Check out the official forum: This is the best opportune time to hack and cheat on tasks related to this popular role playing game. You can focus on easy-to-follow tips revealed by experts in this game to improve your performance. You must first clarify any doubts about this game. Once you start using the best appropriate strategy, you can get the most expected improvement in your level in this game as expected. S'inscrire à la newsletter pour être informé des derniers articles, inscrivez vous: gems are extremely important in empires and puzzles things that you can not find inside the game for free - although you can get gems with real money, there are many ways to farm free gems inside the game. And that's what this guide is about – showing you how to get them effectively. You are able to get 500-600 free gems easily every month ☺ many sweet extra gems I will also show you the best ways to invest those In empires and puzzles ☺ farming gems – how to do this, let's take a look at the best ways to farm the available gems. Wanted missions every day you'll see chests appear on the left side of your screen when you're in your stronghold - they want missions that remodel you to kill a certain amount of enemy heroes or monsters. Do them every day and as much as possible! I've written a guide here about the best levels to farm seminal chests and also one that shows the best levels daily regular monsters farm. Gem Quest at some point you'll start to see discoveries that will reward you with gems – they look like once every week. There are two different versions - one collecting Gem I and the other is Collect Gems II. Both of them have dark and nature monsters with fire owner, so if your team is close to or below the required team strength of 2600, you need to adjust your team with heroes who counter these elements well. It's a lot of gems if you do them often! Titans Titans are a great source of farming free gems – not only will you get 3-10 gems when defeating a titan (depending on titan titan's rarity), you'll also find some good amount of gems in Titan Chest that you're usually available back to (again 2-10 gems). If you add that you have daily titans coming up and an alliance that is active enough to defeat them all the time, this is one of the most reliable income sources of gems for you. Level up! You should continuously use any extra energy to bring XP to the farm to get a higher level. Many people forget about it because it looks like it's nothing you can actually farm. I personally believe that if you add daily XP farming to your routine, you will also be able to gain some good extra gems that you can use. Each new rank will give you 50 gems and there are also some good features at every 50 levels. Level 150 gives you 500 gems and level 200 gives you a heavy 800 gems. These levels may seem out of reach for you now, but in the long run they won't! I've already written in my guide about the best levels for the farm that these levels here will give you the most XP per energy you spend: 23-10 (405 XP per energy) 20-4 (375 XP per energy) 17-1 (3 66 XP per energy) 12-9 (347 XP per energy) 9-1 (286 XP per energy) 7-4 (212 XP per energy) just do them when you see you have some extra energy ☺ legendary vision I know That's obvious, but complete the list here in terms of making it I also want to list the mythological vision – it's nothing more than a daily video ad you can watch to get a free gem for it. And what I can say, just it's just 30 seconds of ☺ it's nothing to do so the reward is ok for that, I think. In Empires and Puzzles Spending the right way now is to talk about smarts way to use your gems to get the biggest bang Your buck. In my opinion, it depends on what stage you are at in the game. If you're a new player and you haven't found a good team with 3-star+ heroes, you should spend it on 300 Gem Hero summonses to get such a team together. This is the only way to get it and you don't want to ruin your recruits to flatten a 2 star hero so you don't have access to 4 star heroes yet! You might also want to use either Atlantis summons or hero of the month to subpoena for that good chance to get a hero of extra high rarity. Once you have a solid team, it's time to switch and start using epic army summons, which is the only way to get 3-star+ troops into the game. That's the only option and before you start getting your 3-star and 4-star troops, which is better for your progress. It's really hard to level the troops and you'll benefit from highly rare soldiers for the rest of your life. Hi, I was wondering if there was any other way of buying, completing missions and getting gems other than expecting a drop? Not everyone laughs at once, okay??? Feel like you've covered most of the ways gems drop: Titan Smash, Wanted Chest (100 monsters, 40 players, 5 titans), occasional search, and by watching ads in your defenses. Normally as a free-to-play player I earn 500-600 gems per month, which I only use to buy epic hero summonses or original summonses. The gem costs in this game are absurdly high, and if you're not going to pay money for gems, everything but summons is a waste of precious gems. 5 choice @Traevon I noticed that the price of gems was really high, so my question. I only appreciate the tip for using them for special summonses. It makes sense, indeed! Have a blessed day!! Another high-value use of L1 gems is to accelerate the desired chests to get the original chests more quickly. The choice really depends on whether you need heroes or rare ascension content more urgently. 3 Choice Gems A Penny a Piece then costs like 300 for a subpoena is \$3.00. The cost of a 20 oz soda 1 is like about 1 and gives you about a 2-3% chance of getting something you can't farm from training camp 20. The point is not whether a subpoena is expensive. The point is, mathematically, you expect 40 of them to get something useful. It's significantly more than a 20oz soda. 3 Choices How Do You Earn So Many Gems Per Month? 500 gems per month are only 16 per day. If you factor in Titan Smash, desired mission chests, mystic dreams, and gem quests, it's not really impossible to get there. 3 choice so true, didn't think about it. I've only been playing a few days and collected 299 gems so far, but it always seemed (and hard) to get them. I so that Desperate to get 1 to make 300 so I can summon at the event (for it's fundamental) to summon, and cross fingers to get Caedmon. This will be my first summons with Now don't ask for too much of it? 2 likes If you are playing for just a few days, there are a lot of heroes who will be able to help you. Don't set your heart on a particular hero-things are so low that you will be disappointed. Just try to make the best of whatever you draw. Best wishes! 4 choice 3 \$1 week food and drink is here, plus I can pay my entire electricity bill with \$3. 2 likes that's true, like it! You're so right, and follow your advice. I got kashrek and didn't know before how lucky I was to get him. 2 likes he's a great hero. He will serve you well as a tank through the Platinum Tier. I am so glad you are enjoying him. 1 Kashrek is as good as a tank as you are right. I've been really in achieving the end of my anger for quite a while. Ironically, Cadmon is a best hero to counter him. Closure due to long periods without activity. USK: Get access to all the agesDownload empires and puzzle gems and tips now and all the information about how to get better and increase your skills and gems in empires and puzzles. There are legal suggestions made out by all professional players to make it easier for new players to go to the top. Get free gems for empires and puzzles playing using our tips and tricks!
