Honeywell pro 8000 installation instructions

This GUIDE TH8321U1097 covers the following models: for up to 3 heat/2 cold heat pump or up to 2 heat/2 cool traditional systems with dehumidification, humidity, or ventilation (pull the heat from the wall plate and turn to find the model number). Honeywell 8000 installation guide must be installed by trained technician, experienced read these instructions carefully. Failure to follow these instructions may damage the product or cause a dangerous situation. Honeywell 8000 Hanwell Wire Installation 8000 Traditional Terminal Labels Terminal Messages: R Power System. Connect to the secondary side of the system adapter. C wire shared from the secondary side of the adapters. W Phase 1 heat relay. W2 phase II heat relay. Y 1st stage compressor caller. Y2 Phase II Compressor Caller. G fan relay. S1/S2 optional outdoor/remote sensing/discharge. U1/U1 optional IAQ heat pump peripheral characters: R power system. Connect to the secondary side of the system adapter. C wire shared from the secondary side of the system adapter. Y 1st stage compressor caller. Y2 Phase II Compressor Caller. E/Aux assist/emergency heat relay. G fan relay. L reset the heat pump (continuously powered when the system is set to M Hit; control the system when the heat is set, cool or off). O/B valve change for heat pumps. S1/S2 optional outdoor/remote sensing/discharge. U1/U1 optional IAQ Redmore device and download Honeywell VisionPRO® series TH8000 PDF installation manual below 1 2 3 4 5 6 7 8 10 11 12 13 14 15 16 Table Contents 17 1 2 3 4 5 6 7 8 9 10 11 12 Table 13 you read free preview pages 6 to 11 do not appear in this preview.
