Secret Killstreaks There are many secret killstreaks: (Kills must be consecutive) ? Unknown name? -9 Kills :Temporarily disable the enemy weapons that leave them with knives. Longcopter-17 Kills (Sniper only): Be a sniper from an armored attack helicopter. I don't know what to do J.B- 24 Kills: Remove all enemies from the map and disable enemy equipment. CT-75- 32 Kills: Ride Pave Low while controlling 5 Predator Missiles. Team 480- 48 Kills: Call 3 attack helicopters and Riot Team (4 Members). Specialists - Rank Faster Once you reach level 20, use the Specialist plan. Create classes, give hardline and use Specialist packages. This not only gives you extra points on kills 1, 3, 5, and 7 but also helps you complete profit challenges AND Specialist Challenges for every advantage. You complete the advantage and each advantage has a Specialist facility challenge to it. For example, if in 1 kill you unlock Assassin, you complete Assassin Challenges while also completing the Specialist Challenge titled 'Assassin.' This is the equivalent of a shipload of XP once you start moving through this challenge. Not to mention 200 XP per kill in kills 1, 3, 5, and 7 each time. You will be hard pressed to find a faster way to get XP while playing heavy kill mode. You get EXTRA points for killing 8, 9, 10 etc as long as you have all the advantages and have not died so like XP doubles in itself. Secret AK-74U First of all you need to go to Special Operations. Then you have to go to the first shooting range on a mission. Go to the jeep and look back. There will be a secret AK-74U. Skewer If you run towards the enemy and quickly tap the knife button, you will stab instead of slashing. Get out of map for resistance first of all,

go to the main park and have 2 people with you (both with riot shields) then put his back towards the building and you face it and the tree on the bricks. Then run and hit him with your melee shield and you'll shoot on top of the building then run around until you find a place to get off and you get out. Flip If you shoot someone on the shoulder with a desert eagle, sniper rifle, or shotgun. They launched into a flip. S4 The S4 is the Russian version of C4. It's very effective. It does 2x the amount of damage (3x if you have 35+ kills.) It also temporarily blinds and slows down all enemies within 25 feet. To get a S4, you must first have a class with 2 flash grenades or concussions and one C4. C4. Throw a flash grenade/con and make sure they affect someone. Without dying, you can now dispose of your C4 which is now S4. You will unlock Explosive achievements in Russia and get the Power Blast trophy. CoD: Modern Warfare 3 Reveals Floating Trailer in Lockdown Level To float in lockdown level, you have to go to orange elevator and you will find 2 taxis out of elevator. Climb up the cab and get one turned on that side. Wait a bit so that your jump will be but strong then jump and tap the jump button as fast as you can. Then go and climb the elevator until you get into the basket. To get into the basket you have to move a little and or you can go to the back of the basket but wait ti your jump is strong and then you will see the sign and then jump and you will land on the sign and when you look down you will be floating in the air. Inti Barakaa Get on the audience and then go to the boat pier. Then head east and keep going until you go to the end of the map and there will be a giant hole in the sea. In The Edge For this mistake you have to go down turn. Find a room with a lot of money in it. Go out the side of the room, you'll find for the truck to go on the right. Go a little forward then left. You see the edge on the building on the right. Ran to the edge and jumped at the last second. You're now on the edge of going to the very back. A bigger post is now there. Get on the very small edge of that left and jump to the other side of the great post. More Than Two Guns In Special Ops Survival Mode This glitch works on any map.
