Try Smartsheet for Free Get Free Demo Smartsheet If you manage stock for retail businesses or materials to be used in manufacturing, you know how critical inventory management can be to optimize sales and productivity. This stock inventory control template can help you identify when it's time to be increasingly stocked, reduce excess inventory, access supplier information, and easily search for items in storage. It's easy to see your entire stock life cycle, including items in the backorder. Download Excel Template Try Smartsheet Template We have also included pre-built templates from Smartsheet, a job execution platform that empowers you to manage your inventory operations in collaboration with real-time and process automation. Learn how these two tools compare five factors, including: job management, collaboration, vision, and integration. In addition, check out the smartsheet quick demo. Watch full comparison Easy and easy to use, this basic inventory control template is suitable for business or any business that doesn't require much stomach and whistle to manage inventory. View inventory by item name, description or ID number and unit price. Keep track of your current total quantity and inventory value, restart date and items are stopped. Managing inventory is simple with this template due to its clean design. Like all Microsoft Excel templates included on this page, columns can be customized for your business, and the calculations are complete for you. Download Excel Template Try Smartsheet Template This free Template Template is designed specifically for tracking food stock. Restaurants and caterers can arrange their inventory based on food categories, such as meat, vegetables, or desserts, and easily see the quantity during food stock and inventory costs. Download Excel Template Try Smartsheet Track your business assets such as computer hardware, equipment that needs to be maintained, and tools with this free asset tracking template. This is a simple asset tracking system meant for smaller businesses, but it allows you to see not only the quantity and value of your assets, but also the date of guarantee, supplier information, physical location, serial numbers and more. To modify a template, simply remove any columns you don't need, or add a new column to increase your organizational level and details. Download Excel Template Try Smartsheet Template If your business uses expensive tools, use this free template to track the value, condition and location of your equipment inventory. Keep track of operating costs, depreciation, loan balances and more. Having all this information easily accessible will help you know when it's time to upgrade the equipment, which is the most widely used item, the most expensive to operate, and where the equipment is stored. Increase your operational efficiency and save money by accurately tracking the use and cost of your equipment inventory. Download Excel Template Try Smartsheet Template In the event of natural disasters, fire or theft, having a home inventory spreadsheet can make life easier. Through traumatic experience and losing personal possession is hard enough without having to remember what items are missing and how much they are worth. This home inventory template makes it easy to document your home assets, including models and serial numbers, purchase prices, and current values. Spreadsheets include columns for location, so items can be organized based on rooms in your home. There is also a field for insurance information so you can easily access your policy number and insurance agents. Download Excel Template Like the home inventory template above, this template record personal belongings so that you are provided in the natural disasters or other emergencies. Personal inventory templates are also useful tools for only tracking personal collections such as media, artwork, books and other collection items. Templates allow you to categorize your personal items, describe their circumstances and document their values. Since this is a free excel template that has been created for you, it's also a quick way to track your valuable stuff. Professional Excel Template IT downloads can save time with this software inventory tracking template. Track your purchase of software and hardware, expiration licenses, and upgrades to make software inventory management easier. This template is specific to tracking software, which distinguishes it from other asset inventory spreadsheets. You can easily find where certain software is installed, access provider and purchase information, and view the date of license renewal. Download the free Excel Template Template below varies depending on whether you manage business assets, personal ownership, food stock, or some other type of inventory. But here are some fundamental benefits individuals and businesses can profit from using templates for inventory management: See current inventory levels: Templates can provide easy access to the quantity of various products currently in stock, which is an important first step in ensuring operations run smoothly. Manage dredging: Tracking inventory will help you accurately identify when products need to be repaired as well as which items are stopped. Create business statistics: See the sales patterns, identify the best-selling products, and track your top suppliers. Protect your investments: This applies to home users seeking insurance coverage for personal property as well as companies that detect computer hardware, tools and equipment, or goods. Knowing what you have in stock, where it is located, and what value will help you maintain an asset and know when it's time to upgrade. Save time and money: Especially for small businesses, templates allow easy data entry, quick access to product and order details, and customized formats that can change along with businesses. Empower your people to go above and beyond with flexible platforms designed to meet your team's needs — and adapt as those needs change. The Smartsheet platform facilitates planning, capturing, managing, and reporting work from anywhere, helping your team become more effective and doing more. Report key metrics and get real-time visibility into work as they happen with roll-up reports, boards and automated workflows built to keep your team connected and informed. When teams have clarity into the work done, there's nothing telling how much more they can achieve in the meantime. Try Smartsheet for free, today. Try Smartsheet for Free Get Free Smartsheets
