Reviewed March 20, 2018 I tried everything!!! I'm a 45-year-old construction engineer who basically does plumbing all day. I suffer from degenerative disk disease. Got an MRI last year and was at the New York Spine Institute for blocker shots. Nothing worked. I literally tried everything from dozens of units to lido-water patches. Nothing worked. I had this in my saved items on Amazon, but skeptical to buy, last Friday night at work I set up my back and have been stuck in bed ever since. On Saturday, I made a purchase. Was my last straw and said, what the hell, let's go, but this. On Sunday, I was in a medical emergency and received muscle relaxers and anti-inflammatory drugs. More pain caused by the sick on Monday. Today I woke up, I couldn't lean in. Quite!! Called the sick again. A few hours ago, my lock-tank trax came in the mail. Popped into a DVD, lay down on the floor and put on a job. After my 3rd set I couldn't survive the instant relief I felt. I was in complete shock!! I texted my wife to tell her the wonderful news. I sent text messages to my brother-in-law who suffers the same problems to tell him about it (he bought it right away). I know it's early, but I haven't experienced this kidna relief for years. I'm still in shock. The best 40 bucks I've ever spent. Case number: Error_Unknown_Product ©2020 Walmart Stores, Inc.
