including Tolkien, Ursula K. Le Gwynne and Shepier. In the same chat, Victoria Holmes stated that Jacqueline Wilson, Katie Reichs and J.K. Rowling are some of the writers who inspired her. [5] According to the official website, other writers who inspired writers include Anid Blyton, Lucy Daniels, Ellis Peters, Tess

Geritsen, Kate Ellis, Lisa Gardiner and Meg Cabot. [6] The authors have also pointed to a few other sources of inspiration. The New Forest in southern England was the forest base where the original series took place. [3] Other influential places include Loch Lomond, as well as the Scottish Highlands. Nicholas Culper, a
physician who used substances that occurred in the natural world as medicine, also had an impact on the Vevers series. His book, Herbal Colper, is used as a resource by authors for many herbal remedies that Use in books. In addition, the authors suggested that they might use some fan-created character names in
future books. [5] Rambo's cinematic series has also been cited as a source of inspiration. [9] Adjust and see the world also: The character list of warriors centers the world also: The character list of warriors around a lake after escaping from their forest house because of its
destruction by humans. Cats are divided into five groups called tribes: Thunderclane lives in forested areas, WindClan resides in moures, RiverClan by the river, and ShadowClan in and around swamps. Skylan, then the fifth group introduced, reveals that it was part of the system, but was forced to flee when their soil
was destroyed by humans for urban development. They re-joined other tribes during the Sixth Arc. Each tribe has adapted to their lands. RiverClan cats, for example, swim in the river to catch fish, while the majority of cats fear other clans and avoid water bodies. Windclean cats, on the other hand, are faster runners that
allow them to grab rabbits and claw over the open moes of their territory. Relationships between different tribes are usually ishing and they often come into conflict with each other. However, clans also sometimes show concern for each other; The idea of a clan being destroyed usually causes deep distress and causes
immediate action on behalf of all clans. Tribe cats have a faith system based on the concept of StarClan, a group of ghosts of the tribe's deceased ancestors, who provide guidance to live clan cats, usually those of the tribe where they reside. After death, the spirits of most of the tribe's cats join Starklan and live in a
paradisical forest. StarClan often provides tips to clans through dreams and other signs such as omens, often directed towards the medical cats of each tribe, part of the role it has to the community with StarClan, in addition to providing medical care to your clan. In addition to StarClan, there is a dark forest, also known
as a starless place, which takes on the shape of an endless forest. The spirits of cats that caused a lot of suffering to others while alive alone walked there as a form of punishment. Although cats are isolated from the dark forest meant to be isolated as punishment, they eventually learn how to appear in the dreams of live
cats much the way StarClan does. Cats that live outside tribes are classified into three groups. Housecats, referred to as kittypets by clan cats for their cosy and lazy lifestyles. Luners are feral cats that live outside tribes, usually alone. They are often considered by clans with suspicion.
Similar to loners are roques, which is different as they try to cause clan cats damage. In Cases, these cats may form groups such as sisters (a group of violent rogues), BloodClan (another group of violent rogues) and guards (a group of cats that heal others and avoid
conflict). It is rare, though not heard, for kittypet, lonely, or rogue to join a tribe, as foreigners are generally trusted by clan cats. In a few cases, the tribes have been met with ridicule by other tribes. Beyond the lands of the tribes lies a mountain range, inhabited by the Water Rush tribe (often
referred to simply as the tribe), a group of cats that follow a different hierarchical structure than the tribe, consisting of a healer, cave-quard, and hunter hunter, each serving a different function in the tribe. The healer leads the tribe, heals the sick and the
wounded, and communicates with the endless hunting clan; cave-guards defend the tribe and hunters hunt for the tribe and hunters hunt for the tribe was formed by the tribes' predecessors when they left the lake territory to live in the mountains. In turn, cats from the tribe later moved into
the forest of the original series and formed the tribes. Series Warriors: The Prophecies Begin Main article: Warriors (arc) The original Warriors path

