## Shoei x 14 aerodyne

Before order importing on order only delivery time 25-30 days In the last few years there are few helmets that have generated as much interest as the introduction of the Shoei X-14 helmet, and for good reason. This is a real juggernaut of stripes, and every line, every angle and every curve has been designed specifically to get the most out of you and your machine. No wonder the world's most sophisticated racers are already slinging at the highest levels of Aerodynamic Shell Design Aerodynamic properties are maximized through extensive testing of wind tunnels and feedback from professional dual-layer multi-density eps liner riders increases the impact of abSorption and ventilation Shell of five EPS-size liners represents an increased attachment option to comfortably shut down u head-kick EPS barking after whole bar beard with Cheek Pad Rashladni system Standard flaps behind the flaps are watered down unasuple, im concealed to adjust aerodynamics, U dependencies on rider desire i track request of the Exhale Lower Air Spoiler can be testified on the chin bar how to improve aerodynamic stabilization ventilation ventilation system Upper ventilation fan is positioned how to maximize air volume u interior kaciga Top outlet is a fan separate from the Rear Stabilizer which allows it to be positioned for optimal flow ventilation Lic Pad Cooling System includes channels that cross through eps lining and corresponding air holes in the cheek foam cushion, cooling i clean, moist air from rider's cheek dah guard and beard zavjesa was lightweight, Advanced Integrated Matrix Plus (AIM+) High performance train materials are combined with an extremely elastic organic train for the construction of that ultra-hungry, rigid, i resistant 3D Max-Dry Interior System Cio interior lining (facial crib, upper bases, i flaps for chin straps) can be removed for clean and replace the optional thicknesses for flexible fit face cribs and centre lining how to allow the rider to position/ugao kacice for up to 4° , increasing the upper field of vision while crammed into extreme racing positions comfortable, 3D Max-Dry liner material resists i disipa sweat and moan two times faster than traditional nylon interiors, holds aggressive riders cold and dry E.Q.R.S. (Emergency Quick Release System) allows rushed medical staff to use kacigom injured riders, moaning lacquer removal kacigom from the head Extra comfort provided by ear pads, remable breath guard, and chin curtain Standard Chin-Remen Clip Niceatly secures chin remen CWR-F Shield and QR-E System QR-E base plate system allows for tool-less shield removal and installation Exclusive patent pending Vortex Generators on shield reduce air trection Scratch-resistant and Pinlock EVO Fog Resistant System 99% protection against harmful UV A&B rays All new dual shield locking mechanism prevents unwanted shield openings Before order Import on order only Delivery time 25-30 days [/des] In the last few years there are few helmets that have generated as much interest as the introduction of helmets Shoei X-14, I do this for good reason. This is a real juggernaut of stripes, and every line, every angle and every curve has been designed specifically to get the most out of you and your machine. No wonder the world's most sophisticated racers are already slinging at the highest levels of Aerodynamic Shell Design Aerodynamic properties are maximized through extensive testing of wind tunnels and feedback from professional dual-layer multi-density eps liner riders increases the impact of abSorption and ventilation Shell of five EPS-size liners represents an increased attachment option to comfortably shut down u head-kick EPS barking after whole bar beard with Cheek Pad Rashladni system Standard flaps behind the flaps are watered down unasuple, im concealed to adjust aerodynamics, U dependencies on rider desire i track request of the Exhale Lower Air Spoiler can be testified on the chin bar how to improve aerodynamic stabilization ventilation ventilation system Upper ventilation fan is positioned how to maximize air volume u interior kaciga Top outlet is a fan separate from the Rear Stabilizer which allows it to be positioned for optimal flow ventilation Lic Pad Cooling System includes channels that cross through eps lining and corresponding air holes in the cheek foam cushion, cooling i clean, moist air from rider's cheek dah guard and beard zavjesa was lightweight, Advanced Integrated Matrix Plus (AIM+) High performance train materials are combined with an extremely elastic organic train for the