Endreim is also referred to as tail rhyme or endreim. It is one of many types of rhyme. Two or more lines of the poem must rhyme for it to be considered an end, but there do not have to be consecutive lines. Endreime can use different types of rhymes, although most use perfect rhyme. perfect rhyme: The words are an exact rhyme with the same final consonants and vowel sounds. For example, fat and cat. Slanted rhyme: The words are not perfect rhymes, but they have the same last vocal sounds or the same last consonant sounds. For example, rain and sprained. Terminal pararhymes: All consonants in the rhyming words are the same as in times and fames. Terminal Halfrhym: The words have an identical sound, except that you end up with an extra syllable as with climbing and timer. Endreime make it easy for readers to remember poems and recite them. This kind of rhyme also gives poetry a musical quality that helps readers read the poem as it should be heard. The poem ends: can come home with a smooth round stone as small as a world and as big as alone. For everything we lose (like a you or an i),it's always us in the sea In the classic poem Sick, Shel Silverstein makes the last word of each pair of lines called rhyme couplets. It usually uses perfect rhyme and changes the rhyming scheme slightly at the end. The poem begins: I can't go to school today, said little Peggy Ann McKay. However, almost all literary writings have some moral ideas that must be. Literary works aimed at children are full of moral lessons. They offer children positive lessons and guidelines for the future. Maxims like Be Be With whom they don't like, don't judge people by what they look like and slow and steady wins the race are usually the lessons that can be found behind many stories. Example #1: A word is dead (By Emily Dickinson)A word is dead when it is said, some say. I say it just starts to live that day. As you can see, use the first and second lines Of Three with the words dead and said. The other example of this rhyme pattern is in the third line with the sixth line of words say and tag. So it is the choice of the poet whether to use end rhyme throughout the poem for creating strong rhythm, or use a different rhyme pattern. Example #2: In Flanders Fields (By Colonel John McCrae)In Flanders fields the poppies blow between the crosses, row by row, that knows our place; and in the sky fly the larks, who still sing bravely. Hardly heard in the midst of the weapons below. In these lines, the words Blow and row also rhyme in the first and second lines, and the word at the bottom of the last line with them. Similarly, the words sky and fly rhyme in the third and fourth lines. The poet uses Endreim to create rhythmic flow as he describes his grief for fallen soldiers died in World War I.Example #3: Stopping by Woods on a Snowy Evening (By Robert Frost)Whose woods these i think I think, His house is in the village, though; He won't see me stopping here to watch his forests fill with snow. Example #4: Midstairs (By Virginia Hamilton Adair)And here on this turn of the stairs between passion and doubt, I pause and say a double prayer, one for you and one for you; And so they pick up. See Endreim on the last syllables stairs and prayer of the first and third lines; and doubt and out in the second and fifth lines. Function of the endrhymeThe poets often use endreime to create rhythm in their works. When they use it throughout the poem, it creates a beautiful rhyme pattern that gives the poem musical quality, because it adds flowingly in a perfect rhythmic way. It serves as a powerful mnemonic device that makes memorization easier. In addition, its regular use marks the end of the lines, explaining the metric structure for the audience. Songwriters also often use it to make their lyrics sound appealing, and it often becomes easier for audiences to remember.
