Kolstø Stian Kjørstad Zethelius Running time15-59 minutesProduction companyNRK ReleaseOriginal networkNRK1Original edition25 September 2015 (2015-09-25) –24 June 2017 (2017-06-24)External linksWebsite Skam (Norwegian pronunciation: [skm]; English: Shame) is a Norwegian teen drama streaming TV series about the daily lives of teenagers at
Hartvig Nissen School, a grammar school in the affluent Frogner district of Oslo's West End. It was produced by NRK P3, which is part of The Norwegian public broadcaster NRK. Skam watches a new main character every season. During the broadcast, a new clip, conversation or post on social media was published on nrk's website on a daily basis. Each
season focused on specific topics, from relationship difficulties, identity, eating disorders, sexual assault, homosexuality, mental health issues, religion and forbidden love. Despite not driving before the 2015 launch, he broke viewership records. Its premiere episode is among the most-watched episodes in NRK's history, and by the middle of season two, it
was responsible for half of NRK's traffic. In season three, it broke all streaming records in Norway, along with viewership records in neighboring countries Denmark and Sweden, and attracted an active international fanbase on social media, where fans promoted translations. The show has repeatedly made international headlines for its popularity surge
around the world, and the show's actors have become famous around the world. However, international popularity was not expected, with the music industry requiring geo-blocking of nrk's website to music licensing agreements only in support of the Norwegian public. The series ended after its fourth season in 2017, reportedly due to high production stress.
Skam received critical acclaim and significant recognition for his portrayal of sexual abuse in the second season and homosexuality in the third. The series has also been praised for its contributions to promoting Norwegian language and culture internationally, as well as for its unique distribution format, adoption of a new strategy of real-time, high-
engagement, snippets-based distribution rather than solids and television plans. During her run she won several Norwegian awards, she was honored with her dramatic storytelling, innovative storyte
European remakes, four books containing original scripts, and blooper reels. Hartvig Nissen School Main Article: Hartvig Nissen School Hartvig Nissen School (Hartvig Nissen School) located in the Frogner
district of Oslo's West End, with the address Niels Juels gate (Niels Juel Street) 56. [1] The school is informal and widely known simply as nissen. Originally called Nissen was founded in 1849 as a private girls' school owned by its principals and which served higher bourgeas. It is the second oldest grammar school in Oslo and
is widely regarded as one of the most prestigious in the country; its graduates include many famous individuals and two members of the week, a clip, conversation or social media post is posted on the Skam website. The new material is
posted on a daily basis, with content unified and combined into one full episode on Friday. The main character varies from season, [4] and fictional characters have profiles on social networks where viewers can watch their activities. [3] The show allows public interaction for the duration of the episode. The format has since been used in other NRK
P3 series, Blank and Lovleg. [5] [6] Characters The following characters are characters in Skam. Malik Adam Ezzari [da] Repetitive Mutasim Tatouti Mutasim Tatouti Mutasim Billah Recurring 1V season one, David Alexander Sjøholt was credited as playing a character Magnus or Sjøholt played by another student. Sjøholt also makes an uncredited appearance in the latest
episode of season two. 2In season three, Mikael appears uncredited in a video Isak finds on the internet even. The central cast of Lisa Teige as Eva Kviig Mohn (born June 2, 1999) is the main character in the first season. When eva first met, she recently started dating Jonas, who had just ended her relationship with Eva's best friend Ingrid. Her relationship
with Jonas is complicated and it's hard for her to trust him, eventually leading her to cheat on him and eventually lead to their breakup at the end of the first season. Eva lives at home with a busy mum and starts at Hartvig Nissen (Nissen) school in 2015 with her friends and former classmates Jonas, Ingrid, Sanaa and Isak. Losing her former best friends
Ingrid and Sara due to her relationship with Jonas, she begins a new friendship with Noora, Chris, Vilde and Sana in Nissen. After season one, Eva is mostly portrayed as an outgoing and promiscuous party-girl. Josefine Frida Pettersen as Noora Amalie Sætre (born 6 April 1999) is the main character of the second season. Noora is portrayed as a confident,
clever and useful character in seasons one and two. In the second season, however, it turned out that he has some uncertainty after all. She lives with boys. When school playboy William continues to flirt with her despite
a few rejections, she eventually gets interested in him, but due to her prejudices against him, she is hard to accept. They'll end up in a relationship with William. Tarjei Sandvik Moe as Isak Valtersen (born 21 June 1999) main character in the third
season. Isak is a close friend of Eva and Jonas in the first season. At the end of the season, Noora and Eve find homosexual pornography on Isak's phone, raising suspicions about his sexual orientation. Season three follows Isak trying to embrace his sexuality. He meets even, and the two quickly fall in love and start secretly seeing each other. However,
Isak unwielingly pushes even (who has bipolar disorder) away by revealing that he doesn't want to be around people with mental disorders, due to his traumatic experience with his mentally ill mother. After struggling with his feelings for even, Isak decides to come out to his best friend Jonas, and eventually to other people that he is close to. He gets back
together with even the help of his friends, but after even having manic episodes, he distances himself from him again from fear and heartbreak. However, he comes to a better understanding of Even the situation after discussion with his friends, and connects even after he realizes that he loves him, accepting the obstacles created by his disorder. In season
four, Isak is portrayed as much happier than living comfortably and publicly in a relationship with Even. Iman Meskini as Sana Bakkoush (born December 24, 1999) is the main character of the fourth season. Sana's biggest struggle throughout the series is to live a traditional Muslim lifestyle and traditional Norwegian grammar-school lifestyle at the same time.
