If you see, or of any damage, please clearly indicate this in the delivery paperwork when signing up for delivery. Mark items in the delivery signatory paperwork as damaged. A large sofa is the centerpiece of any living room, but for the love of practicality it is always useful to have a coffee table within reach. Choose wisely and this can add more than just a resting place to your cup of tea or coffee; can be a functional piece of furniture by itself. Macy Ottoman Our Macy's Ottoman is a good example of one of a and versatile piece of furniture that can be written for use as a coffee table when necessary. Upholstered in leather and upholstery, there's nothing stopping you from placing a cup and magazine on top of it, just make sure you use a mountain. In the meantime, it can also act as a stool, or as a spare seat for younger visitors, if the sofa is full. Arundel Vintage Footstool The second of our own items that can work well as a coffee table is the Arundel Vintage Footstool. It is low and, with the corner feet, you see the part, Again, just add a mountain or tablecloth to keep your cup level steady and steady on top of buttoned leather. Jonathan Adler's Regent Cocktail Table The Regent Cocktail Table is marbled and ideal for coffee or cocktails alike. A modern classic that bridges the eras, it is also available as a three-way demilune table with a semicircular top and a flat edge, allowing it to be placed against a wall. Cornered Simply named 'Cornered', Dylan Gold's design is clearly modern, built from MDF with a walnut veneer, maple, cherry or oak. It's a standard four-legged wooden coffee table, with one exception: an entire corner is embedded to create an integral magazine rack. Any standard sized magazine or coffee table book must fit on the stand, keeping the surface clear for those cups and cups to occupy. Braxton Coffee table as cornered, Enitial Lab's Braxton coffee table puts its magazines out of the way, still on display. A 'window' on the surface of the table allows you to see through the magazine tray below, in what is otherwise a construction of consistent colors. Choose from a wood finish or a minimalist, modern glossy white finish with wood-colored edges and a lower surface. Either way, it's a practical and elegant - and decidedly modern - take on the classic coffee table design.
