Older students seem to enjoy good authentic music best, and with small ones, I use more themed songs. I've collected our favorites on this page so you can find what you need. If you're not a native parent like me, songs in Spanish for kids are perfect for improving their own language, and learning Spanish-speaking culture right with your kids - especially nursery rhymes and folk songs. If you use songs to learn Spanish, here's a good tip: you can adjust the speed on YouTube by clicking the settings button in the bottom right corner. Subtitles are not always accurate, but adjusting the speed at first can help make it clearer. Here I have collected songs from traditional Spanish level classes. If you're new to teaching with genuine music, take a look below for some ideas, resources and examples of how to teach with songs. For me it was one of the most enjoyable and vital strategy in my class. I study and enjoy right with my students. Different students love different songs, but they often go home and listen on their own. (Voluntary, self-contributed? yes, please!). I also had students travel to Latin America or eat a Latin restaurant and report back how excited they were to recognize the songs on the radio. These activity packages have been designed to anchor your weekly Spanish songs, so you'll have lyrics, keywords and activities ready to go. Please note that these are not complete units. Rather, I've created an event to achieve the following goals: everything fits on one sheet. That's right - you make one copy, per student, for a song. The sheet contains edited key terms and cloze action. Each sheet has at least one additional activity: listening, reading, search-lyrics, writing, or culture. Everything (except maps and some art clips) IS EDITABLE. Videos are embedded in a YouTube file to easily show in class.
