© 1996-2014, Amazon.com, Inc. or its subsidiaries calling on board all lovers of underwater treasure hunting! Fantastic Treasures of the Pacific Ocean is a quirky, skill-based underwater navigation game online, where you have to explore the ocean floor to discover discarded and lost treasure items over the centuries. From the breasts of gold, shiny trophies to awesome objects, the seabed is filled with precious horde to find and collect. However, it's not all just sailing – You should also skillfully avoid dangerous sharks and big fish trying to ram and harm your submarine. Fuel retention is also important, so you need to carefully monitor your fuel levels and return to base when needed. This fun but difficult submarine navigation activity requires good observation skills, smooth hand/eye coordination and reflexes. Skipping and weaving around sharks and fish flocks is no bad feat! Treasures are often hidden among pieces of coral at the bottom of the sea - so it must be something like 'underwater sleuth' in order to locate the best items. It is also a resource management exercise; Keeping an eye on your fuel levels and submarine health is the key to winning a successful haul of goodies. Are you ready to search the depths of the Pacific? Let's dive into this treasure hunt! There's a lot of loot, man! How to play: Collect as many valuable items as you can from the ocean floor, and return with them to the base. At the beginning of the game, your submarine is docked at your base. Click on the 'Leave' button to launch your submarine into deep water. Use the arrow keys on your computer keyboard to navigate your underwater capsule. Avoid getting in touch with any of the big fish/sharks that roam the sea. Even a small collision with a dangerous fish results in a reduction of your health line at the bottom of the game screen. Collect treasure items from the bottom of the sea by simply contacting them with your submarine. You can return to the base and win gold for your treasure at any time. Use gold won from your treasure collections to buy upgrades for your small submarine (larger fuel tank, larger treasure handle, larger health bar, etc). You can also refuel and repair your submarine (replace the Health Bar) at your base. When searching on the submarine, keep an eye on your fuel line bottom of the play zone. If this (or your health line) is empty, the game is over. Tip: You can win extra gold coins by collecting the growing bubbles in the form of the letters B-O-N-U-S as they escape upwards from the sea bed. Can your friends and family members match your hunger for collecting this juicy loot? If this Flash-based game no longer works in IE11 or Chrome browser on your PC/MAC, try playing firefox browser with Adobe Flash player installed. Set game screen size 100% Reset Reset Are you ready for the best hidden object games of 2018? The magical underwater world is waiting for you! Enter the mysterious submarine and dive into the depths of the ocean! If you liked hidden objects in the rooms, you will surely enjoy searching for these underwater hidden objects! Look for hidden binoculars, pencils, maps and bullets in the best hidden object adventure. Hidden object games with many levels waiting for you! Hidden objects mystery games for all fans of water world games. Uncover the mystery of the ocean and dive deep into the world of hidden objects. Free download hidden objects under the sea and spend hours of fun! 2000+ objects! Incredible graphics! Catchy tunes! Tips -when you need help! Free! 100% anti-boredom! Supported languages: Chinese, Danish, Dutch, Finnish, French, German, Greek, Indonesian, Italian, Japanese, Korean, Malaysian, Norwegian, Polish, Portuguese, Russian, Serbian, Spanish, Swedish, Thai, Turkish, Vietnamese. What kid doesn't enjoy the beach? If you can't make a trip to the beach, bring the beach to the kids. These under sea theme ideas will make them feel like they are enjoying a summer day in the ocean.

OCEAN ARTS AND ARTS 1. OCEAN IN A BOTTLE Materials: A clean, empty two-litre plastic bottle with lid Clear Vegetable Oil Water A funnel Blue colouring food shells and sea creatures (available from boat shops- be sure to use light floating objects) A teaspoon of glitter White glue craft and a hot glue gun (to be used ONLY by staff or supervised by staff at all times). Instructions Fill the bottle halfway with water. Add a few drops of blue food coloring and swirl around to mix. Add glitter and sea creatures/shells and then fill the bottle the rest of the way with vegetable oil using a funnel. Make sure the lid and lip are dry and then apply white glue around the rim and seal cap. Use a layer of hot glue around the outer edge of the lid for added protection from leakage. Turn the bottle on its side to create a wave in this ocean habitat! From kid's domain website. 2. OCEAN TREASURE IN OCEAN TREASURE BOTTLE-add coins and beads! TIP: If you have trouble getting the whole label off - you may want to place a label over the 'old laaper' and write the 'children's names' and 'Ocean in a bottle'.