Sana is portrayed as decisive and eloqued, but she faces constant prejudice from her classmates, her parents and the people she meets on the street, sometimes leading Sana to irrational decisions. It culminates when Sana anonymously cyberbullies her classmate Sara, who wants to exclude Sana from their Russefeiring-squad. Unlike Eva, Noora and
Isaka, she has a close relationship with her family. In season 4, she falls in love with Yousef, who initially thinks she's Muslim but turns out she isn't. After first attempts to distance himself from him, he appears to grow closer later in the season. The main cast of Marlon Valdés Langeland as Jonas Noah Vasquez (born December 20, 1999), Eva's boyfriend in
the first season. He is also Isak's best friend and classmate of all the main characters. Ulrikke Falchová as Vilde Hellerud Lien (born 13 July 1999 in Vilde Hellerud Lien), naïve fourth member of the main girls' group. She is an enthusiastic initiator of russefeiring, roars and other social events for the squad. Ina Svenningdal as Christina Chris Berg (born 6
January 1999), an entertaining fifth member of the girls' team. She usually avoids most conflicts and emotionally profound conversations. Thomas Hayes as William Magnusson (born January 10, 1997), a fling and finally a friend of Noor's in the second season. He is also a classmate and best friend of Penetrator-Chris. Carl Martin Eggesbø as Eskild
Tryggvasson (b. 10. 19, 1995), stereotypically gay roommate Noora in seasons two and four, and Isak is in season three. Henrik Holm (born February 12, 1997) is a love affair with a possible friend of Isaka. He is even diagnosed with bipolar disorder at some point before season 3. David Alexander Sjøholt as Magnus Fossbakken (born October 30, 1999),
Isakov's embarrassing friend and classmate. In the fourth season he is in a relationship with Vilde. Sacha Kleber Nyiligira as Mahdi Disi (born 19 January 1999), Isak's friend and classmate. A member of the boys' team. Cengiz Al as Yousef Acar (born September 21, 1997) is an atheist. Yousef is also Elias's best friend and former classmate. The recurring
cast of Herman Tømmeraas as Christoffer Penetrator-Chris Schistad (born April 2, 1997), on-and-off love interest Eva through all four seasons. Kristina Ødegaard as Sara Nørstelien (born July 12, 1999 in Ingrid) is a best friend and leader of the Pepsi Max team.
Rakel Øfsti Nesje as Linn Larsen Hansen (born 1 January 1996), introverted roommates Eskild and Noora/Isak. Simo Mohamed Elhbabi as Elias Bakkoush (born February 23, 1999), Jonas' girlfriend and Eva's best friend before season 1. Ingrid is
a member of pepsi max's russefeiring-squad, which often rivals the main characters of the team. Epizódy Prehľad série SeriesEpisodesOriginally vysielanýV prvom vysielanýV prvom

(Needs/Access/Benefit/Contest), and instead of gathering information from a huge amount of resources, she had extensive, hour-long interviews with one representative to reveal what needs that particular target audience had in order to cover this story. Unlike American shows, which were the main competition for shows attracting attention from teenagers,
Andem stated that she had one advantage; know who the audience was and what culture they grew up in. One of the main areas of the survey Andem found through research was pressure; stated that the pressure on performance is very high for this target group. They try to perform in many ways. That's fine, and it's not necessarily dangerous or unhealthy.
