Yes, you sound right! Isn't it quite weird and interesting? With all the new mental movements making the rounds, one recently caught my attention. It's about a new religion about women preferentially with big butt. So... If you've ever found yourself staring at a woman's back and thinking you're having a spiritual experience, we have religion for you: Church adonitology refers to religious adonitology, which includes those who worship women's curved bottoms. This religion is called Adonitology. In other words, Adonitology is a church dedicated to the worship of fat bottom girls. Adonitology is no joke; It's a real religion with a real church and real followers. It even has its own holy book. The self-proclaimed prophet Adonis claims that on January 3, 1996, he was visited by three holy figures - Jesus, an angel named Elishamel, and the Holy Spirit.Holy Spirit, though, was a woman with a great chasm. Jesus told him it was God's will that women with large buttocks come into power in the 21st century and that he had begun a religion dedicated to their worship. The Adonitology Church has now been worshipping big butt for 20 years, in churches where women twerk to the glory of the Lord – the way God intended. (YorkPedia Editorial):- Los Angeles, August 5, 2020 (Issuewire.com) - The Bible may have long been a bestseller worldwide, but a new book called the New Bible represents a new belief system called Adonitology that is fast making headlines these days. This religious book is called the Book of Adonitology: The Sacred Pentadon of religious Adonitology, which insites a unique philosophy that provokes people to create harmony and prosperity. It is worth knowing to readers that Adonitology, founded by King Adonis I, is a decade old religion. But despite being a new entry, Adonitology has left an impressive mark on the hearts of millions of religious and non-religious followers from around the world and has earned a large group of followers, and the growing sales of the new Bible clearly illustrate why! The arrival of Adonitology began in 1996 when a man named Adonis was visited by three heavenly creatures to form a religion. They told him to name it after him and call it Adonitology. These include Jesus Christ, the Angel Elisha, and Issa Elohim, a goddess with a curved descendant. A news reporter recently tried to find out more information about religious Adonitology. Discussing with this news reporter, one of the chief prophets of Adonitology said, this newly formed religion of King Adonis I have not received recognition due to its earlier because although the goal behind its formation is to create spiritual and ideology guidance is to spread happiness , its controversial religious base is empowering women with its shapely back and devotional practice that includes controversial conversations such as twerk or sensuous dancing. However, King Adonis I constantly continued to spread his message of Adonitology and continued to share the callipygian woman's sacred scriptures through his book, The Book of Adonitology even when it was explored. Over the next few years, he reformed the Adonitology religion and secured its sensational return as it is being widely accepted now. Today, King Adonis I has carved his own lane in the media alongside several elites of the world including national titles, royal figures and A-list celebrities and religious Adonitology who have achieved pop culture status. Adonitology.com launched in 2020 and is a highly visited website and the teachings of Adonitology have reached millions through social networking channels, blogs, radio shows, television and print media. Requests about King Adonis I and religious Adonitology can be raised through the church's official website or via church contact email: Not your average young black manIn the Liberty High School Band.You probably know I stand on the sidelines. Strange, unpleasant and sometimes humorous things continue to happen all over the world. But one thing is certain: if one takes a close look at what is happening these days, one will inevitably defer that we are in the end times. There's a church called the Adonitology church. In this church, only women with curves are allowed. In fact, in the church, people worship the curves and large backs of women. That's weird, isn't it? The church is named after its founder, a prophet claiming to be Adonis. Adonitology represents a cult following of those who praise and worship women who have a curvaceous rear. Church of Adonitology Photo Credit: Google Prophet Adonis claims that on January 3, 1996, an angel visited him. He described the angel as a curve-man, and the angel asked Adonis to create a religion for curvy women. According to him, the angel also asked him to write a book Religion. The book is called the Book of Adonai (their holy book). Funnily enough, the book is still available for sale. Like other religions, they have their own official dances. Their official dance is twerking. They even have online videos that guide people on how to twerk properly for religion. They see twerking as a stress reliever and a force of They also have a place of worship like every other church in the world. This place of worship is called the Church of Adonitology. For many though, religion is more of an entertainment and a joke instead of a serious problem. Others on the other side simply found religious attacks for objectifying the back of women.
