Metal zipper with large pull for YKK#5 ease of use. The classic fit sits on the hips to provide comfort and freedom of movement. Imported. Material: 100% cotton lining: 100% brush cotton flannel. Number: F17-0010; guide gear men's flannel lined cargo pants show more built-in warmth and lots of pockets. Do you need extra warmth in a frosty early morning chore?extremely cold warehouse? Our flannel-lined cargo pants keep you warm with an inbuilt brush cotton flannel lining that locks into warmth and keeps you cold. Pockets on the front, sides and back make it easy to store keys, phones and other essentials. Brushed cotton flannel lining adds warmth on cold days. 2 high quality 5.2 oz deep front hand pockets. 2 back snap flap pockets to secure gear. 2 side pockets with plenty of space for carry-along. Metal zipper with large pull for YKK#5 ease of use. The classic fit sits on the hips to provide comfort and freedom of movement. Imported. Material: 100% cotton lining: 100% brush cotton flannel. Number: F17-0010; Guide Gear Men's Flannel Lined Cargo Pants If you prefer to work outside in more winter cold and wear cargo pants as pants for your work, it may be time to buy some insulated cargo pants. In this article, let's take a look at some of the best flannel-lined and fleece-lined cargo pants, so you can choose which one is best for you. These are our choices for the best flannel & fleece lined cargo pants: \* This post contains affiliate links (info) This list includes a wide variety of winter cargo pants. Some will be a little sturdier than others. In this article, you can take a closer look at these fleece and flannel lined cargo pants to decide which one is best for you. First, I'd like to briefly discuss the difference between flannel-lined cargo pants and fleece-lined cargo pants. Flannel vs. Fleece Lined Cargo Pants What's the difference between fleece-lined pants and flannel-lined pants? Both types of trousers are going to keep you warm and are suitable for outdoor winter work. If you let me give my opinion on fleece vs. flannel-lined work pants, I would say it comes to this: fleece-lined pants - warmers. TrapBasically all of your body's heat. It is not very breathable. It can be bulky. Flannel-lined pants – warm but a little more breathable than fleece. It's not that bulky. Again, it's just a general definition, and both types of pants take into account all that's very warm. I personally like flannel-lined trousers a bit more for active work. Sometimes, even in the cold, I have some heat escape and like to understand breathability. Some people feel like fleece is bulky, but I personally don't notice much difference. I own both and wear both, but prefer flannel. Here's a look at my flannel vs fleece pants: if you're doing an active job, it's not hard to sweat yourself out of a pair of insulated cargo pants. And for me, fleece does a great job of trapping in the heat, but if you're active at work, it can almost be too much. Obviously, your climate is also important. Some areas require the warmest option, and if you want the warmest cargo pants option, you'll probably lean freeze. For example, if you're an equipment operator who sits in the same position all day in subzero temperatures and rarely sweats, take your fleece-lined trousers and go personally. Wrangler Riggs Workwear Men's Ranger Flannel Lined Cargo Pants Many are familiar with Wrangler jeans, but Wrangler has a specific line of apparel dedicated to workwear called Wrangler Riggs workwear. Wrangler Riggs Men's Ranger Pants are very popular cargo ripstop pants for work and they also come in a military-free version. These Wrangler Riggs Men's Flannel Lined Ranger Pants will look like this (multiple colors are available): This is the current price of these Wrangler winter work pants available on Amazon (affiliate link will take you to Amazon .com). These pants have a relaxed fit, expecting to fit faithfully to the size. Ripstop Fabric - These pants are made of 100% cotton ripstop fabric to prevent tears and tears. They also have reinforced knees for long lasting durability. Cargo pockets - This pants has standard cargo pockets on both legs. They also have a very deep front pocket and have reinforcements in the front right pocket so that it can handle tape measure clips without wearing. These also have hammer loops. Rookie Fit - These pants have a relaxed fit that doesn't hold tight against your feet. There are also crotch gassets that are easy to bend, crouch and drive. Overall, these flannel-lined Wrangler Riggs Ranger pants give you everything you need in a pair of winter cargo pants. They are tough, wide and have enough storage from trusted brands. To buy these Wrangler Ranger pants on Amazon, click here (affiliate link .com to Amazon.com). Again, expect a relaxed fit that works true to size. Wrangler Authentic Men's Fleece Lined Cargo Pants The first pair of Wrangler cargo pants were flannel lined. These Wrangler CargoFleeces are lined up. As mentioned earlier, in my experience, fleece traps with more heat, but with less breathability. I recommend fleece for the coldest environments and for those who sit and operate the machine. These Wrangler Authentic Men's Fleece Lining Cargo Pants will look like this (multiple

colors are available): This is the current price of these Wrangler Fleece lined work pants available on Amazon (affiliate link will take you to Amazon .com). These trousers are 100% cotton and fit comfortably on the seat and thighs. If you prefer ripstop cotton for your work pants, you'll want to stick to either the first pair of Wrangler Riggs pants, or the carhartt pants we cover next. These Wrangler Authentic Cargo Pants use 100% cotton tailoring fabric. These are still very reliable and tough enough to use as work pants, but if you want something super durable, stick to either ripstop cotton, or any of Duluth's firehorse cargo pants that we're going to discuss later. These trousers have a lot of denim feel to them, which is what some people actually prefer in their work trousers. Click here to buy these Wrangler Fleece-lined cargo pants on Amazon (affiliate link .com to Amazon). Again, expect a relaxed, loose fit on the hips and thighs. Carhartt Men's Ripstop Cargo Flanel Lined Work Pants Carhartt is a brand that many workers prefer to wear and they have a pair of flannel-lined cargo pants that are a great option. These cargo pants use ripstop fabric, so they are durable enough to handle job sites. These