Mind traps questions

You can't start a new topic You can't answer this topic Published April 27, 2004 - 09:41 PM OK, I'll post a ton more mind trap puzzles. See if you can get any of them. The winner must answer correctly to at least 10, with most having at least 3 more than second place. The prize will be something good.1. The horse travels a certain distance every day. Remarkably, 2 legs travel 31 kilometres a day while the other two travel only 30 kilometres a day. How is that possible?2. Suppose you have a tank of 5x5x5 cm (capacity of 125 cubic cm), and you have a steel ball that is 25 cubic centimeters. How many cubic centimeters of mercury would it take for the ball to sink completely?3. How can you rearrange a letter's new door to make one word? Keep in place: there is only one correct answer.4. There's a four-mile-long bridge that can hold absolutely no more than five tons at a time. A truck weighing exactly 5 tons begins to cross the bridge. Halfway through, a 30-ounce bird lands on a truck, but the bridge holds. How is that possible?5. How can you add two to eleven and get one? (You'd better get this one) 6. The following arrows represent the common English word: ^ > < V7. What four letters can fix this statement. The _o_a_l_ was _o_a_l_ and was therefore _o_a_l_ to work.8 How many times can you subtrate number 5 from 25?9. The manufacturer doesn't want it, the buyer doesn't use it, and the user doesn't see it. They wanted to bring the canaries into space, but someone found out and the mission was dropped. He found that if they were sent into space, the birds would die of dehydration. Even if they bring a lot of water, they'll still die. Why?11. What does it mean: M N X R L T 4 U12. What letters follow? ST ND RD ... 13. The guy was in the library and found a book with VOLIX on his spine. How do you pronounce it?14. Two men were tried for murder. One was found guilty, the other not guilty. However, both were released. Why?15. It is impossible for a person to go without water for more than a week. Someone crossed the desert without finding or birgin any water (in addition to being in food) in 10 days time. How did he survive?16. (I think I've used this before, but oh well.) Translated by: 10020418017. What are the following three letters in a row: j, a, s, o, n, ... 18. A New York woman married ten different men from that city, but she didn't break any laws. None of them died, and she never got divorced. How is that possible?19. A man singlets his entire hand in water that boiled a few seconds ago but did not get burned in any way. How is that possible?20. What words from group B belong in Group A and why? a) FRONT, SKI, MELON, FALL, B) ROAD, TYRE, TOWER, CLIFF21. What words from group B belong in Group A and why? a) EXPLOSION, PAPER, BOX, b) JUICE, BAG, CRADLE, CARPET22. Where will the letter Z go and why (left or right side)?? AEFHKLMTVWXY / BCDGJOPQRSU 23. The U.S. constitution requires a person to meet 5 conditions to become president: You must be at least 35 years old, a U.S. citizen, a U.S. resident for the past 14 years, and you must have been born in the United States. What's a fith one? 24. What are the following three letters in a row: H, H, L, B, B, C... 25. What word does not belong and why?: Meter, Potato, Storm, Face26. What word does not belong and why?: Toothbrush, Monosilabic, Iona, Phonetic 27. Translate the following: NJOE USBQ SJEEMFT: QBSU UXP28: Pete and Lisy, two popular political figures, met at a bar to discuss the overthrow of their party leaders. They both skinned vodka on the rocks. Lisa drank his quickly, then ordered another. Pete sipped slowly as they discussed how to get rid of the leaders. They were thinking about staffing leaders for some scams, and they were discussing how to do it, when all of a sudden, Pete dropped dead (sorry Phieta). Both Pete and Lisa were the targets of the attack. Why was Pete killed and why was Lisa spared?29. I have 10 bags full of 20 coins that look alike. One bag is full of all the fake coins. Real mites weigh 10 grams a year, and fake coins weigh 20 grams. Using a scale that measures in grams, how can you determine which bag holds fake coins with just one weigh-in. (Obviously you really don't need a scale to determine which one weighs twice as much, but it allows you to pretend to work.) 30. There is this strange island that is a very popular tourist resort. On this island, the natives always lie and visitors always tell the truth. While vacationing on the island, Cspace arrived two people, Ryl and Traver. Traver told Cspace, I'm native, but Joise is a visitor. Are they both visitors, both natives, or one of each?1. Yes, it went in circles - bigrat2 2. Steel will float on the living. - Janik C-Bol3.