But what is unhealthy is that many feel that they cannot meet the requirements and therefore feel that they cannot meet the pressure go through a series like Skam. [15] Andem wanted the show to be a combination of social realism, soap opera and sitcom, a
transition between genres when scenes switch, for example, from comic scenes to doctor's office to make-out scenes on the stairs to the doctor's office was a dramatic leap, and elaborated that in a later scene, I told the photographer
that maybe we should try to go a little closer. But we did not have humor, so: we shoot sitcom-ish and mix genres. [15] Andem created nine characters without any backstory. Everyone was supposed to be able to lead the season, and the show was going to change the nature of the season-to-season. 1200 people audition for assignments in the first round of
casting. As production began, Andem wrote scripts for the show, and there was no improvisation. A lot of people think a lot of the show is improvised. It's not. A lot is written for actors. And before and after the scene, I'll wait a while before I say thank you and let them play a little bit in the scene doesn't work, we'll fix it and see what doesn't work
in the script. [15] The production had a short deadline, with scripts written in three days, one and a half days for filming and four to five days for editing. The plan has to be there and we just have to stop. [15] The series' use of real-time was planned from the start, and Andem wrote the series in episodic format, although the content also had to work for daily
news, including cliffhanger endings in each Andem read the comments for each day, and sought feedback from the audience on how to end each season while still keeping his original plans in some way. [15] As the series premiered, there was little or no support for the show, due to the production and NRK's desire for teenagers to find it on their own, spread
the news through social media, and avoid the older generation even noticing the series. [15] There were no opening interviews, no reviews, [15] and the actors were protected from the media, with NRK P3 editorial chief Håkon Moslet saying: We want most of the focus on the show. These actors are very young, I think it's good that they're a little protected.
They also notice the popularity of the series . [16] In December 2016, the Norwegian newspaper Dagbladet reported that Skam's production of seasons 2 and 3 cost a combined amount of NOK 10 million. NRK P3 editorial chief Håkon Moslet said: After that high quality drama, Skam is a very cost-effective production. [17] In December 2016, the series was
renewed for a fourth season. [18] In early April 2017, it was announced that the first clip from the fourth season would premiere on April 10 and that it would be the last season of the series. [20] [21] [22] NrK P3 editorial chief Håkon Moslet stated that the production of Skam was an extreme sport, [22] and in a post on Instagram, creator, writer and director
Julie Andem wrote that Skam was a 24/7 job. It was also amazingly fun to work on, and I truly believe it gave the series unique energy, and ensured that Skam continued to surprise and disappointed when you hear that, but I'm sure it's the right
decision. On June 23, 2017, the day before the series finale, the entire cast officially met with reporters before the series, answered questions from fans around the world and described their experiences and memories of the production. It was the first time all actors could break their silence and speak to the public. [24] On December 2018, NRK published the
first of four official blooper reels in the series. The December 9 report featured never-before-seen content from the first season, with the remaining three blooper videos released over the following week. [26] Distribution In Norway, the series is available on the website of the radio channel NRK P3[9] and on the NRK TV web-based solution. [27] Weekly
episodes are also broadcast on The NRK3 tv channel on Friday. [27] The series was licensed for broadcasting as a co-production by Nordvision by public broadcast on the DR TV streaming service and broadcast on the DR3 television channel since December. In Finland,
the series has been shown by Yle on streaming service Yle Areena since December 2016. [31] In Iceland, the series is shown by SVT on streaming service SVT Play since December 2016. [32] Reception Norway and the Nordic countries of Norway, averaging
about 192,000 viewers watched the first season, with the first season, with the first episode being one of the most watched of all time on NRK TV online. [33] In the first week of June 2016, streaming was responsible for more than half of nrk TV traffic. [34] After the release of the third-season finale, NRK stated that the second season had an average viewership of 531,000, while
the third season broke all streaming records on its NRK TV service with an average audience of 789,000 people over four days. [37] At the beginning of the fourth season, 1.2 million unique users visited Skam's website and 317,000 people watched the first
episode. NRK P3 editorial chief Håkon Moslet told The Verdens Gang that we see that there is high traffic and high interest in season 4. Since the end of the season when the drama kicks off. [38] In May 2017, NRK published a report on viewing
statistics for 2016, in which it wrote that the third season surpassed both the series' streaming record on NRK television and the streaming of all series in Norway. [39] The October 2016 Aftenposten report details that Skam has become popular in Sweden, with more than 5000 viewers with Swedish IP addresses watching episodes, not counting individual