place between the arc of the original warriors and the warriors: the new prophecy refers to the firefighter's grandchildren discovering throughout the series that each has unique supernatural abilities. Despite congenital blindness, Fitter's place, which can feel other people's feelings and enter their dreams

originally written from the perspective of Alderpao (later Aldrehart), Bramblasstar and the son of Squirelf Light. Subsequent novels also introduce the view of Twigkit (later Toigpo and Violet Keith (later Violettepo and Violet Shine), who are eventually discovered to be the children of a missing Skye Klan
cat. The Apprentice quest opens with every cat-tribe medicine receiving prophecies from StarClan telling them to embrace what you find in the shadows, for only they can clear the sky. Alderpaw is sent on patrol to find Sky Klan, the fifth long-driven tribe and recently rebuilt by Firestar in the Firestar quest. The patrol
discovers a group of cats under the leadership of a cat named Dark Tail who lives in the Sky klan Strait camp that has pushed the Sky Klan away. On a return trip to the tribe's territories, the patrol encounters two abandoned kits under one road. They named them Twigkit and Violetkit and they were adopted by

deputy, Juniperclaw, tries to poison sky klan, but Juniperclaw later sacrifices himself to save TigerStar's son, Shadow Kate. SkyClan is eventually accepted by other clans. ThunderClan Apprentice, Rootpaw (later Rootspring), SkyClan Apprentice, and Shadowpaw (later Shadowsight), ShadowClan's Medical Cat Apprentice. In Warriors: Broken Code, ThunderClan leader Bramblestar has been behaving erratically after losing one of his nine lives over a period of no explanation silenced by
StarClan. Throughout the series, it is revealed that Bramble Star's body was possessed by an onirmore spirit cat that causes chaos in all five tribes, claiming that different cats have broken the warrior code beyond their redemption and exile, while also demanding that other tribal leaders do the same. The shadow of
vision visits the dark forest and covers the portal to StarClan and discovers bramblestar's weak spirit fading without his body and trapped in a hollow tree. A number of rebels emerge each of the five tribes, a battle between all five tribes that culminates with capturing the captive. Soon after, Squirelf Light realizes the
identity of the cat that held Bramble Starr's body, though it won't reveal it until the next book. series, into the wild, generally well received, with reviewers calling it spine, [56] guite fascinating, [57] and exciting... Action-packed adventure. [58] One of the judges for creating an attractive world... And an attractive young hero. [59] However, another criticized the characters and called the world no... Consistent and not
convincing. [60] Menga has also earned praise: a reviewer for the children's book clock noted that the jungle ends in a tense cliffhanger, leaving the reader in distressed anticipation for more... Into the woods... It is especially recommended for cat lovers everywhere. [61] Its sequel, Escape the Jungle, was also well
explored: a reviewer for weekly publishers believed that girls would benefit from reading about the powerful Tiger Turk Sasha because of their growing violence. The art was also praised, with reviewers writing that Hudson's artwork brings Sasha's emotional journey to life and every moment of fear, anxiety, content and.
the school library magazine also gave the book a positive review, writing that the plan will attract new fans and appeal to old fans. The judges also wrote that although the cover claims it is a menga, the honest illustrations are drawn in a simple and realistic style, [63] A large number of the characters involved in the series
have often been seen as a negative point; [59] Characters have also been criticized as somewhat flat[65] and are essentially limited to the performance of each individual within the clan. [60] As one of its reviewers, cats in the series true to their feline nature, [56] led some critics to jokingly comment that the book will leave
pus-eyed readers a little nervous, [66] and wonder what dreams of greatness might haunt the family cat. [58] However, this realism also means that the series contains a relatively large amount of violence, [59] with one critic stating that it is not for the heart to pale. [64] Several critics compared Vevers to Brian Jacques's
Redwall series, although one commented that it was not written as delicately. [59] The New York Times called the series appeared on the New York Times bestseller list for a total of 117 weeks, until November 24, 2013. [68] Awards and
Recognition to the Wild for the Pacific Northwest Library Association were nominated at the 2006 Young Singer's Choice Awards but lost to Eragon Christopher Paolini. [69] [70] It was also mentioned in the list of the top 10 fantasy books for young people in 2003 and was a 76-courier sense book. [10] The Sight was
nominated for best middle reader book in Amazon's Best Books of the Year (2007) and was ranked sixth out of 10 with six percent of the total vote. [72] He was also nominated for the Peat book series for the publishers'
