Resident evil code veronica guide pdf

Difficulty: 6/10. Estimated time at 100%: 15 to 20 hours. Missable Trophies: 3.(Duty and Humanity, Mad Weapon, Young Woman) Glitch Trophies: None. Related difficulty: None. Playthrough: 2. Introduction: Welcome to the Resident Evil Code: Veronica X Trophy Guide (PS3) Trophy Guide! Play as Claire Redfield, while searching for her brother Chris, after the events of Resident Evil 1&2! Can you survive another Umbrella Lab!? Roadmap: Step 1: Beat the gameDuring this step, just focus on beating the game at least once. Learn routes, learn enemy locations, and object locations. Remember to save Rodrigo. If you don't, don't worry, as you have to save it anyway in the next playthrough. In addition, make rotating saves. There are 30 slots to save in total. Don't be afraid to use them all. You can spoil easily and have plenty of opportunities to fix it, it helps a lot! After this run, you will have most of the trophies! You'll get these trophies: Terror begins a father changed beyond shades The fallen puller The prisoner who lost everything in the frozen earth The green giant The Queen's arrogant duty and humanity from the young woman Step 2: Battle Game! Now that the battle game is unlocked, we'll knock it out here. It's basically a timed attack through 18 enemy rooms. You have unlimited ammo for weapons in your inventory. These are annoying and stressful, but once you get the layout of the map, it's pretty simple. More or more than. You just have to erase it as 5 different characters, each with their own equipment. In addition, time is always running. Also on the menu. At the end of this stage, you will have 1 full trophy! During this step you will get these trophies: Battle Master Step 3: A RankNow comes the fun part. Grade A. You have a plethora of requirements for this trophy. How not to save, die or use first aid spray. The list goes on. But you can click here, to get an endless grass, which doesn't go away unless you accidentally mix it with another. I can't recommend it enough! So all you have to worry about is stocking up on the garments. Refer to Weapon Crazy for all requirements for a rank! After this step, you will have 100%! During this step you will get the following trophies: Weapon Crazy Trophy Guide: The Terror Begins Escape from the Graveyard of Terror. At the beginning of the game, the first area you go through is a cemetery. Once passed and seen a movie with a different character, this trophy will unlock after it. A changed father frees the changed man. This trophy is obtained after playing against Steve, and falling through a floor with him. Then there's an emotional video, and the trophy bursts later. Beyond the Encounter a former S.T.A.R.S. captain When you play as Claire, you'll reach a part where you'll meet Wesker in a movie. Movies. will appear after the movie. The Fallen Man flattened an unstoppable enemy. This will unlock after beating the Tire in the hold of the plane. This fight is annoying if you are not prepared for it. Go stocked with heavy ammo. Or 30 explosive bolts for the Bowgun! Now, when you start, you'll be next to a car. If you interact with it, you'll shoot the loaded at the Ant. Now run around the hold and shoot the Ant when you can. It moves slowly so it's easily dodged, but it can throw you out the back of the plane. When it bleeds profusely, you will hear a beep. Get back to the car and shoot the load again! Then he'll fly off the plane and die! The prisoner who lost everything defeats the unnamed man and ends his suffering. That's for killing Nosferatu in Antarctica. Just before you take the sniper rifle, put everything in the object box. Except for some health, a blue grass, grenade launcher and some grenades. Now Nosferatu is fighting on a helipad from which you can be knocked down if you're not careful. It moves slowly, and when it swings your arm, the poisonous powder flies and can poison you! Now, after using all the sniper ammo on Nosferatu, if he's not dead, hit him with grenades! When he dies, you get the trophy and the fight is over! At The Frozen Land Start the search for your sister. This unlocks when Chris arrives in Antarctica! You're nearing the end! The green giant greets your fallen companion. This is acquired once you see the death of a certain character when Chris is in Antarctica! No spoilers! The Arrogant Queen put an end to the Queen's reign. That's for killing Alexia at the end of the game. This fight is annoying and brutal and you need a lot of ammunition for it. I had more than 100 bullets, and 30 bullets, and I barely did. Enter combat with as many healing items as possible. Now, I was in the corner, shooting them, and pointing down from time to time to kill her plant eggs. I would also take a step or two from time to time and see how badly and healed I was. After doing enough damage, the Linear Launcher comes out of the wall. Now run around until you fire, then try to hit it with the Launcher. This is a great