clips. [40] A later report by the Verdens gang in January 2017 stated that Skam broke all records in Sweden, with more than 25 million playing on SVT Play. [41] After the series broke records in January 2017, with the show's first episode scoring 560,000 viewers on DR TV. [43] In Finland, the first
episode had more than 130,000 views by the end of February 2017, two and a half months after its release, which audience researcher Yle Anne Hyvärilä described as quite exceptional. [44] Skam received critical acclaim. Newspaper NATT&DAG singled him out for best TV series of 2015. [45] In its second season, Kripos, Norway's national crime
investigative service, praised the series' handling of sexual abuse, including the girls' supporting victim, Noora, going to the emergency room to explain the situation and gather evidence of abuse, and Noora confronting her rapist with relevant laws that he violated to avoid sharing photos showing her naked. [46] [47] The National Centre for the Prevention of
Sexual Assaults display, adding that they wish the series to become a curriculum in schools. [48] In the third season, Martine Lunder Brenne of the Verdens Gang praised the topic of homosexuality and wrote, I commend it first and foremost because young gay people, both in the closet and outside, finally get some long-awaited and modern role models. It
doesn't matter if he's a character in a fictional drama - right now, Skam is Norway's best show. [49] In the fourth season, Christopher Pahle of Dagbladet praised the conversation about religion, writing: Two young people, with Muslim backgrounds, have a reflective, respectful and enlightening conversation about religion without arguing or taking to the
trenches. Think about it. They pick flowers and dribble the ball, and even if they don't necessarily convince each other. [50] Skam was recognised for its contributions to promoting Norwegian language and culture and to promoting affinity between Nordic countries. In December 2016, the
Nordic Association awarded Skam the annual Nordic Language Prize for its ability to engage young Nordic audiences, connect with young people throughout the Nordic region and promote positive attitudes toward, an award awarded to
a person or institution that had a positive impact on society and made Norway famous abroad. [52] [53] In June 2017, just before the end of the show, Aftenposten published a report interviewing many well-known Norwegian creators, writers and directors, all of which praised Skam showrunner Julie Andem for her creative work on the show. Praise has been
focused on the series' uncoated character, its ability to maintain such a high level of quality for a long time, the series' blend of different sexualities and ethnicities and the use of dialogue to solve problems, and show compassion, and thus its ability to truly capture its generational audience. [54] The series finale received positive reviews. Vilde Sagstad
Imeland of the Verdens Gang praised the latest clip for being a worthy and emotional ending. [55] Cecilie Asker of Aftenposten wrote that the very last episode of Skam leaves us with great sadness, aching loss, and a desire for more. It couldn't have been better. [56] On July 1, 2017, during the Oslo Pride celebrations, Skam, its creator Julie Andem and
actors Tarjei Sandvik Moe, Henrik Holm and Carl Martin Eggesbø received the Fryd Award, an award awarded to persons or organisations that positively violate gender and sexuality standards. [57] In February 2018, Prince William and his wife Catherine, members of the British royal family, visited Hartvig Nissen School to meet the actors. learn more about
Skam, its impact on the lives of actors and discuss youth and mental health. [59] International success Starting with season three, the show attracted an international audience, and NRK was therefore strongly asked to add English subtitles to episodes of Skam online. The applications were rejected on the grounds that the licence for music presented
throughout the series was limited to a Norwegian audience and that easy availability outside Norway would violate the terms of NRK's licensing agreements. An attorney for NRK elaborated that YouTube videos featuring more than 50% of Skam's original content will be automatically removed. [60] When denied official headlines, fans began making their own
translations of episodes into several world languages, greatly expanding the online fanbase. [61] Norwegian viewers quickly after availability via Google Drive, and also started blogs to cover other material and language courses to explain Norwegian slang. [61] [62] By the end of 2016, Skam had been trending around the world
several times on Twitter and Tumblr, and his Facebook, Instagram and Vine presence had grown rapidly. [62] On social media, fandoms have developed rerecive images, screensavers, phone covers, and fan videos. [62] [63] [64] Filming locations, including Sagene Church, [65] and Hartvig Nissen Schools, were visited by fans and actors receiving worldwide
attention. [61] After being featured in the episode's third season, Gabrielle's song 5 fine frøkner saw a 3,018 percent increase in listening on Spotify, with more than 13 million streams and, at one point, rising to eighth place in Sweden's top music charts. [66] His popularity on social media continued for its fourth season in April 2017, with more than 20,000
tweets containing #skamseason4 registered in 24 hours at the time of the first clip of the fourth season, the bulk of which came from the United States. [67] In January 2017, Skam was geoblocked for foreign audiences and foreign countries. The
