Biology in focus online textbook

Previews: About author Lisa A. Urry Lisa Urry (Chapters 1 and 2) is professor of biology at Mills College in Oakland, California, Berkeley. After graduating from The University of Tafts with a french biology duet, Lisa completed her Ph.D. in Molecular and Evolutionary Biology at the Massachusetts Institute of Technology (MIT) in a joint program at the MIT/Woods Hole Oceanographic Institute. He has published a number of research papers, most of which focused on gene expression during embryonic and larcoscopic development in marine urchins. Lisa has taught a variety of courses, from introductory biology to evolutionary biology to evolution ary biology and senior seminars. As part of her mission to enhance understanding of evolution, Lisa also teaches a nondisciplinary course called Evolution for Future Presidents and is on the teacher advisory board for the Understanding Evolution website developed by the University of California Paleontology Museum. Lisa is also deeply committed to promoting opportunities for women and low-end minorities in science. Lisa is also a co-author of Campbell's Biology. Michael L. Cain (Chapters 1 and Units 3, 4 and 7) is an evolutionary ecologist and biology within a contract of the committed to promoting opportunities for women and low-end minorities in science. Lisa is also a co-author of Campbell's Biology. Michael earned a joint degree in biology. and mathematics at Bowdwin College, M.Sc, of Brown University, and a Ph.D. in Ecology and Evolution potany, and the Rose-Hallman Institute of Technology, he taught extensive courses, including basic biology, ecology, evolution, botany, and conservation biology. Michael is the author of dozens of scientific papers on topics that include forging behavior in insects and plants, dispersing seeds remotely, and protolying in crickets. In addition to his work on Campbell's biology at Focus, Michael is also the lead author of an ecology textbook. Steven E. Weserman (Chapter 1 and Unit 6) is a professor of biology at the University of California, San Diego (UCSD). he has a masters degree. B from Harvard University and earned his Ph.D. in Biological Sciences from MIT. Through his research on regulatory pathway mechanisms in drosophila fruit flies, Steve has helped fields of evolutionary biology, reproduction, and safety. As a faculty member at the University of Texas Southwestern Medical Center and UCSD, he has taught genetics, development, and physiology to undergraduate, postgraduate, postgraduate, and medical students. He is currently focused on preparatory biology education. He also served as a research instructor for more than a dozen PhD students and more than 50 aspiring scientists at undergraduate and high school levels. Steve has been the recipient of outstanding scientist From both the Warkie Charitable Trust and the David and Lucille Packard Foundation. In 2007, he received the UCSD Distinguished Teaching Award for undergraduate teaching. Steve is also a co-author of Campbell's Biology. Peter V. Minursky (Chapter 1 and Unit 5) is a biology professor at New York's Mercy College, where he teaches basic biology, evolution, ecology and botany. He earned a biology degree from Wassar College and a PhD in Plant Physiology, from Cornell University. He is also a science writer in the Journal of Plant Physiology. After a postdoctoral fellowship at the University of Wisconsin at Madison, Peter taught at Canyon College, Union Mercy College in 2008. Peter is also a co-author of Campbell's Biology. Jane B. Rees was the head of the author's team for recent editions of Campbell. Previously, Jane taught biology at Middlesex County College and Queensboro Community College. He holds an a.B degree in biology from Harvard University, a microbiology subspecialty from The University of Thingers, and a PhD in bacteriology from the University of California, Berkeley. Jane's research as a Ph.D. student and postdoctoral fellow focused on genetic re-composition in bacteria. Alongside his work on Campbell's biology at Focus, he has been author of Campbell Biology, Ca California, Los Angeles, and a Ph.D. in Plant Biology from the University of California, Riverside, and was awarded the Distinguished Alumni Award in 2001. Neal published numerous research papers on desert and coastal plants and how sensitive plants (mymosa) and other legumes move their leaves. His 30 years of teaching in a variety of environments included preparatory biology courses at Cornell University, Pomona College and San Bernardino Valley College, and in 1986 he received the first distinguished college professor award. Neal was a visiting researcher in the Department of Botany and Plant Science at the University of California, Riverside.
