Hall county schools covid

thenationalguard/FlickrConfirmed COVID-19 cases in America rose more than 129,484 yesterday, which is a record, to 9,960,379. Many experts expected that figure could routinely move above 100,000 a day. Fatal cases in the United States rose to 240,668, a day gain of 1,314. There is a concern that the fatal case per day figure could rise back above 2,000, which topped it for several days in April.Pandemic deaths by the state vary widely, and in some parts of the country they are several times the national average. The hardest hit state is now North Dakota. The deaths per 100,000 people figure stands at 1.9. By way of contrast, the numbers in the states where the rate is lowest are below 0.1 per 100,000.Deaths within states also vary widely. North Dakota is no exception. In Dickey, deaths per 100,000 are a breathtaking 29.3. It is followed by Towner County on 19.6 and Pierce County at 10.8.Dickey County is sparsely populated. The U.S. Census Bureau's estimate of population in 2019 was 4,872. Of those, 98% were white. At \$29,231, the median household income was about half the national average. The poverty rate was 11.6%, about one point below the national average. Census data also show the county has lost its population every decade, but one since 1930, when the population was 10,877. The county covers 1,142 square miles, so, it's sparsely populated. That's something it shares with the state. North Dakota ranks 48th in the population of all states at 762,062. It ranks 16th in the states in square mileage at 68,994. The population and square mileage show that a scarce population is no longer a protection against the spread of COVID-19. According to the Grand Forks Herald, North Dakota remains the national leader in multiple outbreak rankings, according to the Centers for Disease Control and Prevention, reporting the most COVID-19 cases and deaths per capita in the country in the past week. There's a consensus on what went wrong in North Dakota. The state was never effectively shut down to slow the spread. Social distancing rules and regulations, as well as enforcement of mask-wearing rules, were rare or did not exist. The state government took what most other states would consider inadequate measures to protect its own population. When crude totals are the primary measure, U.S. confirmed cases are concentrated in the largest states by population. Texas has 1,008,985 and California has 972,801. In Florida, there are 837,077 cases, and New York has 530,354. New York State still leads the country in fatal cases at 33,287, mainly due to the brutal disease in March and April. Both the rise in confirmed cases and fatal cases in New York State have fallen to one of the lowest in the nation. The United States is not the only nation in the world with confirmed case counts in the seven figures. India has 8,510,219. Coronavirus count there is 186,124. Health experts say that because of the size of the nation geographically, and the relatively primitive health care systems, more than 60 million people are actually infected, which is about eight times the official number. The Indian Council for Medical Research puts the figure as high as 63 million. Brazil has a confirmed count of the number of cases of 5,653,561. New cases have recently increased at a rate of more than 20,000 per day. The COVID-19 death toll is 162,286. As in India, Brazil's figures are too low. It is almost impossible to count cases in the interior of the nation. In the poorest parts of the largest cities, full of poor people, the disease is also difficult to detect. Russia has 1,774,334 cases, and fatal cases there number 30,537. Most experts say the death toll is far too low to be real. It may be that the government has kept counting down to make it look like it has the pandemic under control. Confirmed cases rose by 20,498 yesterday, one of the highest one-day counts in Russia since the pandemic began. This list focuses on non-parochial college-prep private schools. Founded in 1899Geservice in Tarrytown840 Students, Grades K-12 Hackley School was founded in 1899 by Mrs. Caleb Brewster Hackley, a unitarian leader who dedicated the mansion where she summered to start school. The school was originally a boarding school for boys with a wide range of economic, ethnic and religious backgrounds. In 1970, the school was co-ed and, from 1970 to 1972, added a K-4 program. The entry-level program is now a five-day program. The school, which now enrolls 840 K-12 students, has a rigorous academic program and 62 sports teams, building on the school's tradition of having an early football team. The school has always appreciated community and the power of friendship. The school's mission is as follows: Hackley challenges students to grow in character, scholarship and achievement, to provide unconditional effort, and to learn from the different perspectives and backgrounds in our community and the world. Students tend to score well on Advanced Placement (AP) exams, and the mid 50% of a recent graduating class ranged from 1280-1460 on the math and critical reading sections of the SAT (out of a possible 1600). According to the director, Diversity is fundamental to our understanding of what good education is and one of the hallmarks of our community's culture. Founded in 1877Located in Dobb Ferry588 Grades 5-12 Located in Dobbs Ferry, 30 miles from New York City, Masters School was founded in 1877 by Eliza Bailey Masters, who wanted her students, who were girls, to have a serious classical education and not just the education provided by a typical typical School. As a result, the girls at the school studied Latin and mathematics, and by the turn of the century, the curriculum was college-preparatory in nature. The school attracted boarding students from all over the country. In 1996, the school was co-ed in the Upper School, and an all-boys' high school was founded to co-exist alongside the all-girls' high school. The Upper School also began to use oval Harkness tables and their associated discussion-based teaching style, which originated at Phillips Exeter Academy. The school also began the city term, a semester program that New York City uses as a learning laboratory. The school now enrolls 588 students from grades 5-12 (boarding and day) and recently built a new science and technology center. Twenty-five percent of students receive financial support. The school's mission is: The Masters School offers a challenging academic environment that encourages critical, creative and independent habits of thinking and a lifelong passion for learning. The Masters School promotes and celebrates academic achievement, artistic development, ethical action, athletic effort, and personal growth. The school maintains a diverse community that encourages students to actively participate in decisions that affect their lives and to develop an appreciation for their responsibilities to the wider world. Founded in 1869Located in Rye850 Students, Grades PK-12 RCDS was founded in 1869 when local parents invited a schoolmaster named Reverend William Life and his wife, Susan, to Rye to teach their daughters. Opened as the Rye Female Seminary, the school began to focus on preparing girls for college. In 1921, the school merged with the boys' Rye Country School to form the Rye Country Day School. Today, 850 students in grades Pre-K through 12 attend the school. Fourteen percent of students receive financial support. The mission of the school is as follows: Rye Country Day School is a co-educational, college preparatory school dedicated to providing students from pre-kindergarten through grade 12 with an excellent education using both traditional and innovative approaches. In a nurturing and supportive environment, we offer a challenging program that encourages individuals to reach their maximum potential through academic, athletic, creative and social endeavors. We are actively committed to diversity. We expect and promote moral responsibility, and strive to develop strength of character within a respectful school community. Our goal is to foster a lifelong passion for learning, understanding and service in an ever-changing world. Founded in 1916Lokaed in Mount Kisco Elementary School campus) Located in Bedford (the High School campus) 521 Students, Grades PK-9 Rippowam was founded in 1916 as the Rippowam School for Girls. In the early 1920s the school was co-ed, and it later merged with the more Cisqua School in 1972. The school now has an average class size of 18 students, and a faculty-student ratio of 1:5. Many of the school's graduates go to top boarding schools and attend local day schools. The mission of the school is as follows: The mission of Rippowam Cisqua School is to teach students to become independent thinkers, trust in their abilities and themselves. We are committed to a dynamic program of academics, arts and athletics, and support a committed faculty to challenge students to fully discover and explore their talents. Honesty, attention and respect for others are fundamental to Rippowam Cisqua. In an atmosphere that fosters intellectual curiosity and a lifelong love of learning, Rippowam Cisqua strives to teach students a strong sense of belonging to their community and the wider world. We, as a school, recognize the common humanity of all people and learn to understand and respect the differences between us.
