Erases, some questions can make you think about them, and the end result will make you feel like an idiot! Can't watch the game? Play the html5 idiot test game. Alternatively, you can play on your iPad. As before, you asked a lot of questions, and your level of idiot will steadily increase - start as absolutely stupid and make your way to rank dumb and on! If you answered the question incorrectly, you should restart from the beginning. During some questions you have to click on an object, others you should avoid clicking the object and some you should remember the sequences. This game is another success and a great follow up on the original Idiot Test! The December 2006 developer Test Idiot 2 was developed by Ryan Curtis.
