Verizon jetpack 4g lte mifi 4620l manual

Share your connection with Fast 4G LTE and 3G mobile broadband access worldwide with Verizon Jetpack 4G LTE Mobile Hotspot MiFi 4620L by Novatel Wireless and ten Wi-Fi enabled devices at the same time. The MiFi 4620L is built on the next generation, award-winning innovation and design, proven performance, and industry-leading user experience in the Novatel Wireless MiFi smart mobile hotspot portfolio for Verizon Wireless. With this 4G LTE MiFi smart mobile hotspot, enjoy fast Internet access ad wherever, anywhere you go. The MiFi 4620L is backward compatible with high-speed DC HSPA+, HSPA+, WCDMA, EDGE and GPRS technologies to keep you connected. The compact MiFi 4620L is perfect for instant connection and won't welcome you. And with Verizon 4G LTE samhe power, connectivity is faster than ever. You can download 20 photos or a song in just four seconds in one minute -- 10 times faster than downloading over a 3G network. You can expect download speeds of 5 to 12 Mbps and upload speeds of 2 to 5 Mbps in 4G Mobile Broadband coverage areas. Currently in non-service markets by Verizon 4G LTE, the MiFi 4620L will be connected via Verizon Wireless 3G network. With the interactive OLED display, you can easily swipe to view battery life, check signal strength, check the number of connected devices, read text messages, view network details, access your password, and more. The MiFi 4620L is the first product to support GPS over Wi-Fi, allowing apps to access streaming GPS (NMEA). Transfer GPS location services when moving to up to 10 devices at a time, no cable required. Connect up to 10 Devices Securely create your own personal Wi-Fi cloud and share high-speed 4G and 3G Internet connections with up to ten devices - laptops, tablets, e-readers, game consoles, and more. The MiFi 4620L supports the latest security protocols required by some of the most strict enterprise VPNs, including VPN Pass-through and NAT Firewall. Features connected with up to 10 Wi-Fi enabled devices Wi-Fi network (802.11 b/g/n) Wi-Fi via GPS Windows XP(SP3), Vista (SP2), 7, Mac OS X 10.5 or later, Linux Sizes: 3.74 x 2.36 x 0.53 Weight: 3.2 ounce Battery: standard battery up to 5 hours and optional extended battery up to 8 hours Verizon Wireless 4G LTE Network Verizon Wireless 4G LTE network Verizon Wireless 4G LTE network allows you to download photos, applications and games in seconds. LTE (or Long-Term Evolution) significantly reduces latency (or latency), as well as significantly increased loading and download speeds over 3G networks. Verizon Wireless 4G LTE expects average data speeds of 5-12 megabits per second (Mbps) to be in downlink and 2-5 Mbps uplink real-world, installed network environments. With these burning fast speeds, you can you will be able to stream HD movies without pauses Download HD quality movies to your phone in a few minutes quickly, such as streaming video. You will also be able to download a new song file in about 4 seconds or upload a photo to your favorite social networking site in about 6 seconds. Verizon Wireless 4G LTE mobile broadband network will also rediment mobile office for business users. Business applications that require wired networks are unraveling forever, maximizing productivity and efficiency when you're out of bounds of your office. Enhanced security allows you to tap most VPN eanas with less standby, and faster resening allows you to restore 10MB presentations to your team in less than 25 seconds. In areas served by 3G only, you can expect download speeds of between 600 Kbps and 1.4 Mbps, and upload speeds of 500 to 800 Kbps in Mobile Broadband coverage. 1 2 Table Contents 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 3 1 32 33 33 3 4 35 36 37 38 39 40 41 42 43 44 45 46 47 48 49 50 51 52 53 54 55 56 57 58 59 60 61 62 63 64 65 66 67 68 69 70 71 72 73 74 75 76 77 78 79 80 81 82 83 84 85 86 87 88 89 90 91 92 93 94 95 PocketPORTTM Modem Configuration Guide: Novatel Wireless MiFi 4620L (Verizon Jetpack 4G/LTE) Model 4620L ManufacturerNovatel Wireless Other NamesVerzion Jetpack, MiFi 4620L Configured by , 4620LE , 4620, Mobile Hotspot Antenna JackTS9 Pigtail Section #ANT-104-TS9 Automatic PocketPORT 2? Yes. Firmware 2.1.0 and higher Comments *** Support for this modem requires PocketPORT firmware version 1.6.23 or later. IMPORTANT Configure PocketPORT before installing 4620L. Default APN vzwinternet (custom dynamic IP addresses) SET APN Number = 3. This is necessary. After you type configuration parameters, convert PocketPORT to a power loop. Install and run the MiFi 4620 update utility from the following connection on a Windows PC with 4620, which is connected to the PC via a USB cable. This update may take several minutes to complete, and your 4620 will restart several times. *** After being updated, you must make the following configuration changes to 4620 after connecting over WiFi (): Network>WWAN>Auto-connect = Manual Advanced>Settings>USB Tethered Mode = Active Advanced>Settings>Auto-Off = Jetpack power cycle after you change these settings. For more information about changing JetPack's settings, see 4620L's User's Guide. There should be no Wi-Fi devices connected to the 4620L when PocketPORT is plugged in. Note that PocketPORT will not display 4620L as an active user on its screen. Follow these instructions to activate title 4G Prepaid Jetpack.