construction of that ultra-hungry, rigid, i resistant 3D Max-Dry Interior System Cio interior lining (facial crib, upper bases, i flaps for chin straps) can be removed for clean and replace the optional thicknesses for flexible fit face cribs and centre lining how to allow the rider to position/ugao kacice for up to 4° , increasing the upper field of vision while crammed into extreme racing positions Comfortably, the 3D Max-Dry helmet liner material absorbs and splits sweat and moisture twice as fast as the traditional nylon interior, retains aggressive riders cold and dry E.Q.R.S. (Emergency Quick Release System) omoguca nugden medically cheek lobster that with kacigom injured riders, omoguci lakse removal kacigom from the head Extra comfort obuhvacen ersive natlimate, removable daesh, i beard envied Standard Chin-Strap Clip Neatly secures chin tail CWR-F Shield and QR-E System QR-E Plate system allows removal and installation of shield with less tools Exclusive patent pending Vortex Generators on shield reduce friction air coating resistant scratches and Pinlock EVO Fog Resistant System 99% protection against harmful UV A&B rays All new dual shield locking mechanism prevents unwanted shield openings &gt; We have updated our privacy policy. Click here to review the updates. Accept Fullscreen Zoom The Cycle Gear Difference 30-day Best Price Guaranteed Free Shipping Over \$49 No-Hassle Returns View Details Shoei HelmetsFull Face HelmetsSportbike Helmets Shape: Intermediate Oval Weight: 3.62 lbs. What's this? The Shoei X-Fourteen helmet is a proven competitive weapon for those who are unwilling to sacrifice a single detail when it comes to high-quality performance. Extensive testing of wind tunnels increases the aerodynamic effects of aim+ shell shape. From a double shield locking mechanism that prevents unwanted shield openings to a removable Lower air spoiler that can be fitted to the chin bar to improve aerodynamic stabilization, the Shoei X14 helmet is the choice for champions. Aerodynamic shell Design Aerodynamic properties are maximized by extensive testing of wind tunnels and feedback from professional cyclists Double-layer multi-layer EPS liner increases impact absorption and ventilation Four shells and five EPS i Sizeners present increased fit options that help to comfortably fit most head sizes absorbing EPS liner through the Cheek Pad Cooling System Standard Rear Flaps can be replaced by optional, narrower flaps to customize aerodynamics, U dependencies on rider's desire i track requires Removable Lower Air Spoiler can be mounted on the chin bar to improve aerodynamic stabilization Ventilation system Upper ventilation ventilation fan is positioned so that maximum remode u kacigo Interior outlet ventilation is separate from the Rear Stabilizer, allowing it to be positioned for optimum flow-through ventilation Cheek Pad Cooling System features channels cut through the EPS liner and corresponding air holes in the cheek pad foam , cooling and purification of warm, moist air away from the rider's face Breathing guard and beard curtains included Lightweight, Advanced Integrated Matrix Plus (AIM+) High performance fibrous materials are combined with extremely elastic organic fibers in the shell construction for a construction that is ultra light, rigid and resistant 3D Max-Dry Internal System Entire inner lining (cheek pads, The upper liner, i flaps for chin straps) can be removed for clinging i zamjenjuju with an optional thickness for flexible fit face lining i center lining how to allow riders to position/ugao kacice for up to 4°C, increase upper vique, a shreaded u.S. extreme position Racing Comfortable, 3D Max-Suhi kaciga liner material upija i i Sweat and moisture twice as fast as traditional nylons inside, retains aggressive cyclists cold and dry E.Q.R.S. (Emergency Quick Release System) allows emergency medical personnel to easily remove facial pads from the helmet of an injured cyclist, omoguing laxative removal of kacigom from the head Extra comfort provided by ear pads, remable breath guard, and chin curtain Standard Chin-Strap Clip Neatly secures chin remen CWR-F Shield and QR-E System QR-E base plate system allows for tool-less shield remove and installation Exclusive patent inding Vortex generators on the nod of air friction Coating removed on scratches i Pinlock EVO Fog Resistant System 99 % protection from harmful UV A&B air New mechanisms for locking double shields stita unwanted openings Note: U according to the manufacturer's restrictions, Shoe products can only be weeded to addresses in the United States.