weekly cuff awards. [74] Holmes' themes have said that one of the good things about writing a book about cats is that we can deal with difficult human issues such as death, racial intolerance, and religious intolerance [without appearing too heavy]. [75] The series often revolves around forbidden love. These relationships
are not allowed for a variety of reasons; some involve medical cats who are not allowed to have placenta To medically code cats, while others develop between cats in different clans, which are also prohibited by the Warrior Code (e.g., Graystripe of ThunderClan and Silverstream of RiverClan). Another central theme of
the series is Faith and Spirituality about Starklan, Holmes said. [76] All the books in the series are of StarClan that inevitably come true. Some scenes take place in starklan territory where no live cats are present. In this way, the
existence of the after-death life and the influence of the spirits that have passed through it while maintaining their earthly identities are integral to all the arcs of plath in the series. Another idea explored in novels is the reactions of different faiths when they meet each other. For example, the Rush Water tribe, which
believes in different spiritual ancestors than tribes, is introduced in Moonrise. In a writer's chat, Holmes explained that the books never say that either the tribes or the Beshingwater tribe are right about faith because they are both equally authentic. This leads to fear and suspicion between them because they are afraid of
things they don't understand. Holmes stated that ignorance is a very scary thing! [77] Non-belief is also explored in stories through characters, such as Cloudtail and Mothwing, which do not believe in StarClan. [78] Another issue is that characters can be a combination of good and evil. Holmes has said he was fascinated
by these shades of grey in the characters. His example was when Blustar, a decent and honorable cat, lost his kit for his own ambitions. Another example he gave is how tigerstar antagonist, even with all his faults, is still courageous and fiercely loyal. [75] Similarly, Holmes connected this to Brambleclaw and how he
knew he was good or bad. [5] A third main theme, often referred to as nature versus nurturing, explores whether a character is born the way it will be or whether other external factors shape it. Brambleclaw's father, for example, is an evil tiger, but Brambleclaw ultimately suggests that, despite the initial suspicions of tribes
because of his father's legacy, he is not an evil himself. This theme links to the theme Shades of Grey, [77] A publisher's weekly reviewer noted that friendship and responsibility are taught to the characters in the novels, while another reviewer pointed out the idea that as tribal cats take home cats away for their soft lives.
people need to realize that a difficult experience in life is essential. [79] A Storysnoops reviewer noted that one of the themes was no matter where you come from, just who you are inside. [80] At dawn, the importance of cooperation is explored. Four tribes, normally hostile to each other, had to Together in order to find a
new home. Other themes referred to deal with family, loss, honor, courage, death, loyalty and adherence to laws. [77] [58] The release date of all the warriors' books except Menga (with the exception of a shadow on the RiverClan) has been published as hardcovers, and the majority of them have also been published as
paperbacks. Starlight, Twilight, and Sunset from The New Prophecy, as well as the first four Omen of the Stars books, are available in an audiobook format. [81] [82] [83] [84] [85] [86] The audiobooks of the new prophecy are spoken by Nantes Suarez, the performance of which has been praised by reviewers. Nantes
Brought brings out young cats who work to help their tribe survive and protect each other from outside danger, a reviewer wrote for AudioFile. [88] [89] Omen of the Stars audiobooks are spoken by voice actress Veronica Taylor. The books in the four main collections have also been published as e-books. [90] Foreign
versions of the Vevers series were first released in the United States and the United Kingdom. [3] Published versions of the first two series of Warriors: The New Prophecy in Britain had few changes in cover design from their US counterparts. [91] Razmandegan is also sold in New Zealand, Australia, and
Canada. Translations have also been published in other languages such as Czech, Norwegian, Lithuanian, Finnish, Japanese, French, Spanish, Russian, Chinese, and Korean. [100] The first six books have been published in Italy and Latin America, the first five in Germany, and the first four in the Netherlands. [5]
Fandom also exists in Trinidad and Singapore. [100] The first two books were published in Poland. [98] Other media website Warrior screensavers, videos on topics such as the process of writing a Manga book, and quizzes. [99] [100] [101] In addition, there are browser-based games

