Lock and Load, Everyone - Dartling Gunner is here!• Dartling Gunner Tower, complete with glorious Tier 5 powers • 3 Dartling Gunner Monkey Knowledge, plus 5 other new knowledge • Look for penguins on chilly new debut map, skates • X Classical marks the place on challenging advanced map X • Factor all new Challenge browser choice, complete with favorites, and filters It's missing a few things. I actually miss the balloon chipper it was the same as my thing engineer. Will they make an appearance on a later version of the game or will your kicking them to stop? I really want them back in the game please don't get rid of them. Also you can please add a multiplayer mode that I really loved on TD5. Its kinda annoying switching 6 to 5 just to play multiplayer. Also probably a suggestion for all towers since there 3 From your tower branch after you can disappear the selection after you disappear 1 or 2 upgrades on all 3 selections??? It's kinda annoying to see something you want and 2 other selections you really want but all in their different areas. I want to select all 3 things to upgrade. That would be good. It always seemed like me to have a ninja kiwi game tradition to upgrade 2 things on each branch and then go with a dich and each other. Now you guys should kind of break it in a way because it falls into the same category with their selection now being 3 branches of upgrades. Idk you guys think about that those are the things I want to see or hopefully see in the near future. Also you guys can probably add more challenges every day like 5 challenges please???? It would be fun too it might boost sales for people who can't pass a round. Oh boy me again with another review. Should the bad be right? No, after I stopped being a little brat about these heroes and decided to really start trying to get them (I have them all as of now), and the grind was boring let's just point out. Not that I don't enjoy playing games, have a good round 100 run fun every now and then, but just for the heroes, it was a boring grind. I enjoy some of them as a matter of fact and hate myself for complaining and not trying quickly. But the skins were extremely unnecessary. Then what am I complaining if I never get them? Anyway the next topic, when are engineers, Bloonchipper, and Dartling gun to be returned? Seriously, we still have fewer towers over there than BTD5, and heroes don't apply to that category because they're their own systems. Also seems impenetrable with the whole achievement on his list that's winning 10 games using only support towers (ha ha, did) and it should be clear Engie and Chipper will be in the support class. Want to add to this on odyssey or return of two player mode. All I ask is that there needs to be something more added to the list instead of lone singles and races (competition, it doesn't enjoy as much of cooperation). Or make something new and exciting. Conclusion, the game will still one day love as a buyer, but enjoy seeing some things back and added some new things. TLDR: The game is great, but double cash is too expensive and what it says it doesn't make the game is insanely fun to play. I got it when it first came out, so it hadn't played in a few months, but picked it back up recently and I haven't been able to close it. I came back and had changed so much, there were 2 new heroes, some new skins, lovers and nerfs, and overall it felt a lot better to play. Now I am saying all this but why did I make it just 4 stars? I don't like the changes in the monkey's farm. It's waaaaaayy underwhelming compared to btd5. I think I'm btd5 it was a little op,but it was cut to maybe 30% of what it used to be which way is too much. Special More The fact that the double cache mode works on anything but popped bloon, unlike btd5. Now I went to LVL 83, all easy to have chimpanzee medals on the map, all without double cash. I got a little bored and decided why not mess around a little and see how much money I could get from round 100 or 150 etc. but then I get into a game and realize I'm still getting 375 per banana crate (4.2 million monkey knowledge with banana farm) and now I regret spending \$18 on something that says what it says. The details for the purchase are all forever cash doubles earned in the game or something along those lines, like at least tell us it won't count toward the fields. The X2 cash is already priced higher without working with farms so at least communicate what it will and won't.