music industry responds to the fact that many international audiences listen to music even though NRK does not have international licensing offers. NRK takes concerns about the music industry seriously. We are in dialogue with [the music industry] to find a solution. [68] NRK stated that we want to thank our international fans and followers who have
accepted SKAM. We've blown away your determination - that's something we never expected. That's why it hurts to tell you that due to the necessary clarification with music rights holders, SKAM will not be available outside Norway until further notice. We're trying to figure out how to solve this problem so that fans can continue to enjoy SKAM where they are
right now.. [68] When the fourth season premiered in April, the geoblock was removed for the Nordic countries. [20] The series has received considerable attention from international media publications for its unique real-time information distribution model. [64] [69] [70] [71] Anna Leszkiewicz of the New Statesman posted in March 2017 that she considers
Skam the best show on television, highlighting the second season of Sexual Assault Manipulation. She praised the series for avoiding shocking, gratuitous rape scenes, instead focusing on one hand gesture by rapist Nico as a sign of predatory behaviour. However, Leszkiewicz criticized the show for taking an escape route in which Noora finds the courage
to speak to another girl who was at the party, insisting that while Noora and Nico were in bed together, no sexual intercourse took place. Leszkiewicz noted that so many women go through what Noora went through in Skam. Most of them don't get the same escape route. Instead, they must live with the shame and confusion of an ambiguous attack. [72] In
the same month, Elite Daily's Dylan Kickham wrote that the international fan bastion for Skam on social media was much bigger than I ever predicted, with major fan groups on Twitter, Facebook and Tumblr. He credited the third season of the plot to homosexuality, calling it incredibly intimate and profound, especially praising a scene featuring a conversation
about the ostentatious attitudes between main character Isak and supporting character Eskild. While acknowledging the stresses of the past two seasons, Kickham explained that season three stands above the rest by shining a light on aspects of sexuality that are very rarely displayed in the mainstream media, praising Eskild's wonderful and timely take on
toxic masc-for-masc discrimination within the gay community in response to Isak's homophobic comments. It's these small, incisive moments that show how much Skam understands and cares about the problems he portrays, Kickham explained. [73] In March 2017, E! voters An online poll on Top Couple 2017 declared the characters of Isak and even, the
main stars of the show's third season, winners. [74] The Verdens Gang wrote in April that Skam had become popular in Chinese watched the third season of Piracy and a total of six million watched all the episodes that have so far been translated into Chinese. The
report also states that NRK has no plans to stop piracy in China, and NRK P3 editorial chief Håkon Moslet told the Verdens Gang that Isak was and even that it captured a young Chinese audience. There is a lot of censorship in China and they are role models and they have a relationship that the Chinese need to see. [75] Anna Leszkiewicz wrote three more
articles on Skam and its impact between December 2017. In her first report, she credited the series for dealing with a number of complex topics using universal emotions, such as loneliness, rather than problem-based strategies. [61] In the second, she specifically focused on the series' end, adding that she originally had nine characters designed for each
lead season, and quoted fans with the feeling that It looks like such a sudden decision. It doesn't serve the story at all. Recognizing the pressure of the show's global popularity as a potentially key element for ending Skam, Leszkiewicz emphasized the disapproval of some fans' story lines submitted toward the end; The main character of season four, Sana, a
member of the Muslim religion who was underrepresented in the series, had a shorter focus in her season than other main characters in her time; the last moments of the stories of the series focused on the series; and the lacklustre
conversation about Islamophobia between Sana and her white, non-Muslim friend Isak. Leszkiewicz quoted disgruntled fans, one of whom said that Sana was disrespected and ignored and cleared and ignored and sidelined, and that's fucking disgusting. She deserved better. [76] Finally, in her latest report, she focused on Skam's legacy as an American adaptation she
was in production. NRK P3 editorial chief Håkon Moslet told her that There was a lot of piracy, acknowledging that the show's global popularity was the result of fans illegally distributing content via Google Drive, although he added: But we didn't mind. Producer and project manager Marianne Furevold explained that we were given a lot of time to do so much
research, and I think that's a huge part of the success we see with Skam today, referring to extensive in-depth interviews, school and youth club visitation and immersion in the online lives of teenagers, which she didn't think would be possible with a commercial network. As for ending the series after its fourth season, while its popularity peaked, Moslet told
Leszkiewicz that writer Julie Andem spent a huge amount of time developing the series; It was kind of an extreme sport to be in, this series, especially for her. It was the right thing to do. Andem posted on Instagram that she
