Due to the work of Dana Safety Supply, there is never really a shortage of work. Be pleased knowing you will always have to do something when you go into work daily. Outside sales rep in the United StatesVery rewarding career, working with state and local governments. The company has strong core values and strives to provide the best service in the industry. Great corporate support and stability. They allow you to do your job and support you every step of the way. Installer/technician at Fort Myers, FLHelping those on the front lineExisting industry is constantly changing as the ever-evolving equipment and various needs of first responders. One will always be learning something new. Yes, there are headaches and problems here in Dana, but every business has them. The company as a whole continues to push forward regardless of issues. Since I started last year, the company has added several new sites and expanded several of its existing stores. At the end of the day, you go home with the knowledge and satisfaction that the vehicles you build or repair out there on the streets, helping those in need and keeping first responders moving on the front line. An accounting officer in Greensboro, NCI'ts a great place to work. It's a growing company, so it's been hard to keep up with the workload, but they continue to recruit additional staff. Everybody's coming along. They group things like walking, mud go cookouts and cover dish lunches for anyone who wants to participate. We have flexibility in terms of our work schedule and you are not micro-managed. We liked this property, but just over to find 8.5 Warehouse Supply colombia scThey is pretty dang good good Me!!! I've been here since July this year. Honest people are for the most part really nice and I feel like a family already. My manager is really nice and helpful. He has shown great care for employees as well. My colleague is great to work with and very helpful. installers always make me laugh, and I really have days that go fast because of it. If I have to go to the next place, they are always so nice to me. Great place to work. People have asked 10 questions about the work of Dana Safety Supply. See answers, explore popular topics, and discover unique insights from Dana Safety Supply employees. Horrible. They don't get you the parts you need in time to finish your job. You get paid commissions, but if you can't finish you don't get paid. Lies and very unprofessional leadership. See 4 answersMa interview was excellent, they were very professional, honest and answered all the questions I answered in 4th placeI as a freedom to work remotely, grow and manage my accounts and territory, as well as provide support and resources to succeed.
