Zippo hand warmer instructions

Home > How To Fill Zippo Hand Heater Keeps Warm Hands cool to touch. Remove the the lid of the Hand Warmer, then remove the catalytic burner unit from the base up by holding it long (uphill with the Zippo logo). The burner unit may have a strict fit. Pour the Zippo Lighter Fluid into a 6 or 12-hour plastic filling cup provided in the package. Don't spill. For 6-Hour Hand Heater: Fill the line for about 6 hours of heat. For a 12-Hour Hand Heater: Fill the line for about 12 hours of heat. Do not fill the cup over the line for your warmer type of hand. Slowly and carefully pour the contents of the filling cup into the filling hole on hand Warmer's body, while keeping Warmer Hands in a tight position. Do not overflow. Overfilling will cause damage, risk of injury and fire. Keep Warmer's hands up and carefully replace the baking unit, ensuring it sits completely. Carefully eliminate any excess fuel from the surface of the Hand Warmer and allow excess fuel to egg before lighting up. Make sure the fuel can be closed and no fuel spills around it before it is lit. Flammable fuel. Allow Hand Warmer to rest in the upper position for at least two minutes before lighting up to allow the fuel to be fully distributed in absorbent materials and available for cataclysmic burners. Do not put warmer Hands after filling and before illicillation. If placed, liquid fuel can get into the catalyst burner, which can cause fire to occur when whing. If the fire appears to grow, it must be placed. Usually, any fire can be easily blown but use extreme care and caution. If necessary, place hand Warmer on the surface of the fire proof and let the fire burn or heated in a safe way. BUY HOT LIQUID BURNER HAND BUY FREE SHIPPING REPLACEMENT HAND ON ORDERS OVER \$50 * Home > How To Light your Zippo Hand Heater Fill Hands Heater with Pure Zippo Hand Fuel. With a lid from Hand Warmer, hold the base unit uphold with one hand and apply fire to the catalystion burner unit for about 10 seconds using the opposite. Cease-fire when the first use after initial filing can take longer than expected and requires the use of fire more than one time. Fire could come from Lighter Zippo, Lighter Zippo Utility, or matches. Follow the instructions for using the lighting appliance. Keep hands and clothes away from any fire. Hot heater hands by catalyst process. No fire was present after the wing. The presence of fire erpion shows overfilling. Put out fire and allow excess fuel to erod before attempting to poke again. After the erncing of the fire has been confirmed, replace the Hand Warmer lid, then put warmer into the prepared protective cloth bag. Hand Warmer must always be placed in a protective cloth bag supplied to avoid overheating. Your Zippo hands warmer will now provide warmth for hours. After the shaving, heat is provided by the process of burning without fire. Once ignited there is no safe way to stop the warm-up action. If necessary, place the Hand Warmer in a powdered protective cloth case and place it on the surface of the fire so that the fuel runs out and the Hand Warmer cools to touch.