3. PAPER PLATE JELLYFISH AND FISH EITHER colored paper plates or paint them. Painted (the plates in the picture are painted) use the least expensive dishes without the coated surface. Coated plates will take much longer to dry. 4. FOR FISH... Cut a V-shaped wedge on one side of the plate. That's the mouth. Glue the cutting shape to the other side of the plate-this is the tail. Stick or draw in one eye... and decorate as you wish. Sequins or other decorative elements can be applied as desired. Although it does not appear in the picture-the two fish pictured have flash flash glue 5. Jellyfish... Cut a paper plate in half. (This sample used small plates for jellyfish) When dry paper crepe glue tentacles. NOTE: If you are hanging the fish and jellyfish-use a drilling hole and then thread threads or string through the hole in the paper plate to hang. (image by KidActivities.net) 6. PAPER PULP NECKLACES OR ORNAMENTS (Paper pulp may be an alternative to clay) Put a cup of shredded newspaper in a blender. Add 2 cups of water. MIX WELL. That's very good. Drain the mixture so that it is moist, but still very moist. (Set the paper and water according to the amount you need.) Put pulp in OCEAN THEMED cookie cutters as molds. Use a straw to form a hole in the top. When completely dry, remove from the mold. Paint as desired and add the order/thread/rope/ribbon for necklaces (or ornaments). Idea and pictures by Shannon Stewart formerly of Steson School in Phoenix! To see photos of Pulp Making and another idea -visit Play ough Category at the bottom of the page! 7. Make an ocean seaside scene inside a small to medium glass jar Use beach sand, shells, small pieces of driftwood, the small discarded shell of a crab, etc. for a sea tent. TIP: If you work with a large group... Put small glass jars on your wish list! I imagine your parents have enough jars in their cupboards that they could donate-I get a couple every year with gifts of flowers. Some Art and Art Ideas FROM SAND THEME 8. Sand ART Instructions Give each child a piece of construction paper, and draw them a picture or write words with glue. Make sure you don't put jobs of glue at any point. Before the glue dries, by hand, pour/put sand on the glue. Let it sit for a few minutes, then shake the excess sand. It should dry flat for about half an hour depending on how much sand you used. TIP: This can also be done with colored sand-but for those on a budget-regular sand it works just as well.

9. DRY COLOR MATERIALS: 1 cup sand 1 T. powder color Mix instructions and put in a shaker. Put the glue design onto the paper sand-shake up the glue looking for sand toy dough recipes? Scroll down to the sand theme page... There's five there!!! 10. MAKE THE SAND JARS: Jars of children's food or other jars Colored sand or sand Tempera paint instructions If you do not use purchased colored sand, combine the sand with the tempera color. Make a variety of colors. Salt also works for white. Layer the different colors of sand in the jar. (Using small funnels to put sand in jars keep areas tidy.) You can also use a straw or kabob stick to poke through the desired layers of sand to make designs 11. Loop Froot Sand Mattress Materials: Box of Froot Froot Loop Cereals The kids will sort the colors. Put different colors in baggies and crush them until powder. Put individual mattresses in a baby food jar, or clear plastics or glass bottles as you would paint sand. TIP: This is good for younger children without the risk of sand... Older children may also like it as an innovation. 12. FISH WEAVING DISPLAY WALL Children have woven strips of fabric, ribbon, or yarn into paper plates. Join the plates together to make the scales of a fish into a pre-made fish shape! Add strips of thinly cut roll paper or crepe paper to simulate seaweed! Cut a few circles (bubbles) and space over the fish's head. Photo of the display wall by Lisa Tregellas in the demo photos. Pictured on the right is a close-up of two woven plates. One (the white plate) is very easy to make with slits cut across from each other at the edge of the plate. Then the kids just wrap the thread or ribbon up and down the front and back of the plate. Do this until all the slits have thread to them. Tie the thread/ribbon to a knot at the back of the plate.

