Porter cable oscillating tool adapter

I just bought a few Bosch blades for my Porter Cable oscillating tool. According to the Bosch tool pack, I need to use a screw and a washer to use the blades on the Porter cable. A packet of stuff sent me to the BTP page to see how to do it. Can anyone help me with this problem? Can anyone help me with this problem? Thanks for joining The Site Richard - I hope you stay. Unfortunately, you couldn't find information on the Porter Cable OMT adapter - I'll be working to get a page soon on what's to come. The solution to your problem is the adapter that Porter Cable makes for its tool. Here's a link to it on Amazon. Joe's right. You need an OMT adapter. You'll love the Bosch Blade performance. Rich, I had to get an adapter for my Dremel to use the Bosch blade as well and it works great. A long time ago, Bosch sent adapters for free. Mark E. Pioneer, CA Working Pro 1972 - 2015 Member from January 22, 2013 www.creative-redwood-designs.com Thank you all for your answers. Joe, I'm going with the Porter Cable adapter on Amazon. And I will keep coming back to this site. That's great! Mark. About two or three years ago, Welcome to Richard's website, I think you'll find a ton of useful information and people here. You have to log in to answer this topic. For Porter Cable Old Original, oscillating models with multi-instruments from 2013 and older use round pins to protect blades. Tim wrote about some of the problems he had with his new Porter Cable 3.0A oscillating multi-tool. I've written favorably about this model several times in the past, and Tim bought one based on my recommendation. He also acquired additional cutting blades - PC3012-3PK and PC3014. Now, here's the problem - Tim couldn't get his new Porter Cable Blades to fit his new Porter Cable oscillating tool. Porter Cable customer service tried to help him over the phone, but it seems they are experiencing similar difficulties. Accessories that work with Tim's Porter Cable oscillating multi-tool have square fastening holes. The blades, which he purchased separately, have round holes. The rectangular pins of his instrument do not fit through the round holes in the individual accessories. I had wild theories that incompatibility was due to manufacturing defects or sneaky Amazon customers buying Porter Cable Cable and the return of the branded blades to their place. But as it turns out, Porter Cable recently updated its hesitant multifunctional accessories attachment design. New tools and accessories are now built with versatile blade patterns. What Tim unknowingly purchased were old Porter Cable blades that were designed with an older picture accessory. The oscillating tool market is in the process of moving to a universal accessory, which is a huge advantage for the customer because they now have more choice. DeWalt made the changes last year and Porter Cable followed suit. The deWalt's versatile fit accessories are now suitable for old and new Oscillating Porter Cable tools. We knew there was a limited number of old Porter Cable accessories on the market, and unfortunately it sounds like your reader has purchased a set of them. Last weekend I went looking for porter cable oscillating tool blades at the local Lowes to see what their attachment holes looked like, but I couldn't find it. And with the numbers of models presumably unchanged, no one knows whether you buy a new style or old style blades when you order online. I asked my Porter Cable Contact where Porter Cable hesitant tool users could find the blades compatible with their tools, and they recommended Dewalt a new versatile fit oscillating tool of accessories. Dewalt accessories are guaranteed to be suitable. © 1996-2014, Amazon.com, Inc. or its affiliates Point Location: Chino, California, United States Shipping in: Worldwide excludes: Africa, Central America and the Caribbean, Middle East, South America, American Samoa, Cook Islands, Fiji, French Polynesia, Kiribati, Marshall Islands, Micronesia, Nauru, New Caledonia, Niue, Palau, Papua New Guinea, Solomon Islands, Tonga, Tuvalu, Vanuatu, Wallis and Fuuna, , Greenland, Mexico, Saint-Pierre and Michelon, the Russian Federation, Albania, Andorra, Belarus, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Republic of Cyprus, Czech Republic, Estonia, Gibraltar, Guernsey, Hungary, Italy, Jersey, Latvia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Malta, Moldova, Monaco, Montenegro, Poland, Portugal, Romania, Armenia, Azerbaijan, Bangladesh, Bhutan, China, Georgia, India, Kazakhstan, Kyrgyzstan, Maldives, Mongolia, Nepal, Pakistan, Sri Lanka, Tajikistan, Turkmenistan, Mongolia, Mongolia, Tajikistan, Mongolia, Turkmenistan, Mongolia, , Guyana, Panama, Mauritius, Chad, Madagascar, Bahamas, Iran, St. Kitts Nevis, Western Sahara, Bolivia, Congo, Republic of Seychelles, Sudan, Guadeloupe, Venezuela, Somalia, Burma, Republic of Korea, Liberia, Liberia Republic, Martinique, Dominica, Niger, French Guiana Guiana
