[²] It was shown at the Newport Beach International Film Festival on April 24, 2010. [^{quote required}] Home media release The film was released on home video in the United States by Screen Media Films on May 11, 2010. Receptionist Tracy Moore of Common Sense Media called the film goofy fun and gave it 3/5 stars. [³] In an otherwise positive review, MovieGuide wrote: The sets and costumes are occasionally hokey. Plus, the bathroom's casual humor and slapstick comedy sometimes detract from the film's natural appeal. However, MovieGuide gave the film 3/4 Radio Times' Sloan Freer called it a nonsensical version of the classic fairy tale and later complained that James Earl Jones wastes his rich tone as the voice of disappointing goliath. Jason Best of What's on TV wrote that Jack and the Beanstalk tries to emulate the spirit of the wonderful The Princess Bride, but falls sadly short. [⁶] He went on to note that Christopher Lloyd, Wallace Shawn, and Chevy Chase are also involved, so you'd expect the film to be a lot more fun than it is, but Gary J Tunnicliffe's flat direction doesn't give anyone a chance to shine. [⁶] Donna Rolfe of The Dove Foundation wrote: This is a fascinating fairy tale with encouraging values and colorful characters that will entertain the whole family. [⁷] Netflix company DVD.com called it a family comedy and gave it 3 1/3 out of 5 stars. [⁸] References ^ ^ Jack and the Magic Bean: an adventure of gigantic proportions. March 28, 2018.