The second way is a more traditional paper weaving method. Fold the plate in half and cut a series of slits into the plate. Ribbon or threads are then woven up and down (or inside and out) the slits. The outer circle of this plate was painted before weaving began. When the plates were full, spray glue was very lightly applied and glitter sprinkled over the plate. Most glitter attached and very little came out. (Image KidActivities.net) TIP: After making the two plates with thread-ribbon or thin strips of fabric will go faster. 13. SEASHELL WIND CHIMES Materials: 8 Shells (available from the beach, or in craft supply stores) 1 plastic coffee cap-can knitting yarns Liquid white glue Sharp pencil or paper punch. Instructions Stick each shell at the end of a small piece of thread. Use liquid white glue. Let it dry all night. Punch eight holes equally distributed on top of a plastic brown-can cap. Use a sharp pencil or a paper punch. Hold the lid with the rim facing upwards. Push the eight pieces of yarn through the eight holes of the bottom of the lid. Tie the end of each piece of yarn into a large knot. Make the knot larger than the hole so the thread won't slip through. Punch two more holes at opposite ends of the lid. Push one end of a large piece of thread from the top of the lid through a hole. It should come out at the bottom of the Tie a big knot. Push the other end of the thread through the other hole and knot. Hang the ringing on the branch of a tree or on your window.

14. PAPER PLATE AQUARIUM Color instructions an underwater scene on the eating side of a paper plate. Stick goldfish crackers or cut images from coloring pages on stage. Add a few pieces of plant or crepe paper strips for using glue ... add some sand or soft dirt to make the sea floor. Using a second paper plate, cut a circle in half. Cut a circle of blue plastic wrap 1 inch in diameter larger than your hole in the plate. On the food side of this dish, stick the blue plastic wrapper so that it covers and overlaps the hole in the plate. Glue or staple both plates together with the food side inwards. Punch a hole in the top and string a piece of yarn through the hole to hang your aquarium from the ceiling. 15. T.F. TUBE OCTOPUS Instructions Paint Tube Toilet Paper. When dry cut eight slits halfway up. Add googly eyes. An octopus! If you wish drilling on top and thread with string or threads to hang. 16. COLUMBI FISH... (A CRAFT & SCIENCE in one!) Instructions Fill a large plastic soft drink bottle about a quarter filled with water. Add a few drops of blue food coloring and a very small drop of liquid detergent. Pour in a small amount of pure sand or aquarium gravel. Blow up two small balloons, release most of the air, then tie the edges closed. Push the balloons into the bottle and screw the lid tightly. When you're done, you'll have a fish tank with two bobbing fish inside. The fish will swim in the water holding the bottle sideways and waving it back and forth. You can just discover that every child will want one of their own. MAKES AN 'OCTOPIUS YARN DOLL' ... The instructions are in the category DOLL THREADS... (Picture by KidActivities.net) 17. MAKE A LEI... A nice boat for the Beachy Ocean Theme. #1 LEI IDEA Layout pre-cut pieces of string, string, shell, or fishing line, long tube pasta, and plastic or tropical flower fabrics. Children can tie together flowers and pasta to make fun to wear a lei necklace.

#2 IDEA: STAR-STUDED LEIS Materials: Craft foam Sharpened pencil Elastic laces Red-and-white striped straws or drink stirrers Instructions Cut the boat foam stars and use a sharpened pencil to poke a hole in the middle of each. String them onto a length of elastic cord, alternating the stars with sections of straw or drink stirrer. Knot and wear. SWOLLEN WHITE BLOOD... NOT ONLY FOR HOON STAGES, but great for clouds and the ocean! Materials: White Glue Shaving Cream Paintbrush Instructions Measure equal parts of white glue and shaving cream. Mix the two ingredients together. It should be very thick and fluffy. In warm weather, it is ideal for fluffy white clouds and 'white caps' large waves of ocean ... The texture is interesting. When dry-feels like foam and remains three-dimensional. 18. A piece of beach materials: Sandbox sand white glue small shell instructions Mix sand and glue until the sand is syrupy. Pour the mixture into a bowl, dish, bowl, etc. Push the shells into the mixture mixture form a sculpture. Let this dry undisturbed. It could take a few days. When dry-the glue turns the sand into plaster.

