Dress like a pirate day 2020

Much like many other people in the aughts, I was (and still am) a huge Olsen twins fan. I liked their shows as preteen (I still remember all the words in the So Little Time theme song), but it was around high school when my love Mary-Kate and Ashley Olsen, who celebrated their 31st birthday today, reached fever pitch. By that time, the diminutive couple were dime regularly - paparazzi followed them every step of the way, shooting them up for grabs of a soft serve of Tasti D-Lite, smoking cigarettes on the NYU campus, and wearing threads that unskilled eyes could sign up as rags, if not carefully. Yes, style is what I love most about Olsens. Their sartorial taste was similar, but true MKA (my nickname for them) fans could spot the differences - Mary-Kate skewed a little more boho, while Ashley favored a preppier vibe, punctuate her look with a loosely fitting button for a front shirt, pants, and smart shoes. But still there remained some composed: They both loved to layer and had additives that brought sophistication. Like fashion panels to flies, they kicked so many style rules, helping to make the former fashion not into glorious dos. I have a memory to read a dime that zoomed in on twins of crushed nail polish, calling it a new trend. As someone who couldn't (and still can't) seem to keep my varnish from splitting for more than a day, I was beside myself. Any time my father commented on my gnarly nails, I would say Olsens made it a trend, so actually I look very cool. Dad. Twitter If you like ranch dressing (and honestly, what's not?), then we could have found the perfect Halloween costume for you! Carson Haase, a senior at Brandon Valley High School in Brandon, South Dakota, boldly dressed as a popular salad at Pagdai Ranch Day, is part of his school homecoming spirit week, according to the Argus Leader. Instead of dressing up as a cowgirl or cowboy like most of her peers, she was inspired to do something different to honor a friend she lost this year. This content is imported from Twitter. Carson's friend committed suicide last March, and she says that their friendship taught her that life is too short to take care of what others think. Carson thought of the humorous idea, but explained that it was her friend's legacy that led her to live in the moment, and don an over-the-top getup. She taught me a lot of things, Carson told the paper. How to be strong in bad situations [and] make it honest what people thought because there will always be people who like you anyway. Despite the fact that a lot of In a craft suit, Carson was nervous to wear it to school until she remembered Brittany. I think that had a big impact on me actually wearing a suit... that step outside your comfort zone and be yourself is important, Carson said. It turns out everyone liked it very much. Caron shared his costume on Twitter, where the post has now gone viral with more than 3,000 likes and hundreds of shares. Hidden Valley even chimed in and expressed his love for it too! Library of Congress /Wikimedia Commons/Public Domain The so-called Piracy golden age lasted from about 1700 to 1725. During this time, thousands of men (and women) turned to piracy as a way to earn a living. It is known as the Golden Age because the conditions are perfect for pirates to thrive, and many of the individuals we associate with piracy, such as Blackbeard, Calico Jack Rackham or Black Bart Roberts, have been active during this time. Here are 10 things you may not have known about these ruthless sea bandits! Some pirates buried the treasure - especially Captain William Kidd, who at the time was heading to New York to turn himself in and hope to clear his name - but most never did. There were reasons for that. First of all, most of the robbers gathered after the raid or attack were quickly divided among the crew members, who would rather miss it than loose. Secondly, most of the treasure consisted of perishable goods such as fabric, cocoa, food or other things that would quickly destroy if buried. The persistence of this legend is partly due to the popularity of the classic novel Treasure Island, which includes the hunting of buried pirate treasure. Most pirates did not last very long. It was a difficult line of work: many were killed or injured in battle or mutual struggles, and medical institutions were usually not. Even the most famous pirates, such as Blackbeard or Bartholomew Roberts, have been actively involved in piracy for only a couple of years. Roberts, who had a very long and successful pirate career, was active for only about three years from 1719 to 1722. If all you ever did was watch pirate movies, you'd think being a pirate was easy: no rules other than attacking rich Spanish galleons, drinking rum and swinging around rigging. In fact, most pirate crews had a code that all members had to recognize or sign. These rules included penalties for lying, theft or fighting on board. Pirates take these articles very seriously and the punishments can be severe. Sorry, but this one is another myth. There are some tales of pirates walking the board well after the Golden Age ended, but there is little evidence that this was a total punishment until then. Not that the pirates didn't have effective penalties, it's you. Pirates who committed the violation be marooned on the island, whipped, or even keel pulled, a vicious punishment in which the pirate was tied to the rope and then thrown overboard: then he was dragged down one side of the ship, under the boat, through the keel and then back to the other side. It does not sound very bad until you remember that the bottoms of the vessels were usually covered with barnacles, often causing very serious injuries. The pirate ship was more than a boat of thieves, killers and rascals. A good ship was a well-managed machine, with officers and a clear division of labor. The captain decided where to go and when, and which enemy ships to attack. He also had an absolute team during the battle. The quarter-finalist supervised the operation of the ship and divided the robber. There were other positions, including boatswain, carpenter, cooper, gunner, and navigator. Success as a pirate ship depended on whether these men effectively carry out their tasks and supervise the men who lead them. The Caribbean was a great place for pirates: there was little or no law, there were many uninhabited islands for hiding, and many merchant ships passed. But the Pirates of the Golden Age did not just work there. Many crossed the ocean in stage raids off the west coast of Africa, including the legendary Black Bart Roberts. Others sailed as far as the Indian Ocean to work on shipping routes in South Asia: it was in the Indian Ocean that Henry Long Ben Avery made one of the greatest scores ever: the rich treasure ship Ganj-i-Sawai. It was very rare, but women sometimes sling on cutlass and pistols and take to the seas. The most famous examples were Anne Bonny and Mary Read, who sailed with Calico Jack Rackham in 1719. Bonny and read dressed as men and reportedly fought just as well (or better than) their male counterparts. When Rackham and his crew were caught, Bonny and Read announced that they were both pregnant and thus avoided being hanged along with others. Were pirates desperate men who could not find a fair job? Not always: many pirates chose life, and when a pirate stopped a merchant ship, it was not uncommon for a handful of merchant crew members to join the pirates. This was because fair work at sea consisted of either commercial or military service, both of which were marked by disgusting conditions. Sailors were underpaid, regularly deceived from their wages, beaten by the slightest provocations and often forced to serve. It should not be surprising that many would willingly choose a more humane and democratic life on a pirate ship. Not all golden age pirates were uneducated thugs who had taken piracy due to the lack of a better way to earn a living. Some of them also came from higher social classes. William Kidd was an embellished sailor and a very rich man when he set out in 1696 on a pirate hunting mission: he pirate shortly thereafter. Another example is Major Stede Bonnet, who was a wealthy plantation owner in Barbados until he installed the ship and became a pirate in 1717: Some say he did it to escape from the nagging wife! Sometimes it depended on your point of view. During the war, nations often issue marquee and reprisal letters that allowed ships to attack enemy ports and ships. As a rule, these vessels considered plundering or shared part of it with the government that issued the letter. These men were called privates, and the most famous examples were Sir Francis Drake and Captain Henry Morgan. These Englishmen never attacked English ships, ports or merchants and were considered great heroes of the English people. But the Spaniards considered them pirates. Pirates.
