Get radio shack 15 302 hand-held PDF file owners for free from our online library RC Radio Shack 15-302 3-in-1 Guide Universal Remote]] How can I program 3 in 1 Radioshack Universal Remote? | It still runs two ASCs, a latency module, and an Extender kit to highlight new offerings.. Installation of batteries 60-4385 Hummer H2 Thank you for buying Hummer H2 from Radio Shack. • Driving a Hummer for long periods of time can generate high levels of heat and cause wear and tear on the engine. Be the first on your block to get behind the wheel of this big truck. To allow the heat level to drop when the battery charge is throes, let the Hummer cool down for 10 minutes before installing the batteries. It has a double spring suspension for a smooth ride, working headlights, and reaches speeds of up to 950 feet per minute. • After charging the battery pack, disconnect it from the charger. • Do not touch the motor immediately after using the Hummer, as it may become hot during use. Tips • Use only recommended size and type of batteries, as well as the recommended battery pack. • Increase the separation between the equipment and the receiver. If this equipment causes harmful interference to the reception of the radio or television signal, which can be determined by turning the equipment off and off, the user is advised to try to correct obstacles in one way or more from the following measures: • Refocus or transfer the receiving antenna. However, there is no guarantee that interference will not occur in a particular installation. Changing or tampering with hummer internal components may cause a malfunction and invalidate the FCC's warranty and cancellation of its operation permit. This equipment generates, uses and can emit radiofrequency energy and, unless installed and used according to the instructions, can cause harmful interference to radio communication. Insert one 7.2V battery pack and connect the battery connector to the Hummer connector. Use control of the transmitter to control the truck. To find the nearest Radio Shack, use the store locator feature on the Radio Shack website (or call 1-800-The Shack Shack and follow the menu options. Radio Shack's participation in this program is part of the company's commitment to preserving the environment and preserving our natural resources. Accessory FCC Declaration of Conformity Click left to point left. These restrictions are designed to provide reasonable protection against harmful interference in the residential installation. maintenance and repair If your Hummer doesn't perform as it should, take it to your local Radio Shack store for help. Please call 1-800-THE-SHACK (1-800-843-7422) for information on recycling and disposal of Ni Cd batteries ban/limit in your area. Batteries can leak chemicals that can damage electronic parts. Product: Hummer H2 Model: Responsible Party: 60-4385 Radio Shack 100 Throckmorton Fort Worth, TX 76102 817-415-3200 Phone: FCC wants you to know that this equipment has been tested and set to comply with restrictions for a Class B digital device, in accordance with Part 15 of the Rules. Use and store hummer only in room temperatures. Keep the Hummer away from dust and dirt, and wipe it occasionally with a damp cloth so it doesn't ate a new look. The RBRC program provides a convenient alternative to placing used Ni-Cd batteries in a trash can or a stream of municipal waste that may be illegal in your area. Radio Shaq and Radio are trademarks used by Radio Shack Corporation. Slide the switch on the back of the Hummer to select a two- or four-wheel steering wheel. • If you do not plan to use the Hummer for a week or more, take out the batteries. ♣ care Keep hummer dry; if it get rumss, wipe it dry immediately. Charger important: EPA-certified RBRC® Seals for battery recycling on a nickel cadmium battery (Ni Cd) indicates that Radio Shack was voluntarily participating in an industry program to collect and recycle these batteries at the end of their useful lifespan when they went out of service in the United States or Canada. • Do not mix old and new batteries or batteries with different capacities or different chemists. Charge the battery pack with a charger (not supplied) available on Shack radio. 📺 information • Dispose of old batteries quickly and properly. Included in the Hummer Truck Transmitter User Guide • Make sure the connector and wires of the battery pack do not touch any moving part of the Hummer. If the Hummer does not drive straight, adjust the wheel alignment to L if the Hummer pulls right, and to R if it pulls left. • Unplug the battery pack from the charger, do not pull the connector wires. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this appliance cannot cause harmful interference, and (2) this device must accept any interference, including obstacles that may cause unwanted operation. • If the motor is running but not to the transmitter, move closer and try again. • If someone uses a nearby KB, it can interfere with control over your Hummer. • You cannot control the hummer near devices with transmitters that use the same frequency (27 MHz or 49 MHz). • The Hummer may make noise to appear or grind when the gear changes. • Connect the appliance to an outlet in a circuit other than the one to which the receiver is connected. • Ask your local Radio Shack store for help or experienced radio/television equipment. • If you cannot remove obstacles, the FCC requires that the hummer be discontinued. Changes or modifications not expressly approved by Radio Shack may cause interference and void the user's authority to operate the equipment. limited 90-day warranty This product is guaranteed by Radio Shack against manufacturing defects of material and manufacture under normal use within ninety (90) days from the date of purchase at Radio Shack stores and authorized franchisees and dealers of Radio Shack. For full warranty and exclusion information, contact your local Radio Shack store. Installation of batteries 60-4385 Hummer H2 Thank you for buying Hummer H2 from Radio Shack. • Driving a Hummer for long periods of time can generate high levels of heat and cause wear and tear on the engine. Be the first on your block to get behind the wheel of this big truck. To allow the heat level to drop when the battery charge is throes, let the Hummer cool down for 10 minutes before installing the batteries. It has a double spring suspension for a smooth ride, working headlights, and reaches speeds of up to 950 feet per minute. • After charging the battery pack, disconnect it from the charger. • Do not touch the motor immediately after using the Hummer, as it may become hot during use.
