show a few more items: • Try to get bigger using only fixed cells until the game is 4 or 5 times larger at first. This will help you move and reduce the risk of being eaten by other cells. • Even in each game option, you can partner with other players. Sending parts to nearby cells means you want to form a partnership with it, just like the other party. • Mines have significant reserves in their actors. Try to use the tactics contained in paragraphs above the mines and make sure you use mines in the best way. • Partitioning is also a very important feature. Make sure that the cells you want to swallow are smaller than half. At the end of the process, your cell breakdown may be smaller, resulting in street hunting. For a moment, if necessary, you can wait for the ball to move behind the mine, and then you can start swallowing the renewed ball. • The game is based on endless space and not But it actually has invisible spaces and boundaries. When you reach these limits, you can use the Try the corners and borders in favor. You can squeeze other cells in these edges and on the edges, but the same is true for you. • Partition is also a very important feature. Make sure it's smaller than half the cells you want to swallow. At the end of the process, your cell breakdown may be smaller, resulting in street hunting. While you can expect the ball to move behind the mine, and then you can start swallowing the renewed ball. • The game is based on endless space and not But it actually has invisible spaces and boundaries.