wouldn't be able to do a fifth season as well as she deserved to be, although she also wrote that she didn't want to reveal her work in the American version and decided to take responsibility for the adaptation. This decision in itself disgruntled fans who found their decision to leave the Norwegian series only make another huge commitment with the American
show disappointing. Moslet praised the series' diverse set of characters, concluding with a statement that, in a time of confusion and intolerance, it seems more important than ever for content creators to embrace diversity and reject intolerance, it seems more important than ever for content creators to embrace diversity and reject intolerance, it seems more important than ever for content creators to embrace diversity and reject intolerance, it seems more important than ever for content creators to embrace diversity and reject intolerance, it seems more important than ever for content creators to embrace diversity and reject intolerance, it seems more important than ever for content creators to embrace diversity and reject intolerance, it seems more important than ever for content creators to embrace diversity and reject intolerance, it seems more important than ever for content creators to embrace diversity and reject intolerance, it seems more important than ever for content creators to embrace diversity and reject intolerance are content to embrace are content to embrace a
with Skam topping the chart as number one, overtook a hugely successful American series such as Game of Thrones, Stranger Things, and The Walking Dead. adaptation in December 2016, Simon Fuller's XIX Entertainment production company signed a deal with NRK to produce the American version of the series, then-called Shame. [85] [86] The development of the series continued in the following months, titled Change SKAM Austin, casting calls underway, [87] and the announcement that Austin would air on
Facebook Facebook Watch's original video platform[88][89] and on the original series network, NRK. It premiered in April 2018 and was renewed for a second season. [91] In April 2017, the Danish Theatre Aveny-T allegedly acquired exclusive rights to produce a theatrical version of Skam. There will be four different performances, one for each season, with
the first performance taking place on 15 September 2017 in Copenhagen[92][93] and the remaining three performances taking place once a year until 2020. [94] In September 2017, french entertainment website AlloCiné reported on the upcoming production of the French remake of the series. [95] In October 2017, Variety and The Hollywood Reporter
reported that Skam's local adaptations will be produced in five European countries; Germany, France, Italy, Spain and the Netherlands. NRK CEO Thor Gjermund Eriksen said in a statement: 'We are very excited about the huge interest that Skam/Shame has generated outside Norway. The creators of Skam aimed to help 16-year-old-girls strengthen their
self-esteem by dismantling taboos to make them aware mechanisms and show them the benefits of confronting their concerns. It is a vision that we are proud to bring to other countries. [96] Variety notes that each local production will have to do its own local research into the dilemmas and dreams of its teenagers and not copy the original Norwegian
production. [97] In October 2018, Belgium began broadcasting its own adaptation. On 3 April 2019, the educational Swedish broadcasting channel UR began broadcasting the first seasons of Druck (such as Skam Deutschland), Skam España and Skam France. [99] After success, more remades have been restored for the next season, progressing in
development at different speeds. Skam Italia has passed the order of the season of the main characters compared to other productions, so that Martino (Isak's counterpart) is the main character of season 2 and Eleonora (Noora counterpart) is the main character of season 2.
main character of season 2. A Kato Frasen is an original character who does not have a counterpartence in the original Skam. Books in September 2018, Julie Andem on her Instagram account, she stated that, in coordination with the Norwegian book publisher Armada Forlag, four Skam books will be published to the public, one for each season of the
series, including original, unedited manuscripts, with scenes that were never filmed, lines that were later cut out, as well as Andem's personal comments and thoughts. The first book, focused on the first season, was made available for purchase on the day of the announcement, on Monday 3 March 2015. In a press release from Armada Forlag, Andem said
that Releasing these unedited scripts, including typos and nerd comments, is right on the edge of my comfort zone, while adding that I hope people think it's fun to read scripts and that this is not just TV-history, it is the main literature. Norwegian news
company Aftenposten said at the time that th
incredibly proud to work with genius Julie Andem. She changed the whole Scandinavian culture, adding that it would be incredibly fun to build her career as an author with this unique project. We only saw the beginning. The Verdens Gang report also states that the first book has been sold at a record pace since its publication just three days earlier and that

all four Skam books will be published before the Christmas holidays in 2018. Andem told the publication that Skam fans are, as I've expressed before, the best fanbase on earth. And they are always very excited and grateful. That's nice and poignant.. [102] A later update of the same article clarified that the book had already been distributed to Finland and