to be made, it would most likely be based on a cinematic adaptation of the Series of Vevers. [103] Many fans resort to making their own games and websites, many of these sites are being played by role-playing forums. [77] This website was later redesigned and is now accessible through both a browser and an official

and no information has been released since then. [104] [105] The first short story written by Erin Hunter is Spottedleaf's honest answer, in which the spirit of former Medical Cat Thanerklan Spottedleaf discusses her love for Firestar. In the process, the story provides readers with information about the events that occurred
in the Vevers series from Into the Wild to Firestar's Quest. [106] On January 20, 2009, another short story, Tribes Decide, was published on the election through an online fan vote in recognition of President Obama's Inauguration Day. In
the story, cats from four tribes vote on whether or not clans should work together to survive a harsh winter; cats eventually vote in favor of working together. [107] Two short stories called After Sunset: The Right Choice? And the elders' concerns were previously available via the extinct Warriors mobile app. [108] Elders'
concerns have been noted that it contains timeline errors. Taking place after Blostar's choice of Fireheart for vice, halftail's big detail story awakens other elders to discuss their dissatisfaction with the decision with them. In after sunset: The right choice? Brambleclaw worries about Firefox Starr's reaction after killing his
half-brother Hawkforest to save Firestar (as depicted in Sunset), but the firefighter turns out to be proud of him. Plays written by Victoria Holmes for a tour, a play titled After Sunset; We Need to Talk, premiered on April 28, 2007, at the Secret Garden Bookstore in Seattle, Washington. It details the meeting between
Leafpool of ThunderClan and Crowfeather of WindClan after the sunset events. The script was released to the public on the old official site for the Series of Rovers. [109] During a fundraising event in Russellville, Arkansas, Rahmat Bertspreet was performed by various high school drama students. The second of Erin
Hunter's two plays is Mercy Britspreet about The Footy, Lyonblaz and Halilev' place. After going to a gathering, where it is apparent all clans except Thanerklan are hungry, three cats from StarClan appear to them: Brightspirit and his parents, Shiningheart and Braveheart, characters created in The Mace and the Worlds,
a fictional fantasy forum, remembers a 10-year-old Warriors fan, Amy Grace Cherry, and her parents, Donna and Jamie Cherry, all three of whom were killed in the whirlwind in February 2007. [110] They tell three young cats that they Help feed other clans. Jaypaw is easily convinced but Halaliev and Lyonbels are

[112] In 2019, when the official Vevers Hub program was released, several pieces of official and licensed goods were also released. This included posters, pins, bracelets, signs, stationery, figuratives, necklaces, bags, and shirts. Small heads plush and full-size plushes of different characters have also been produced.
On June 30, 2011, the mobile app, an official iOS app and Android app, was released on the iTunes App Store and the Google Play Store. It contained information about the series' books, profiles of tribes and big personalities (including unique app information), an interactive timeline and maps, two unique short stories
of the app, a trivial game, and a list of all the Books of The Vevers that had been published at that point. The app was eventually removed from the App Store. In 2019, an updated Warriors program was released through which blogs and analysis written by the series's editors, merchandise shops, fanhart lists and voting
