## Citizen eco drive world time manual

How to set up your Citizen Eco-Drive radio controlled watch: Here are some of the citizen eco-drive radio-controlled watches that apply these instructions. AT4000-02E AT4004-52E AT4008-51E AT4007-54E AT4117-56H AT4110-55E Video Instructions: Setting the time and calendar My watch is set in the wrong city, how can I change it? Pull the crown towards the first click Rotate the crown to select the desired city by slowly turning the crown. Once the correct city is selected, gently push the crown again and the clock will resume with the time of the selected cities. The time is incorrect, how can I get the clock updated? Pull the crown and hold down the button closest to the 4 0-minute position for 2-3 seconds. Once you hear the tone, the watch is in manual reception mode, place it face up through a south-facing window with the 6 o'clock position pointing out the window. Leave it for a couple of hours and the clock should receive a new signal. To manually reset the time, refer to the complete manual linked below. How do I set the alarm? Pull the crown until the first click and turn it until the mode hand points to ALM. Pull the crown until the second click and rotate until the desired alarm time is selected, observing the AM/PM time on the 10 o'clock sub-dial. Press and release the button closest to the 2 o'clock position to turn the alarm on or off as shown in the second hand. Once the wish adjustment is complete, push the crown at the first click and rotate to select the required city, then return the crown to the original position so that the time function resumes. The second hand is jumping a few seconds at a time, what happens? This is the warning of the low power mode of the watches. Once this starts, the clock will run out in about 3 days. To recharge the watch, any strong light source is enough to charge it, but leaving it in direct sunlight (whether cloudy or not) for 2-3 hours is better. For more information on recharge and power modes, refer to the linked manual below. More information: Citizen watches have a caliber number to indicate movement. For the full user manual Citizen Caliber E650, click here there are no products listed in this category. Summer setting (DST) 1 - Press the M button to switch to time mode. 2 - Press the A or B button to select a city. 3 - Press and hold the B button for 2 seconds or more. ON SUM or OF SUM will flash. 4 - Press the A button while ON SUM or OF SUM flashes. Each time the A button is pressed, the ON and OF switch is pressed indicating that the watch is in summer setting mode. 5 - When summer is set SUM will appear and the time will advance a unit. Setting time 1 - Press the B button while in summer setting mode. The seconds will flash. NOTE: If the clock is set to UTC, press the B button for more than 2 seconds. The seconds for adjustment. 2 - Press the A button while the seconds flash. seconds will return to 00 and restart. NOTE: If the number of seconds is greater than 30, the minutes screen will advance by 1 minute. To set the hours and minutes 1 - Press the B key while the seconds flash. The Minutes screen will flash. 2 - Press the A button to adjust the minutes. 3 - Each time you press the B button the screen to be adjusted changes in the following order: Normal time mode Display -&gt; Summer setting -&gt; Seconds -&gt; Minutes -&gt; Hours -&gt; 12/24 hour setting -&gt; Normal time mode display. 4 - Press the A button to adjust the flashing section. Press and hold the A button to fast-forward. 5 - Press the B button again after switching to the 12/24 hour screen to return to the normal time display. NOTE: Make sure that the AM/PM indicator is correct when setting the time on the 12-hour system. Automatic return to normal timing mode will occur if the watch is left in setting mode for more than 2 minutes. In setting mode, the watch can be returned immediately to normal timing by pressing the M button. When summer is set for a given city in Time mode, it will automatically synchronize with the alarm and zone configuration mode. How do I get manual for my watch?
