A population of many today exploits controversy as a platform to communicate with their network but only a handful of us know how to manage our Server.Old Discord Server.Old messaging is surely an arduous task that one has to manage when handling a Discord server. However, it's also important to keep a tab for your messages and delete negative or abusive messages in any other way. Your Discord server size determines how many messages it can store and the number can be in thousands. You can choose to delete all messages at once and get rid of them or delete only a few selective messages. Whichever option you choose, ensuring you enjoy it in the most user-friendly way makes it an easy task. That's what this message is all about. We've compiled this guide to help you learn how to manage your Discord server messages and the easiest way to get rid of them. How do I delete all dispute messages? There are two unique types of messages on the Discord server. First, there are private messages that are messages shared by two users that are sent directly to each other. Then there are channel messages that are text messages that are shared with a group of users on a dedicated channel. The rules and function of each message type are unique to their type. Initially, deleting notifications on Discord was very easy and administrators could do it easily within the app's original user interface. Deletion was possible for bulk And because many administrators practiced it, it created serious database errors. Therefore, it was decided to remove the option from the original user interface. Deleting all disputed messages is still possible, but now it's a little more complicated than before. Can I delete messages directly in a dispute? Here's a step guide to delete the direct messages in Discord. You need to be specific about the message you need to delete because you can close the chat panel or delete a specific message that won't then be displayed in your message history. Here's how to delete a direct message in Discord:Step 1:Right Click the name of the user you shared the message with and select the specific message. Step 2: You will be directed to the Direct Message pane on the left side of the screen. Hover over the conversation and you'll see an X. Click it. This message will delete the specific message from your chat history. A dispute won't ask you to approve your action and once you click X, the message will be deleted at once. Be sure not to delete other messages. Here's how to delete a private message in Discord. However, if you want to delete channel messages, you must read more to get the correct instructions. Can I delete disputed channel messages? Yes, you can, but it's not the same as deleting messages directly. There are several different methods for deleting channel messages in Discord.Manual Deletion of channel messages in Discord:Here is a step-by-step guide to deleting channel messages in Discord:Step 1:Click Open the text channel that contains the message you want to delete. Step 2: Hover over the message and you'll see an icon of three dots at the far right. Click the icon, you'll see a drop-down menu. Click Delete. Step 3:You'll see a pop-up window asking for your approval to delete the selection. Click Delete.You can easily delete a handful of channel messages using this method. However, if these messages are in terrible quantities, you may not be prepared to put as much effort into erasing them all as necessary. Here is an easy method to delete discord.Using controversy bulk channel messages for deleting bulk channel methods:You can find a variety of bots online that will help you delete bulk channel messages on Discord. However, MEE6 is one of the most reliable and user-friendly bots on the market today. To install an MEE6 bot, you must log on to your Discord server and do the following: Open the MEE6 web site. Select Add to Discord. A pop-up window appears, click Continue. Link the MEE6 bot to your Discord server. You must now authorize MEE6 to access your messages and delete the required messages. You must give permission by clicking the confirmation icon. Next will be user authentication. You'll need to add captcha and follow Authentication guidelines. Now the MEE6 bot is successfully installed with your server and you can use it to do the necessary. You can select the features from the request windows or use the following commands: ! Clear @username will delete 100 messages from any specific user. ! Obviously 500' it will delete all 500 recent posts on the channel. Depending on your requirements, you can change the number and delete as many messages as you want up to 1000.This method is one of the fastest and easiest messages to delete bulk channel messages in Discord Server.Duplicate the channel to delete bulk channel messages in Discord Even if the MEE6 option does not bring you the desired results, you have the final option and it is a clone of the channel. This is a way to make a copy of the channel minus the existing message history. Here, it is worth noting that you must create a list of bots in the channel as during cloning they cannot be copied. Here's how to duplicate a channel on the Discord server:Right-click the channel and click Channel.If clone wants, you can rename the dusty channel here. Delete the previous version and access the canceled version. You can add bots of your choice if you want. When you replicate the channel, users of the original channel are added automatically. This process will also recreate everyone's permissions. This is an easy way to get rid of unwanted messages from a channel than creating a whole new channel. How do I recover deleted messages on a Discord server? It's difficult but once you've deleted messages from your Discord server, they can't be retrieved even if you did it by mistake, you can't get the messages as the company doesn't keep any database of deleted messages on its server. However, there are some tricks and bots you can use to capture screenshots of inappropriate messages you receive. These screenshots are used as proof when contacting support staff to report them. Them.
