus is home to more than 42,000 students and 150 different majors, and is particularly known for its outstanding engineering and scientific programs. Illinois has the largest university library in the United States outside the Ivy League. Along with strong scientists, UIUC is a member of the Big Ten Conference and fields 19 varsity teams. Registration: 46,951 (33,932 students)For acceptance rates, test scores and other admissions data, see the UIUC Sample Gates profile at Indiana University Bloomington. lynn Dombrowski/Flickr Indiana University in Bloomington is the flagship campus of indiana's state university system. The school has received numerous accolades for its academic programs, computer infrastructure and campus beauty. The 2,000-acre campus is defined by buildings limestone and its wide range of flowering plants and trees. On the sports front, the Indiana Hoosiers compete in the NCAA Division I Big Ten Conference. Enrollment: 49,695 (39,184 students)For acceptance rates, test scores, and other admissions data, see the Indiana James Madison University profile. Alma mater/Wikimedia Commons James Madison University, JMU, offers 68 undergraduate studies with areas in business being the most popular. JMU has a high retention and graduation rate compared to similar public universities, and the school often does well on national rankings for both its value and academic quality. The attractive campus in Harrisonburg, Virginia offers an open quad bike, lake and Edith J. Carrier Arboretum. Sports teams compete in the NCAA Division I Colonial Athletic Association. Enrollment: 21,270 (19,548 students)For acceptance rates, test scores, and other admissions data, see the James Madison Profile of the University of Maryland McKeldin Library. Daniel Borman/Flickr Located north of Washington, D.C., the University of Maryland is an easy subway ride to the city, and the school has multiple research partnerships with the federal government. UMD has a strong Greek system, and about 10% of undergrads belong to fraternities or sororities. Maryland's strengths in liberal arts and sciences earned him a chapter of Phi Beta Kappa, and his strong research programs earned him membership in the Association of American Universities. Maryland sports teams compete in the NCAA Division I Big Ten Conference Enrollment: 39,083 (28,472 students) For acceptance rates, test scores and other admissions data, see the profile of the Maryland University of Michigan Tower. jefwilcox/Flickr Located in Ann Arbor Michigan, the University of Michigan consistently ranks as one of the best public institutions in the country. The university has a very talented undergraduate student body – about 25% of accepted students had a 4.0 GPA high school. The school also boasts impressive sports programs as a member of the Big Ten Conference. With about 40,000 students and 200 undergraduate courses, the University of Michigan has strengths in a wide range of academic areas. Michigan made my list of the best engineering schools and the best business schools. Registration: 44,718 (28,983 students) For acceptance rates, test scores and other admissions data, see the profile of Michigan Pillsbury Hall at the University of Minnesota. The Michael Hicks/Flickr campus occupies both the eastern and western banks of the Mississippi River in Minneapolis, and agricultural programs are located on the quieter St. Paul campus. U of M has many strong academic programs, especially in economics, science and engineering. This liberal arts and sciences won it chapter Phi Beta Kappa. In the case of outstanding studies membership in the Association of American Universities. Most Minnesota sports teams compete in the NCAA Division I Big Ten Conference. Registration: 51,579 (34,870 students) For acceptance rates, test scores and other admissions data, see the profile of the Minnesota University of North Carolina Chapel Hill. Allen Grove UNC Chapel Hill is one of the so-called public ivy schools. It consistently ranks in the top five among public universities, and its total costs are generally lower than other top schools. Chapel Hill's medical, law and business schools have an excellent reputation, and Kenan-Flagler Business School has made my list of the best undergraduate business schools. The university's beautiful and historic campus was opened in 1795. UNC Chapel Hill also boasts excellent athletics - the Tar Heels compete in the NCAA Division I Atlantic Coast Conference. Explore the campus in this Chapel Hill photography tour. Registration: 29,468 (18,522 students) For acceptance rates, test scores and other admissions data, see UNC Chapel Hill profile of Ohio Stadium at Ohio State University. Photos: Acererak/Flickr Ohio State University (OSU) is one of the largest universities in the US (surpasses only the University of Central Florida and Texas A&M/M). Founded in 1870, OSU consistently ranks among the top 20 public universities in the country. He has strong schools of business and law, and his political science department is particularly respected. The school also boasts an attractive campus. The OSU Buckeyes compete in the NCAA Division I Big Ten Conference. Registration: 59,482 (45,831 students) For acceptance rates, test