## Forensic chemistry the strange case of mole airlines flight 1023

Scan each individual's boss for their identity. Scan your clothes for any additional evidence. The bodies could not be identified. Two missing persons in the apartment block could not be taken into account. They were: Mrs. Judy Black. She was described by neighbors as a lonely woman who was taking medication for severe depression after her husband's death. Mrs. Irene Foster. She was a fitness fanatic and was always careful with what she ate. He always drank diet drinks after exercise. Each body's medical examination revealed the following data. Body A A blood sample revealed the presence of two unusual substances with composition percentage 57.14%C, 6.16%H, 9.52%N 27.19%O, 80.48%C, 7.45%H, 9.39%N, 2.68%O Respectively. Body B A blood sample revealed the presence of a compound with the composition percentage 81.58%C, 8.90%H, 9.52%N 1 2 Mole Airlines' baffling case, Flight 1023 3 at 6:02 am you and your medical examiner team are called to the scene of a plane crash at a remote location. The plane shows evidence of a precrash explosion. Ten victims are found at the scene, but none are identifiable by witnesses or dental records, or DNA evidence. One victim was killed before the plane crash. The flight manifest shows the names and certain information about the victims. 4 Part One .... The aircraft itself Click here to see the evidence of the plane here Click here to see the evidence of the victim #1here section 5 A of the aircraft has been blown up by an explosion. Looks like the explosion happened before the accident. Click here to see the analysis of the sampled compounds in the blast area.here 6 The explosion site residue shows the following elementary analysis: 37.01% carbon 2.22% hydrogen 18.50% Nitrogen 42.27 % Oxygen Click here to see the list of possible compoundshere Click here to see the evidence of the victim #1here Click here to see the flight manifestha here to return to the aircrafthere 7 Flight Manifesto: Redd D. Trooak.... American, pilot with a secret heart condition T. King Bomba..... Colombian political leader, suspected terrorist B.N. Klaas .... American, unemployed environmental engineer, avid environmentalist. He's had a recurring problem with depression. Iselle Ubye..... South Africa, an independent contractor, suspected drug dealer Threwit Allaway - American, Athlete Pro just suspended for pain addiction killing drugs. Pierre E'Claire ..... French, Baker Rebecca A. Pillseller ..... Canadian, Pharmaceutical Ivanna Killet..... Swedish, world-renowned big-game hunter M. Sum psychiatrist Click here to return to the planehere Click here to see the possible compoundshere 8 Victim #1 67.31 % carbon 6.98 % hydrogen 21.10 % oxygen 4.61 % nitrogen nitrogen Here to see the possible compoundshere Click here to go to the victim #2here 74.25% carbon 7.81% hydrogen 12.99% nitrogen 4.94% oxygen substances found in the victim's luggage. 9 Victim #2 63.15% carbon 5.30% hydrogen 31.55% oxygen Found on clothing and victim's briefcase Click here to see the possible compoundshere Click here to go to the victim #3here 46.66% carbon 4.48% hydrogen 4.48 %31.10 % nitrogen 17.76 % oxygen Found in stomach contents 10 Victim #3 63.56 % carbon 6.00 % hydrogen 21.17 % oxygen 9.27 % nitrogen 2000 tablets found in the victim's pockets.
