This is the 15th in The Sword of Truth series and the fourth novel in Goodkind's new Richard and Kahlan series, which takes off just after the end of the original Sword of Truth series. [3] Warheart marked the end of Richard and Kahlan's journey and was the last battle of the three millennia-old war. With hannis arc and emperor Sulachan marching towards the heart of D'Hara, Kahlan faced his greatest challenge and had to fight for the world of life and for Richard's existence. The plot is all gone. Evil will soon consume the D'Haran Empire. Richard Rahl lies at his funeral bier. This is the end of everything. Except what's not missing is Kahlan Amnell. Following the inner command beyond all reason, the last Confessor will bet everything on the ultimate desperate gambit, and as such, he will change the world forever. Terry Goodkind's Warheart is a direct sequel to, and in conclusion, the story begins in The Omen Machine, The Third Kingdom, and Severed Souls. Obtained from Edit Comments Share Warheart is Terry Goodkind's 18th novel, the fourth and final in the Richard and Kahlan series. Followed by Death's Mistress. The book begins where the previous novel, Severed Souls, was abandoned. Warheart was released as a hardcover copy on November 17, 2015. Summary (spoiler)[edit | edit source] Richard's body will be cremated when Kahlan sees Hunter who is the messenger of Red and stops the feeling that he might be able to bring him back. Kahlan, Nicci and Mord-Sith follow Hunter to a meeting place with Red who tells them how to save Richard by looking at the flow of time. The key is to find the clergy in the underworld which in turn helps them find another clergyer Naja Moon. They did this by Nicci using the knowledge of the Sister of the Dark and the blood of Kahlan and Richard. Nicci manages to travel to the underworld with the help of the rohis and their allies against Emperor Sulachan's minions holding Richard's spirit and freeing him. However, Richard still needs a bridge to cross again. All this time, they were attacked by the undead, and Cara arrived and saved them; He decided to become a bridge and die in the process. Richard is restored but he has retained a touch of death. During the ceremony for the dead, they are attacked by Sammy and Richard tries to make a deal with him by explaining why he killed his mother but failed. With Richard restored, they had to find a way to cure him, but they were too far from any area of detention (they were in the Citadel). Richard discovers a Cerulean scroll explaining the prophecy and the Omen Machine (Regula,) revealing that the prophecy comes from the underworld and has no place in the world of life, and that its anchor is Regula which is also how Sulachan has manipulated the world. In the end, Richard had a hunch that there might be

a well in Stroyza and they went there along with a dozen people, including Commander Fister. They arrive in Stroyza and discover everyone is dead (revealing that Sammy killed them under the influence of dark spirits and hatred). Sammy ambushed them in caves and killed all the soldiers but eventually died in an accident of his own device, collapsing a tunnel on top of him but trapping Richard, Kahlan, and Mord sith. They follow the writing on the wall and find a well sliph from Lucy which is one way of slipping between Wizard's Keep and Stroyza. They arrive at The Wizard's Keep, but Richard's condition worsens because of him The Sword of Truth was with him through slips. Their place arrives full of souls trapped in the world of life. After a brief conversation with Chase and Verna, they travel to the Ongoing People's Palace by Sulachan and Arc. There Richard talks to Regula and finds the final pieces of the puzzle to restore balance to the world. They go to the containment field for healing, but Richard deceives all and takes Cassia with him to the Wizard's Keep to gather all the souls inside the Sword of Truth, who have been touched by death by traveling on the sliph. Richard has concluded that souls are of half a man. He returns again to the People's Palace and confronts Sulachan and traps him using a ward in front of Regula and the Orden Box, where he unleashes death inside him through screams, while connecting his ears with wax candles, thus killing Sulachan, destroying the Orden Box, and returning Regula to the underworld where he is. This completes the process starting with the Orden Box Opening which initiates the decay of the Hood. On his way to find Kahlan and stop the battle, Richard is confronted by Vika and Hannis Arc who have captured Kahlan. Vika fakes allegiance to the Hannis Arc by humiliating Richard to the end, where he manages to get behind the Hannis Arc and kill him with his Agiel. He explains that hannis arc's supernatural powers will kill Richard and receive his death sentence for using his Agiel on Richard. Richard instead forgave her and kissed her which he used as a threat to keep her in line, telling her that she would let the other Mord Sith know about the kiss. Richard unleashes a spirit that finds their bodies and the battle is over. Half the restored man asked to speak to Richard and then swore allegiance to him by reciting devotion. The world is restored, and Richard lets everyone know the Prophecy is over and prepares to clean up the divination books. Vika is the new Mord-Sith who serves as Richard and Kahlan's protector. Nicci goes with Nathan on his way, acting as an ambassador for Richard, thus fulfilling his fantasy of an adventurer. The stars have a new configuration and Richard tells Kahlan that the Golden Age is just beginning.

After being a big fan of The Sword of Truth series for years, it really breaks my heart to admit that this last story arc wasn't very good. I love the character - it always has, and always will, and it's a rush to see Richard and the rest in this new book, as well as cameos by characters from previous books. Yet the book itself I think is poorly written, the contrited mess hung together by a series of long boring repetitive lectures of the characters, and the constant use of Chekhov's pistol and the mechanics of deus ex machina. If it often feels like the author has a random element that he wants to introduce and some serious loose ends to cover, but doesn't know how to make a great story out of them, but thinks he'll just randomly throw it there anyway.--To explain what I mean without ruining the book, I want you to imagine the movie Taken. Imagine if the real movie went like this:- After her daughter's abduction, Liam Neeson's character went to the restaurant for breakfast.- The waitress walked into Neeson, put down a glass of water (with two slices of lemon), and then wrote down her egg order.- Neeson gave the waitress a 30-minute talk about where the eggs came from.- Follow ... by the scene the cook gives Neeson a 20-minute explanation of why he cooked the eggs as he did.- The cook changes to go back to the kitchen to start cooking the order, but suddenly the 2nd cook (who is revealed to have appeared there 5 minutes ago, due to the mix with the shift list) appears with a plate of eggs, which he has just made for another customer, who has to leave the restaurant.- At that point his daughter's kidnapper enters the restaurant (with the princess , of course), want breakfast, in particular, eggs. Neeson told the waitress to give her captors eggs.- Kidnappers, er- eat too fast, or something, choke, and die.- We then get a 20-minute lecture by Neeson to her daughter, at what speed one should eat, and how can an egg strangle a man to death.- End? Not! The princess reveals there is a micro bomb on the man, in his pocket (which is set to explode and kill everyone in exactly 7 seconds), which can only be deactivated if a man with Parkinson's swallows it, with, a glass of water (with two slices of lemon).- Suddenly Michael J Fox walked into the restaurant, my thirsty boy said. Neeson threw a bomb into a glass of water, Fox drank it. The princess was saved, and that day was saved.--Okay, so reviews are badly, I admit, and granted, I'm biased into this latest book – I think Goodkind has jumped the shark with Richard and Kahlan's trilogy, introducing zombies (let's call it what you sing, sing, ARE basically zombies), but the point is, I'm not impressed. If you're a fan of the Sword of Truth series then this is still a must-listen/read, being the continuation and end of the series. However if you are new to the series, I suggest you avoid it. It.