scores and other admissions data, see Penn State's Ohio State profile at University Park is the flagship campus of the 24 campuses that make up pennsylvania's state university system. Penn State's 13 specialized colleges and about 160 majors provide a wealth of academic opportunities for students with diverse interests. Bachelor's programs in engineering and business are notable, and the overall strengths in the arts and liberated science won the school chapter of Phi Beta Kappa. Like several other schools on this list, Penn State competes in the NCAA Division I Big Ten Conference. Registration: 47,789 (41,359 students)For acceptance rates, test scores and other admissions data, see penn state university of Pittsburgh Cathedral of Learning profile. gam9551/Flickr The University of Pittsburgh's 132-acre campus is easily recognizable by the towering Department of Science, the tallest educational building in the U.S. On the academic front, Pitt has broad strengths, including philosophy, medicine, engineering and business. Like several schools on this list, Pitt has a chapter of the prestigious Phi Beta Kappa Honor Society, and his membership in the Association of American Universities. Sports teams compete in the NCAA Division I Big East Conference. Registration: 28,664 (19,123 students)For acceptance rates, test scores and other admissions data, see Pitt Purdue University's profile. linademartinez/Flickr Purdue University in West Lafayette, Indiana, is the main campus of Purdue University System in Indiana. As a home for more than 40,000 students, the campus is a city to itself that offers more than 200 academic programs to students. Purdue has a chapter of the Phi Beta Kappa Honor Society, and its strong research programs have earned membership in the Association of American Universities. The Purdue Boilermakers compete in the NCAA Division I Big Ten Conference. Registration: 41,513 (31,105 students)For acceptance rates, test scores and other admissions data, see Purdue Rutgers University Football's profile. Ted Kerwin/Flickr Located in New Jersey between New York and Philadelphia, Rutgers gives its students easy access to two major metropolitan centers. Rutgers is home to 17-degree schools and more than 175 research centres. Strong and motivated students should check honors college. Rutgers Scarlet Knights compete in NCAA Division I Big Ten Conference Enrollment: 50,146 (36,168 students) For acceptance rates, test scores and other admissions data, see the Rutgers University of Texas profile in Austin. Amy Jacobson Academically, UT Austin often ranks as one of the best public universities in the U.S., and the McCombs School of Business is particularly strong. Other strengths include education, engineering and law. Strong research has earned the University of Texas membership in the Association of American Universities, and its excellent programs in liberal arts and sciences won the school chapter of Phi Beta Kappa. In athletics, the Texas Longhorns compete in the NCAA Division I Big 12 Conference. Registration: 51,331 (40,168 students) For acceptance rates, test scores and other admissions data, see the UT profile of the Austin Texas A&M Academic Building in the heart of the main campus at College Station. Denise Mattox/Flickr/CC BY-ND 2.0 Texas A&M is much more than an agricultural and mechanical university nowadays. It is a huge, comprehensive university where business, humanities, engineering, social sciences and science are extremely popular with students. Texas A&M is a Senior Military College with an apparent military presence on campus. In athletics, Texas A&M/A M Aggies compete in the NCAA Division I Big 12 Conference. Enrollment: 65,632 (50,735 students)For acceptance rates, test scores, and other admissions data, see Texas A&M/M's profile at The University of California Berkeley. Charlie Nguyen/Flickr Berkeley system consistently ranks as the best public university in the country. It offers students a vibrant and beautiful campus in the San Francisco Bay Area, and is home to one of the best engineering schools in the country and the best business schools. Known for his liberal and activist personality, Berkeley provides its students with a rich and vibrant social environment. In athletics, Berkeley competes in the NCAA Division I Pacific 10 Conference. Enrollment: 40,154 (29,310 students)For acceptance rates, test scores, and other admissions data, see the UC Berkeley UC Davis Performing Arts Center profile. TEDxUCDavis/Flickr Like many of the best public universities, the University of California at Davis has a Chapter of Phi Beta Kappa for its strengths in the arts and freed science, and is a member of the Association of American Universities for its research strengths. The school's 5,300-acre campus, located west of Sacramento, is the largest in the UC system. UC Davis offers more than 100 undergraduate courses. The UC Davis Aggies compete in the NCAA Division I Big West Conference. Enrollment: 36,460 (29,379 students) For acceptance rates, test scores and other admissions data, see the profile of UC Davis Frederick Reines Hall at UC Irvine. Photo: Marisa Benjamin University of California, Irvine is located in the heart of Orange County. The