OCEAN-THEMED GAMES 20. CLAMMING! FOR MARMARA Materials: Wading Pool Marbles Optional sand instructions Fill a wading pool with water and dump marbles on it. Sand can also be added. The object is for team members to wade into a small pool and try to retrieve marbles (mussels) with their toes -and place them in their bucket. Instead of winners with each team, see which team can recover the most marbles. An alternative would be to float Frisbees on the surface of the water and have children place the marbles in Frisbees. 21. 'BEACH TIME' RELAY RACE Materials: Beach bag filled with the game item A lawn chair for each team. Instructions Each team will go to the beach with fashion relays carrying the lawn chair and beach bag. Every person... 1. You must adjust chair 2. Open Umbrella 3. Towel layout 4. Put on the sunglasses five. Sit down six. Open magazine 7. Repackage before returning for the next person to go. This relay race is fun to watch. 22. SHARKS AND MINNOWS This tag game can be played in an open field or a gym. A child starts out like a shark and everything else is small. (If the team is great start out with two sharks) Minnows stand in a straight line on one side of the field/gym-facing shark located in the center of the play area. The shark yells, Minnows swim at me! All the cubs run to the other side of the field. If they get to the other side, they're safe. If it's tagged they also become a shark or algae. The game goes on with the shark leader saying, Minnows are swimming at me and the minnows are trying to get to the other side... There are two versions in the game at this point #1... Method: Once tagged the minnows (who are now sharks) also help run and tag the rest of the players. The shark is always the good one. The last safe minnow becomes the new shark leader. #2. Method: Once glued the minnows sit and become algae. The seaweed reaches out as the minnow runs/strays by though tagged-also sit and become algae. The last untagged minnow is the new shark. 23. 'OCEAN' SAND-PLAY ITEMS FOR OUTDOORS TAKE OUT THE: Bowls, Buckets/Plals, Cars & Trucks, Colander, Cookie Cutters, Funnel, Ladles, Magnifier, Half Cups, Moulds of Different Shapes, Muffin Boxes, Plastic Marine Animals, Dishes, People, Plaster, Scale, Scoops, Spades, Sieve, Sifting, Spoons, Strainer ... Ingredients: Seeds, shells, pebbles, sticks...

STORMY WATERS GAME (Good for pre-k to grade 1) Get enough pillows (or pillows or squares of paper) to have one per person. Play background music. Tell the kids they're in the ocean and start swimming. Music. When you stop shouting music There's a storm coming - dash to an island! Everyone has to jump on a pillow so that no part of their body touches the ocean (the floor). Restart the music and the game continues with a new variation. Variation: Ask children to be fish-swimming in the sea. When you stop the music, tell them there's a big shark coming to eat them. You can try other ideas such as: Crocodiles, Pirates or Jellyfish come to get them. The children would then be: Dolphins, Boats, Crabs, Mermaids, Mermen, etc. They could also surf! 24. OCEAN IS CALM (A listening game suitable for Pre-K in Grade 1) Children sit scattered in the play area in geometric shapes. Without telling others, each child is assigned a creature that lives in the ocean at the back of their carpet. A player is selected as a fisherman. The teacher/carer shouts, The ocean is calm. Moving around the play area, the fisherman calls the names of various fish or sea creatures, such as: Shark, eels, starfish, stingray, mussels, squid, etc. When a player hears the name of the creature given to him -- they get up and walk behind the fisherman. When most of the players have been called out, the facilitator shouts, The ocean is windy. In this, all the children who have already been caught must find new places. The child without a seat becomes the next fisherman.

25. LET'S HAVE A BEACH PARTY! In cold weather we often have A Beach Theme Party in January/February to boost our spirits-but don't forget about the theme during sunny weather and have it out! (Great for a Goodbye to Summer Theme!) Play beach music and beach-ball volleyball. Put umbrellas in drinks, dance limbo, make ice cream and leis! See the outdoor water games here... 26. JUMP THE WAVES! Materials: Two long ropes (The waves) Instructions Divide the children into two groups, at each end of the play area. With your signal, the two teams run and try to jump the ropes. Continue to widen the ropes each time. If the students fall in the ocean, they must dry their feet back on the beach (they are on their backs and move their feet) then get up and continue jumping! 27. BEACH BASKETBALL A great class, party, or afterschool idea program! Place a basketball hoop in a toddler's pool. Talk about pool fun! Ocean theme party ideas •Beans sea bag animals •Vinyl sea creatures •Sunglasses •Sun Visors •Flip flops •Swedish Fish Candy or Gummy Fish •Life Saver Candy •Fish-shaped suckers and candy rings fish •Bubble necklaces •Ocean Stamps / Stickers •Sticky books •Sticky sea creatures •Water toys •Sand /Beach toys (sand, etc.) •Small containers/tubes sunscreen/lotion •Mini velvet fish •Small toy animals Grow up in water