Carhartt Ripstop Cargo Carlon Flanel-lined work pants look like this (multiple colors are available): This is the current price of these Carhartt Winter Cargo Pants available on Amazon (affiliate link will take you to Amazon .com). Expect these pants to fit the size faithfully. One specific detail that makes these pants unique compared to other pants on this list is that these carhartt pants are compatible with knee pads. If you need working pants with knee pad pockets, this is one of the few options on the market that gives you both knee pad pockets and is an insulated lining for warmth. Most work pants with knee pad pockets are not insulated or lined. If you work outside during the winter cold but spend much of the day kneeling, these are great options for you. Of course, you will also be knee to buy knee pad inserts to go with these pants. These carhartt pants have a reinforced double front for extra protection. They have a relaxed fit through the seats and thighs and also have a gutschrotch to give you additional freedom of movement. Wrangler Ranger Flannel Lining Pants Use the 3.75 oz flannel lining we first discussed. These carhartt pants list the lining as 3.8 ounces. It may just be a rounding issue, but overall, expect the weight of the liningIt is basically the same. Click here to buy these Carhartt Flannel-lined cargo pants on Amazon (affiliate link .com you on Amazon). Again, expect a relaxed fit on your hips and thighs. Duluth Trading Co. Fleece Cargo Pants Duluth Trading is a workwear brand founded in 1989, but it has really gained steam over the last decade. One thing I personally like about Duluth is that they still focus on making tough, reliable, comfortable and easy-to-wear clothes. I also like to have different types of fleece-lined cargo pants so they can choose what makes sense for you. They have heavier duty fire hose fleece cargo pants, and cargo pants lined with fast-dried nylon dry-on-the-fly fleeces. Duluth Firehorse pants are made from very tough cotton canvas - the same type of cotton canvas that has been used in the past to line the outside of fire hoses. Dry on the Fly pants are nylon and quick-drying. Duluth Trading's relaxed fire hose fleece lined cargo pants - these pants use sturdy fire hose fabric but add crotch guts for a little more comfort. These trousers have a total pocket of 11 and they do not stand up to water as well as dry on a fly pants, but these trousers have a water repellent finish. Fleece lined up. It is also available in the DuruthFlex version. Click here to see these trousers. Duluth Trading Inc. Duluth Flex Relax DOTF Fleece Cargo Pants - These dry on the fly pants are built for wet winter environments. They are made with nylon/spandex blends that give them some flex. These pants will give you freedom of movement because they also have crotch gussets. They have zipper pockets to store essentials from the rain. Fleece lined up. Click here to see these trousers. Free Soldier Men's Outdoor SoftShell Fleece Lined Cargo Pants These free Soldier Pants are a unique take on winter cargo pants. These are softshell pants - you generally don't see many softshell work pants. Obviously, most work pants need to be durable enough to stand up to the field and other types of work, but some people actually prefer lightweight, soft-shell work pants. And yes, these trousers have a fleece lining. Here's what you'll see with these free soldier softshell fleece lined cargo pants: this is the current price of these free soldier free fleece lined cargo pants available on Amazon (affiliate link will take you to Amazon .com). These are made of a blend of polyester/spandex softshell fabric. You need to decide if softshell pants will help you in your job. Pants for hiking, skiing and general outdoor activities, but they can also be used for winter work. The fabric interferes with the wind and is water resistant. In fairness, despite being a softshell fabric,The fabric is still listed as a tear resistant fabric. Well, I don't plan on this fabric that will hold up like a durable duck cotton canvas fabric, but still, this might give you peace of mind knowing that it has tear-resistant properties. The main takeaway of these trousers will be comfort and flexibility. These trousers not only have stretch soft shell fabric, but also have elastic waistbands. These trousers have two side zip pockets in addition to cargo pockets. This provides a safe place to store essentials while working. They have a standard zipper fly with button closure. Click here to buy these softshell-free Soldier Fleece-lined cargo pants on Amazon (affiliate link .com you on Amazon). Again, expect a comfortable fit with stretch fabric and elastic waistband. Guide Gear Men's Flannel Lined Cargo Pants Guide Gear is a brand that makes a variety of outdoor gear, including flannel-lined cargo pants that can be used for hiking and work. Here they look like this: This is the current price of these guide gear flannel lined cargo pants available on Amazon (affiliate links .com you on Amazon). These are made of 100% cotton. These are standard cargo pants that have many of the storage options including two back snap flap pockets. These trousers also have a front pocket that uses a 5.2 oz poly/cotton lining to give you extra warmth. These are very classic styles of cargo pants, giving you something warm and functional at work. To buy these guide gear flannel cargo pants on Amazon, click here (affiliate link .com you on Amazon). Women's Fleece Lined Cargo Pants Unfortunately, there aren't as many flannel and fleece lined cargo pants for women as men. One company that makes lined winter cargo pants for women is Duluth Trading Inc. by clicking here to see duluth flex fire hose fleece lined cargo work pants. These trousers use Duluth's sturdy firehorse cotton fabric, but combine it with a small amount of spandex to give these cargo pants some stretch. The fabric also has a water repellent finish. These trousers have a tortuous fit that sits just below the waist. These pants have seven total pockets, including a large front slash pocket. These trousers are lined with fleece. \*\*This article simply focuses on cargo pants and sees all types of insulated winter work pants, see our article about the best winter work pants. There are also articles discussing the best flannel-lined jeans, the best winter khaki pants. To read more, check out our article about carpentry pants lined with the best fleeces. Pants.
