1 GLENCOE ART SPELLING POWER GRADE 7 2 To Students This Spelling Power Workbook provides the practice you need to improve your spelling and writing capabilities and to expand your vocabulary. Each spelling lesson focuses on a single spelling pattern or concept that is applied to the list of words in Word Bank. You then have several opportunities to practice what you have learned: writing words, using them in sentences, recognizing and correcting them as you read proof, and apply spelling patterns or concepts to new words that follow the same pattern. If you're having trouble with exercise, you can always go back to Word Bank discussions and Key Concepts, check out the material, and then go back to training. You can track your own progress and achievements in spelling by using the Student Progress Chart, which appears on the v page. With the help of your teacher, you can score your work on any lessons, quizzes, or tests. After you know your score, use scoring Scale on the vii page to reflect on your percentage. Then mark your score (or correct percentage) on the Student Progress Chart. Share your Progress Chart with your parents or guardians as your teacher directs. Glencoe/McGraw-Hill All rights reserved.