BEACHY OCEAN THEMED SNACK SNACK FISH FOR EVERY CHILD, fill a small cup with goldfish crackers. Supply cookies for fishing poles and peanut butter to put on the edges to use as bait to stick fish. FISH IN THE STREAM Fill the celery with cream cheese and fill it with goldfish crackers! BEACH AND OCEAN SUGAR COOKIES Make or buy large round sugar cookies. Children cover half the biscuit with freezing blue color-coded food. Sprinkle the sugar in the other half. (Ocean and beach) CELERY SAILBOAT Cut large celery stems in half. Fill each half with peanut butter, cream cheese, or Nutella. Place triangle-shaped crackers in the center of each one to simulate a cloth. KISSES AND FISH PRETZELS Ingredients: Chessboard, window or round-shaped pretzels Option kisses Hershey's Hugs chocolates GoldFish snack crackers (KidActivities used only chocolate kisses and cheese-flavored crackers-any flavor crackers will taste great!) Instructions Preheat the oven to 170 degrees. Open the bags of cookies and place them on a parchment or waxed paper lined with cookie sheets on a single layer. DO ONLY ONE TYPE OF CARAMELS PER SEDRO, because Hugs melt faster than kisses. Unwrap Hugs or kisses, place one on each pretzel, repeat for an entire cookie sheet. Place the cookie leaves in the preheated oven. Bake for 4 MINUTES FOR THE FRIEND OF THE junkies and hugs-5-6 minutes for the cookies and kisses. Remove from the oven and immediately place a goldfish over each bun/chocolate, gently pressing down. Place the cookie sheet in the freezer or refrigerator until the chocolate is restored. (Picture/sample by KidActivities.net) OCEAN SNACK MIX When you serve a group of kids who all want something different... Put out various ingredients. For our Ocean Snack mix choose from... Goldfish Crackers, Plain or Cheese (Fish) Cheerios and/or Froot Loops (Life Savers/Life Rings) Pretzel Sticks (Driftwood Pieces) Raisins, Yogurt Covered Raisins and/or Chocolate Chips (Small Stones and Pebbles) M&M's (Colorful beach glass and stones) Mini marshmallows (Foam of waves) Chow Mein noodles (Sea Weed) Put the variety of ingredients out in bowls. For some added fun-make small marks with the name of the Ocean Themed ingredient and place through each food selection. Draw or cut photos for children who can't read! After the children wash their hands-give them each a baggie. (To track who's in whose - write their name on it) The ingredients will then go to each child's baggie with their choice of TIP From the Snack Mix page: Let children know how measuring-wise they can take from the food on offer; also how many options they can have. Example: Each child can get 1/2 cup 4 dining options on offer. FISH COLYMPIUM IN JELL-O OCEAN Materials: A small fishbowl or clear glass bowl of Swedish or gummy fish Blue jelli-O mix instructions make blue jelli-O according to directions. (The sample used raspberry) (The sample fish bowl used in the image used 4 small packs of jelli-O with 4 cups of boiling water and 4 cups of cold water) Put in the refrigerator until the jelly begins to thicken. Add fish-you may need to push down a little to suspend them under the sea or ocean. For sparkling waves-cover or serve with whipped cream or topping. Be sure to have extra fish so every child gets a... NOTE: The fish will fall to the bottom of the jelly-O-if put in jelly-O before it has thickened a little. After the fish are placed in the ocean jelli-O, they also tend to soften. It's best to eat the jelly within a day of the axisia. Small white and black jellies can be placed at the bottom to look like stones. This can also be done in individual small clear plastic cups. Picture by KidActivities.net ANTS ON THE BEACH SAND Ingredients: 2 Graham Chocolate Crackers Sprays or Raisin Instructions Place graham crackers in a plastic sandwich bag and crush with a rolling pin. Add some chocolate sprinkles or raisins to make the ants; seal the bag. Give the bag to the kids to get out to eat? they can also pour it into a small bowl and eat on the table (Using their fingers, of course.) ANTI HILL on the beach- Make edible ant hills into bowls! Use clear plastic fist cups to see the layers. Instructions For the sand layer-first put vanilla or butterscotch pudding in the bowl. Crush graham crackers in a plastic Ziploc bag and pour the crumbs into the bowl for the sand ant. Add chocolate chips or raisins for ants. SANDY SHELLS (Most kids like pasta that lags in butter!) Ingredients: Pasta shells Butter or margarine grated parmesan (The sand) Optional: After defrosting frozen spinach-draining and pat spinach (algae). Toss in with shells and butter. Instructions After packing instructions-Boil the shell pasta until soft. Have the children add butter or margarine to drained pasta. (If you add spinach-do it before adding butter) Sprinkle with parmesan. It can also sprinkle with parsley (more seaweed) for color. ... MAKE MAC AND TYRES adding a drop of blue food coloring... PALM APPLE ON THE BEACH Ingredients: Slices of apple or pear (The Palm Fronds) A favorite variety of Graham crackers (tree trunk) Peanut butter-if there are no allergies (Beach) Raisins (Coconuts) Instructions Just create a tree. You have extra ingredients to munch on! DIFFERENT OCEAN FUN IDEA to On... TAKE AN OCEAN CRUISE THEMES IS GREAT to peek the school year or build camp day around! (In fact, the themes are wonderful at any time) An example is adapted by Lori Eisner in Florida... Her last week of school is Caribbean/Ocean week. Children imagine they're all on a cruise ship leaving FLORIDA ON MONDAY, and sailing to various islands. PORTS OF CALL: Tuesday: Arrival at Grand Cayman Wednesday: Oranjestad, Aruba Thursday: Charlotte Amalie, St. Thomas on Friday: Back to school. (You can choose your own islands.) Children could make/wear a white T-shirt that says, Aloha 2012 with a hibiscus set on the front and children's

