While flying to Synapse, Ikatos tells Tomoki's story long ago due to an anomaly she had been ordered by boy to attack Synapse out of despair Observing Sugata dying, Ikatos's body began to burn because the device installed inside her whenever she approached Synapse without permission. Second thought Tomoki ordered Ikatos to go back, but couldn't because there was nowhere else to go. The film turns to a place where Tomoki is woken up by Ikatos trying to kiss him. Tomoki had a tough morning when Nymph invited him to date Astraea and Chaos to join, then met Sohara as the question of what the day was. In the meantime, Hiyori visits Ikatos to see how well she grows watermelons, then Sugata and Mikako interrogate the existence of Synapse, or about the return of Hiyori, even if Ikatos overcomes everything about Synapse, but Hiyori reveals the reason for her return, because of Tomoki's unique existence in the particular world, they now live in Sugata, the conclusion of the whole world connected to Synapse. Nymph and Astra get into sister fight Tomoki gets fed up with a troublesome routine and tries to kick them out, but they shout his own words back at him that Angeloids are Tomoki freeloaders, then destroy Ikatos's imprint with Daedalus and their mutant Sohara, dismayed to date Tomoki, will rough up when everyone condemns him.
