Ay16 moodle umn

Mooders can no longer use active teaching. Learn about the university's enterprise learning management system, canvassing. This page contains detailed information on the impact of the Moodle Lifecycle Process on the 2015-2016 school year (Moodle 2.8). Moodle AY15 (2.8) Life Cycle Moodle AY15 (2.8): See diagram below for an explanation of the different life cycle stages for course sites kept in Moodle AY15 (2.8): For more information, see below for a table showing important dates: Event Date Moodle 2.8 moodle.org is released. Officially released next year on UMN on November 10, 2014. On April 26, 2015, moodle AY15 (2.8) becomes 'moodle.umn.edu'. On August 16, 2015, security fixes for Moodle 2.8 will no longer be released by moodle.org*. May 9, 2016, active command ends; The last date that users can create a new course site in this Moodle instance. The reference age begins on August 11, 2016. Course sites are accessible. September 2016 Moodle AY15 (2.8) Course site instructors/designers will be emailed to provide a 4-month notice of the next steps. In early May 2017, Moodle AY15 (2.8) can only be accessed via campus or virtual private networking (VPN). Off-campus users are provided with a page explaining the changes. End security patch*. Note: Access is affected by the user's account termination policy. Archive status ends on October 1, 2017 after three years. User access is terminated. Update: Because vendor support expires for equipment Moodle 2.8 execution; Moodle 2.8 will retire a year earlier than planned. The original retirement date was October 2021. October 1, 2020 *Security fixes for the latest version of Moodle will take effect on Moodle AY15 (2.8) until October 1, 2017. If you have questions or feedback about the literat process, contact technical help. Mooders can no longer use active teaching. Learn about the university's enterprise learning management system, canvassing. This page contains more information about the impact of the Moodle lifecycle process on Moodle during the 2016-2017 school year (Moodle 3.0). For a description of the different lifecycle stages of the course site kept in Moodle 3.0/AY16 for the Moodle AY16 (3.0) lifecycle, see diagram below: Moodle AY16 (3.0): For more information, see below: Event Date Moodle 3.0 announces moodle.org. Officially released on 16 November 2015 on UMN, which will be released next year. On April 25, 2016, moodle AY16 (3.0) becomes 'moodle.umn.edu'. The Moodle 3.0 security fix for mid-August 2016 will no longer be released by moodle.org*. May 2017, active command ends; The last date that users can create a new course site in this Moodle instance. See end of August 2017 The period begins. Course sites are accessible. September 2017 Moodle AY16 (3.0) Course site instructors/designers will be emailed to provide a 4-month notice of the next steps. In early May 2018, Moodle AY16 (3.0) can only be accessed via campus or virtual private networking (VPN). Off-campus users are provided with a page explaining the changes. End security patch*. Note: Access is affected by the user's account termination policy. Archive status ends on October 1, 2018 after four years. User access is terminated. October 1, 2022 * Security fixes for the latest version of Moodle will be in effect for Moodle AY16 (3.0) until October 1, 2018. If you have questions or feedback about the literat process, contact technical help. Help.
