Dragon bones osrs calculator

Initially, you can either type your RuneScape name or the current XP in their 1000 fields. If you type your RuneScape name, XP is automatically found in hiscores and the XP field is filled in automatically. Some items do not appear by default because there are a lot of items. To show hidden items, click Categories, and then select the target categories that you want to view. You can view multiple categories at once. The Level column shows the level at which you want to make or use the item. The name is the name of the item. In the Action Times column, you can see how many times an item needs to be done or used to get the goal level. The XP column shows how much XP you earn each time you make or use a matching item. Members only indicate whether the item is available only to members. Type your RuneScape name or current Prayer XP in the fields above. If you type your RuneScape name, XP is automatically downloaded from RuneScape-hiscores. Chaos Altar offers a prayer exp per bone equivalent to a gilded altar, but has a 50% chance of not consuming the bone when it is offered. This leads to an average increase of 100% exp, which multiplied by an experience factor of 3.5 Chaos Altar leads to an average of 700% experience per bone.