attractive 1,500-acre campus has an interesting circular design from Aldrich Park in the center. The park has a network of paths through gardens and trees. Like other top University of California schools, Davis has a chapter on Phi Beta Kappa and membership in the Association of American Universities. UC Irvine Anteaters compete in the NCAA Division I Big West Conference. Enrollment: 32,754 (27,331 students)For acceptance rates, test scores and other admissions data, see UC Irvine Royce Hall's profile at UCLA. Photo Credit: Marisa Benjamin Located on an attractive 419-acre campus in Westwood Village in Los Angeles, just 14 miles from the Pacific Ocean, UCLA sits on a piece of prime real estate. With over 4,000 teaching faculty and 30,000 students, the university provides a vibrant and vibrant academic environment. UCLA is part of the University of California system and stands as one of the best public schools in the country. Registration: 43,548 (30,873 students)For acceptance rates, test scores, and other admissions data, see the UCLA Geisel Library profile on UCSD. Photo Credit: Marisa Benjamin One of the Public Ivies and a member of the University of California system, UCSD consistently ranks among the top ten best public universities and top engineering schools. The school is particularly strong in science, social sciences and engineering. With the seaside campus in La Jolla California and the Scripps Institute Institute Oceanography, UCSD receives the highest ratings for oceanography and biological sciences. The school has a system of six undergraduate universities, modelled on Oxford and Cambridge, and each university has its own curriculum. Enrollment: 34,979 (28,127 students)For acceptance rates, test scores and other admissions data, see UCSD UCSB profile, University of California Santa Barbara. Carl Jantzen/Flickr UCSB has broad strengths in science, social sciences, humanities and engineering that earned him membership in the Selective Association of American Universities and the Phi Beta Kappa chapter. The attractive 1,000-acre campus is also a draw for many students, as the university's location has earned it a place among the best universities for beach lovers. The UCSB Gauchos compete in the NCAA Division I Big West Conference. Registration: 24,346 (21,574 students)For acceptance rates, test scores and other admissions data, see the UCSB Lawn profile at the University of Virginia (click photo to enlarge). Photo Credit: Allen Grove Founded about 200 years ago by Thomas Jefferson, the University of Virginia has one of the most beautiful and historic campuses in the U.S. The school also consistently ranks among the best public universities, and with more than \$5 billion in equipment, it is the richest of the state schools. UVA is part of the Atlantic Coast Conference and fields numerous Division I teams. The school has strengths in a wide range of academic areas from humanities to engineering, and the McIntire School of Commerce made my list of the best undergraduate business schools. Registration: 23,898 (16,331 students) For acceptance rates, test scores and other admissions data, see campbell hall's UVA profile at Virginia Tech. Photo Credit: Allen Grove Founded in 1872 as a military institute, Virginia Tech still maintains a cadet corps and is classified as a senior military college. Virginia Tech engineering programs typically rank in the top 10 among public universities, and the university also gets high marks for its business and architectural programs. Strengths in liberal arts and sciences have won the school's Chapter Phi Beta Kappa, and many students are attracted to campus striking stone architecture. The Virginia Tech Hokies compete in the NCAA Division I Atlantic Coast Conference. Enrollment: 33,170 (25,791 students)For acceptance rates, test scores and other admissions data, see Virginia Tech's profile at The University of Washington. Joe Mabel / Wikimedia Commons / CC BY-SA 3.0 The attractive campus of the University of Washington overlooks Portage and Union Bays in one direction, and Mount Rainier in With more than 40,000 students, Washington is the largest university on the West Coast. Washington has earned membership in the Association of American Universities for its research strengths, and like most universities on this list, has been awarded the Phi Beta Kappa chapter for strong liberated arts and sciences. Sports teams compete in the NCAA Division I Pac 10 conference. Enrollment: 40,218 (28,570 students)For acceptance rates, test scores, and other admissions data, see the Washington profile of the University of Wisconsin Madison. Richard Hurd/Flickr University of Wisconsin at Madison is wisconsin's flagship campus system. The main waterfront campus occupies more than 900 acres between Lake Mendota and Lake Monona. Wisconsin has a chapter of Phi Beta Kappa, and is well respected for research conducted in nearly 100 research centers. The school is also often high on the lists of the best party schools. In athletics, most Wisconsin Badger teams compete in NCAA Division 1-A as a member of the Big Ten Conference. Registration: 42,482 (30,958 students)For acceptance rates, test scores, and other admissions data, see wisconsin profile
