But she worked for several years in Manchester, the Chamber of Commerce in England. Young Potter tells us a lot about running our own business, so perhaps something has been rubbing off. Once donated, the hat sends each student to one of four dormitories: Grygrifdor, Hufflepuff, Ravenclaw or Sly laterin. You're aware of it, right? Hermione lies to the professor to protect Harry and Ron from trouble for standing up to trolls, and Ron risks death in a live-action chess game, so Harry can prevent the magician's stone from falling into the wrong hands. Caryn Beck-Dudley, a professor of business law and ethics at Utah State University, Logan, said, If you kicked out Hogwarts students every time they made a mistake, you wouldn't be left in a very noble organization. And you wouldn't even have Harry Potter. Treating people like people should be top of your list when you're trying to create a work environment where people can come to work and have fun. Read Improved Employee Management to learn how to do it. Just as entrepreneurs rarely stick to a 9-on-5 regimen, Harry sneaks around the school and breaks curfews to fight evil. When he flies to his broom against orders, he is not actually punished, he is rewarded in the coveted place of the Quidditch team. Why is that? He was flying to help his classmates, so he is the best broom flyer the school has seen in age to the delight of students, professors and even principal Albus Dumbledore. But if Dumbledore was like a lot of bosses, he'd like to focus on the bad things Harry did. Then harry walk away and take his skills elsewhere or his creativity is crushed. In the secret room, he meets dobby, a house elf who later saves his life with advice on fire goblets. In Azkaban, Fred and George Weasley (Ron's brother and Harry's classmates) provide Harry with a map of Hogwarts showing where the individual is at any time. In the goblet, Harry assists opponent Cedric Diggary during the Tri-Wizard tournament. Cedric then returns the favor. Without his contacts, Harry would have been doing it for a long time. Many Harry Potters deal with innovation thinking creatively from a unique perspective. Dumbledore said: The consequences of our actions have always been very complex and it is certainly a very difficult business to predict the future. Harry Potter features: kindness, ethical, courageous, smart, independent as an entrepreneur: he would be great. His Achilles heel: He may not be dependent enough on others, dealing with all the adventures himself. Ron Weasley's hallmarks: loyal, brave and ethical, but sometimes envious of more successful people as entrepreneurs: he needs to partner with friends and mentors. He's going to be a better vice president than [the CEO], says Warfield. Alcause he has the strength of character. His Achilles heel: Reed is difficult for Ron, adds Warfield. He expects Harry and Hermione to send ideas in advance. Hermione Granger features: intelligent, ambitious, loyal, very ethical, serious, kind, friendly as an entrepreneur: she's probably better than Harry. She's logical, detail-oriented and connected, says Warfield. She is the most fore-looking and insightful. Her Achilles heel: She may work her people, says Warfield. She doesn't know how to lighten up. Draco Malfoy's hallmarks: That is, the kind of man who sends unethical, evil and orphaned Father's Day cards as entrepreneurs: His type often goes far, says Caryn Beck Dudley, a business professor at Utah State University. He is surrounded by jesus men and operates to make things happen, Warfield adds. He will succeed as long as he gets the organization and divesses heels of his Achilles: he's evil, and you usually know what happens to the bad bad ones in the end. End.