autographs on the back. Have the kids created a visitor? girls wear hula skirts; The boys are wearing shorts. Create lei are made of beads, foam flowers, and other materials. LITERACY AND DISCUSSION... How can SAY in Spanish? Clam - Macha Conch - Crab Concha - Cangrejo Fish - Pescado (As Food), Pez (Alive) Flounder - Lengado Hermit Crab - Cangrejo Peer Jellyfish - Medusa Lobster - Langosta Ocean - Mar Oyster - Ostra Sea Horse - Caballo de Mar Seagull - Gaviota Sea Star - Astrella de Mar Sea Urchin - Erizo de mar Shark - Tibaron Shrimps - Gamba Snail - Caracol Stingray - Raya Sun Star - Sol de Mar Wave - Ola Whale - Ballena Read the RAINBOW FISH BOOKS. And then... Make rainbow fish by coloring, painting, decorating and putting sequins on cut fish shapes. SCIENCE Make some salt water... Leave it in a warm place for a few days. Questions to ask: What happens when salt dissolves in water? What happens to stagnant seawater after a few days? Why? Response... Salt dissolves in water. That doesn't mean salt disappears when that happens. Salt and water are mixed in the solution. When the water evaporates, the salt is left behind. Sodium and chloride atoms reunite with each other. WHAT'S THE DIFFERENCE BETWEEN SEA AND OCEAN? A SEA is a large body of relatively deep (usually salty) water with little or no connection to the world's largest oceans. An ocean is a huge body of salt water that forms the interconnected waterway that surrounds the entire world. The oceans are deep and draw their currents from a complex system of variable water temperatures and weather systems resulting from their varying depths and their absorption by radiant energy of the sun. HOW MANY OCEANS ARE THERE IN THE WORLD? According to NORM, there's only one global ocean. If you look at a map of the planet, it's easy to see that there really is only one ocean. While there is only one global ocean, the seas are geographically divided into the Atlantic, Pacific, Indian, Arctic and Southern (Antarctic) Oceans. These five oceans are not separate bodies of water; form a continuous ocean mass. The boundaries between these five oceans emerged over the for various historical, cultural, geographical and scientific reasons. The Pacific, Atlantic and Indian Oceans are known as the three great oceans. The Southern Ocean is the newest ocean. The boundaries of this ocean were set in 2000 by the Hydrographic Organization.
