Jump to the original content of Aloha Mae Kaku and welcome to the 2020-2021 school year! Our curriculum is designed and taught by a distinguished, interdisciplinary faculty that collaborates with more than 20 different indigenous communities and countless community organizations. As far as ucla's American Indian Studies Program is dedicated to studying indigenous people, as a land allowance institution we are committed to directly engaging and working for indigenous peoples of California and beyond. Among them, we have a particular commitment to Tongva as taraaxatom (indigenous people) Tovaangar (Los Angeles Basin, so the Channel Islands). We are in the middle of a global reckoning with a legacy of colonialism, displacement and structural racism all with an epidemic accent that bare deep differences and negative results faced by indigenous peoples and people of color. We begin this academic year with a sense of renewed strength and importance of scholarship in shaping research, teaching Giving voice to communities and amplifying. Our investments in AIS's undergraduate and minor programs and its MA program are more important than ever. With humility, respect, and optimism I look forward to welcoming all of you in the near future in person and practically so that we can all continue to build on the legacy of UCLA's AIS program started more than 50 years ago. As leaders of college units at UCLA dedicated to social justice, we stand in solidarity with those in Los Angeles and across the country fighting to end state violence against African Americans, indigenous people, Latinos, Asians, and other communities of color. – Read more June 5, 2020 as indigenous and indigenous student leaders and alumni organization at UCLA, we condemn state and police violence against our black relatives. We write to confirm our commitment to social justice and stand in solidarity with our black community at UCLA, Tovaangar and all territories without police. – Read more Keep the American Indians raining now! (RAIN) providing comprehensive support services to all students on campus in order to address a wide range of needs: academic, personal, social, cultural, and spiritual. AIR American Indian Recruitment (AIR) is in the service of serving Native students and providing resources to essentially support the journey to a quality higher education. Ranked admissions are among the top programs in American Indian Studies (AIS), a master's degree in arts, an inter-sectoral program at UCLA draws from a wide range of departments; Click here to learn more about the admissions process. © Copyright 2019 - UCLA Social Sciences Computing August 22, 2013 – 2:11 am The Towa- Towa- Great Songster of Guyana A bird doesn't sing because it has an answer, it sings because it has a song- Maya Angelou By Dmitri Allicock The Towa-Towa- Great Songster of Guyana In a country full of colorful exotic songbirds,haps Guyana's best-known avian songster is the little tanager finch called the Towa- Towa {Twa-Twa}. This Finch seed chestnut belly (*Oryzoborus angolensis*) is a bird species in the Thraupidae family but until recently placed in Emberizidae. It is widely found in shrub and grassy areas of Guyana and throughout South America. Malifu's singing ability of this bird is an enjoyable vocal by many valuable bird lovers, and it is the most popular cage bird in Guyana. [Read more: Twa-Toa- Great Songwriter Guyana.] News Stabroek – CSpringer – Editor arrested on June 27, 2012 (New York Daily News) A Guyana man at Kennedy Airport with something Up your sleeve - nine limited live finches for their shot at star-studding. Marlon Hariram is the latest brain bird in an attempt to evade Guyana laws that prohibit the export of small songbirds. Finches will most likely be used in singing competitions held in public parks in Queens, officials said. Two finches are called and a judge chooses a bird determined to sound best, U.S. Fish and Wildlife Special Agent Ryan Beshy explained in court papers released Monday. Read more I found this very interesting it deserves your blog 30.06.2012 - 10.07.2012 96 degrees Fahrenheit view Guyana on Noemad's travel map. While walking through the streets of Guyana, a small bird cage would get my eye here and there, until I started to notice a bit of a trend. There are unusually large amounts of men holding bird cages while standing on the streets, or in stores, or in bars. And then, I saw a bird cage sitting in the middle of our packed van to Mahdiya. I just had to ask what the deal was... It turned out that Guyana's men like to participate in something called bird whistle fighting. Yeah, I said you fought a bird whistle. Imagine the man carrying the bird cage, about a square foot. In size, with a small bird inside. It's not just any bird though, it's called towa and is notorious for its ability to whistle on cues. Once a challenge has been proposed, they met on Sunday morning (early 5pm) and set up a bird cage draped onto the pole to face each other while crowds gathered. When they are ready to start, they discovered cages and birds whistling back and forth to each

other until a winner was declared. How do they pick the winner? According to locals: You just know. But from an article I found online in a Guyana newspaper, the official rules are that the first bird to whistle 50 times wins a bet, apparently takes a lot of hard work and dedication for the owner to train his bird to whistle on the right ground and speed, on cue. This involves feeding it a special diet so the bird will grow in size and appear scarier to its enemy, as well as broadcasting the right whistle sound recorder in order for the bird to learn to emulate it. Worth the birds with every game they have won, some selling as much as \$250-\$2000! Considered valuable possession, you see men walking around with their bird cage towa towa everywhere in Guyana. It was our bus driver to Mahdia and his Tuwa who made the journey with us, alternatively on people's laps. Posted by Noemad 18:09 Archived in Guyana Tagged towa\_towa by Girish GuptaSCHOONORD, Guyana (Reuters) - As the sun rises over the Damrara River, half a dozen men gather in its West Bank, grappling with small wooden cages.Complementing the scenic beauty of nearby palms and sugar cane fields, male finches with melodies from within their cages. To swampy land. We feed them, we walk, we play them. They love it, said 54-year-old Tachand, who has been caring for chestnut belly seed finches in a place known as Tuva Tava since he was a boy. In a tournament called Racing, the winner is the first bird to have chirped 50 times. It only takes a few minutes, with bets ranging from token amounts to thousands of dollars. For more than half a century, the country has been held back by ethnic and political tensions, primarily between descendants of African slaves and dense Indian servants, in a hangover from European colonial rule. Finch chestnut belly seeds are one of the world's top singing birds, explained the naturalist Gagendra Nat Narin, a local celebrity known as Andy at his home on the other side of the river in Georgetown. Tachand is proud to enlarge his birds, which he bought in the interiors of the country's Amazon basin. Some birds catch themselves in the forests of Guyana.This practice, believed to have been brought by dense workers in the early 19th century, has also found its way into guyana's sizeable community in New York. There, in Richmond Hill, Queens, Finches are often found racing and exercising in smoked Oval Park.Birds are valuable from behind the house among goyanis in the United States, and authorities occasionally take people who try to smuggle them through John F. Kennedy Airport. Watch back at the banks of Demerara, Takchand and fellow birdman Ryan Boodho as their birds sing. This bird has become my best friend, says 34-year-old electronics importer Bedo. I was offered a lot of cash for this bird but I never sold it. Take it.
