Let's make it +2. +3 But I'm not your mother... +2 Although they have become an important part of the show's identity, it's not the first time Social Links has been used until Persona 3. Social Connections in P3 was a means of creating a more immersive world while supporting Persona 3's themes of individuality. While it can be said that Persona 3 is a better game than its predecessors (not in a large proportion due to the respect and maturity that the subject gives). Persona 4 is undeniably a-up when it comes to Social Connections. The average Persona title is lighter and softer, a big change in speed for the P4 series, but an incredibly memorable one with a rather memorable casting in the center of it all. Unlike Persona 3, each party member Persona 4 has a Social Connection - but they don't mean that Nabas's many NPCs. 10 Jester (Tohru Adachi) are not overshadowed by part of the traditional tarot deck. Jester Arcana Tohru Adachi was added into the Persona 4 Golden as a tool that gives a little more depth. Jester Fool's foil, and many Adachi Social Links are spent contrasting to his most S. Links. Where yu is usually able to reveal the best of others, Adachi ends up with quite toxic friendship. It should be pointed out that Adachi Social Link Rank 6 is as optional as 6, then teeth itself as part of the story. For anyone who wants to get the most out of the story of Persona 4 Golden, Adachi's Jester Social Link is downright necessary. 9 (Kanji Tatsumi) All things considered, Persona 4 not handles Kanji's introduction into the good story. The issue of his sexuality is not handled with the respect he deserves, at least initially. Persona 4 finds her voice when Naoto joins the party, but Kanji's Social Connection does a better job of examining her conversation, especially with her masculinity, in a much more nuanced way. Kanji's Social Connection focuses on the image of masculinity his father left him, while at the same time reasserting his dungeon. Without looking at a different caricature of the player, Kanji has much more weight than his Social Connection to accept what it means to him to be a man. And it's sweet that she's having a baby. 8 Hierophant (Ryotaro Dojima) Although Persona 4 is better Social Links as a whole, there is not necessarily a better development for the main casting. Take Kanji, for example. Without playing his S. Link, his bow rings are quite hollow. The same applies to yu uncle, Ryotaro Dojima, who serves as the actor's father figure while the main plot plays an incredibly important role. Dojima's Social Connection doesn't matter to a major conspiracy, but he reasses his regrets over his wife's death. Likewise, Social Connection Yu and Dojima naturally provide much more connectivity to the main plot, which gives all more meaning to their tense moments. 7 Justice (Nanako Dojima) Nanako Social Link is arguably more important than dojima's thinking of a more present character, but both tie each other. Where Dojima's Social Connection focuses on his feelings for his wife's death (and is connected to the case), Nanako's displays the loneliness ex applied to him by Dojima's obsession. While Nanako's Social Link continued to accept the fact that her father loved her, she also had to express the abuse she had subjugated. As Nanajo and Dojima become the key to the plot, the completion of this Social Connection persona 4 is a very important step in providing the land with the emotional impact of the need for final movement. 6 Fortune (Naoto Shirogane) Unlike Kanji Social Connection, which saw fit to fix a piece of his bow that was not particularly well handled in the main story, naoto's Social Link would not naturally be possible in the game where it chooses meat out in an interesting aspect of its background - a family life of detectives. Yu and Naoto are a team during Social Connectivity to solve a makeshift mystery directed by his grandfather. While the premise is fun, being a detective is used to study what it means to Naoto. Her Social Connection briefly touches on her gender that players need to maintain a romantic relationship, but ultimately the passion for naoto investigating Social Connection drivers, not yu. 5 Hanged Man (Naoki Konishi) Naoki Konishi is usually written off for the closer hero mission, but he is easily one persona 4 better written Social Links. The first victim's brother, Naoki's Social Connection, revolves around Saki's inability to process his death. Yosuke's Social Link prints similar ground (and with a more present character) but Naoki's is handled better. First of all, Naoki's dealing with the loss of her sister. Naoki's grief is complicated and with layers enough to make her a cute character at the end of her Social Connection. Naoki's S. Link also gives more weight to Saki's service as the first victim. 4 Death (Hisano Kuroda) Persona 3 is aggressively cheesy trying to embody after the death of her husband, given how well she handled the theme of death. Fortunately, a great Social Connection doesn't take away. While Hisano's Social Link was initially a bit odd, his story is really quite sad. Hisano's Social Link gives a rather raw look at the effects of Alzheimer's on your loved ones, and Hisano has to watch her husband slowly forget her and die next to what she calls an outsider. Persona 4 is a pretty optimistic game otherwise, so Hisano's Social Link hits pretty hard. That's what makes it worthwhile. 3 Devil (Sayoko Uehara) Sayoko Social Link is quite cheeky, like player cheats with the promise of a juicy romance arc. The Devil's Social Connection begins with being seduced by Yu Sayoko, but it doesn't take long to focus on Sayoko's work life instead of the link. While he touched on his promiscuity, the focus would ultimately be on finding him foot in an area he has lost all his passion for. Even Sayoko's Social Link hopes for romance when its arc begins to continue is not for the best, but for the truly best. Persona 4's loves often divert attention from true character development, and Sayoko is surprisingly nuanced by Rank 10. 2 Moon (Ai Ebihara) Ai Social Link famous en persona 4 is just hard to get right. Only Social Link players offer a fake early romance option (so that a real romance with ai locks them in later.) the only one to break his easiest Link upside down and downright (though breaking Ai's Link is an obvious saying.) Ai Ebihara embodies extreme drama, but that's what makes social connection so compelling. It is fun as it is nuanced, and being interested in a fakeout love is easily one of the more interesting touches of Persona 4's. 1 Hunger (Tohru Adachi) is the final manifestation of Lust Arcana. Hunger Jester Arcana in Japan. After Rank 6 reaches, Arcana morphs and begins to form as part of the story. Most Rank Ups are simple enough - Adachi is there for Dojima in the hospital - but in the background it is incredibly ominous, and Social Connection ultimately led to the revelation that Adachi was the killer. In reality, Adachi's Social he probably expects the player to already know his identity. This is mainly a tool to uncover Adachi's role in the story and give him more depth. Not only that, but it is now possible to trigger a bad ending in which the player let Adachi escape.