pain in the butt, since the aimer is first-person for the pitcher and flies around a lot. So hope for the best before time runs out! Duty and humanity deliver some medicine to a man in need. MISSABLE If you miss the hemostatic, Rodrigo dies. When you're in the military training facility, you'll hit a spot where you're going to have to chase Alfred. In the long corridor, at the north end, there is a life room. In this room, there is a bottle of hemostatic. Take the pills. Now, when you can, go back to your and give Rodrigo the pills and take this trophy! Crazy weapon Get the rocket launcher. MISSABLEThis is one of the trophies in the game. To get it, you need to get an A grade. To get an A grade, you need the following things: finish the game in less than 4.5 hours. The watch is ALWAYS RUNNING! No Deaths No Saves (Antarctica save can be used) No First Aid Sprays Give Rodrigo the Hemostatic Save Steve quickly in the death room Defeat the Gulp Worm to save Rodrigo as Chris All these things need to be achieved to get grade A. Now, if you're not sure about the paths to take, I recommend playing each section a few times or watching videos. I highly recommend using an endless technical problem of green herbs, so that you can simply run through all enemies, without wasting ammunition. The video is featured in step 3 of the roadmap. Shortly before beating Nosferatu like Claire, she leaves the endless grass, her gun upgraded, and the ammo in the box. Enter Nosferatu with the assault rifle, sniper rifle, found in the Antarctic weapons room and many healing items. Especially to cure the poison! Once you get your A rating at the end of credits, this trophy unlocks. Battle Master Get the linear launcher from the battle game. This is to get an A grade like any character in Battle Game! You have to play as 5 different characters and get a rank for everyone! Battle Game is just a timed attack through a series of rooms! Below is a strategy for each character and a battle mode map! Claire: The time limit here is 6 minutes for an A grade. The boss is Nosferatu, and it takes 20-25 seconds to kill. Then, when you load, open the menu immediately and equip the gun in the bow. He has explosive bullets and kills fast. Play the level a couple of times, to have an atmosphere for all enemies, then try it in less than 6 minutes. If you didn't hit the head in about 5:35, restart. You can sit still while you kill Nosferatu if you also want Claire Alternate: unlock this when you hit claire's normal Battle mode. Use the launcher with regular grenade shells. This time you have 8 minutes for an A grade. The annoying thing is, the boss here is The Ant, and he can throw you out of the helipad. Try going to the Tiranno in seven minutes, for each time and shoot him with grenades. Then I just hope he gets stunned, a lot! When you beat the round in less than 8 minutes, you'll get an A! Chris: The time limit here is 6:30. You're going to want to be in charge for five minutes. The use of the magnum is the best choice, as it kills everything you hit. Chris' boss is unfortunately Alexia. When she enters the room and the battle begins, run around her a tentacle and get as close as possible to her center. Then download with the magnum, repositioning when needed. When it takes flight, you have to in the air with the magnum. If you can get her into the upper left corner of the map, she'll be stuck against a wall and you can keep shooting at her at high speed until she dies! Steve: To unlock Steve's battle game, you need to fix it puzzle drawer like Chris, in the rescue room where spiders are first seen! The solution is the image on the wall! Then you get replicas of Luger and Steve! You'll love using her SMG all the way. The worst parts are the room with the guys in the elastic arm and the hunters. If you're up against your head, which is the Worm of the Rock, in about 8 minutes, you should be fine! I recommend running to the left of the battle arena, so you have more than one area to dodge! Grade A for this is 10 minutes! The biggest holdup is the Gulp Worm if it knocks you down a bunch. Wesker: It has a time limit of about 30 minutes. The reason is that he has nothing but a knife. You have to clear all 17 rooms with a knife! In the 12th room, you can go to another room and interact with a slot machine. You have a chance to have a magnum. If you don't get the magnum, your ride is done. As Chief Weskers is Alexia in the Main Hall of the villa. It will take us luck, perseverance and some skill! When you cut zombies, always point down too! You can take them down and hit them more than once with a swing! Refer to the map below for the location of the 13th Unmissable Casino Room. From the Young Woman receive encouragement from a young woman. MISSABLEWhen you reach the point where you take control of Steve, kill the zombies in front of you, then go back to the door you came out of. Claire will give you words of encouragement and you will get a trophy! Related
