Here's what we know so far.4lung Controversy: How did it all start? As the title suggests, it's controversy, and to be honest, we haven't gone into the depths of the subject and only shared what went then, and why this '4lung controversy' is doing the rounds on the Internet. In 2017, 4lung, or Hushy, came under fire for following paedophiles on his SoundCloud. After the incident, Hushy became a controversial figure. But the twist was that people were divided on their views. It's him, isn't it? 4lung Controversy, 4lung drama, it all leads to him. Image source: Agency/GF4lung is a trans woman; After the controversy, the LGBTQ community supported him, while people were not at all happy with the actions of Queer's community to support him for what he did. One member of the LGBTQ community, Chrisinthe Abyss, kind of defended 4lung's activities on social media (link) on her blog. The blogger wrote in her post: Four lungs only went from fetish to being paired and defending known paedophiles. This is alarming, and the safest thing to do is to ban him. to the extent that the LGBTQ community exists, we need to focus it on the safety, comfort and care of LGBT children; this means the vocal rejection and material inhibition of the normalisation of paedophilia. 4lung, or Hushy, is a trans musician who Music. After her 4lung drama, she was strongly supported by the trans community, but people were not happy with the community's actions. Image source: Agency/GF No, Chrisinthe made it clear that they do not support anything related to paedophilia. Still, their point was that the 4lung controversy was nothing more than propaganda by transmisogynistic people to smear trans women, and has nothing to do with protecting children. Abyss wrote: We put trans artists on a pedestal because there are so few of them. Don't forget, every trans artist you know is as messy and traumatized as you are, and he can't be a neat role model exile for a trans artist disproportionately means death. This has always been true regardless of this situation. Trans artists do not essentially find success outside Internet communities, and trans women cannot find work in society. Always bear in mind how fragile existence is for all of us. But people were not at all happy with this statement. One of the Twitter users presents their views on why it is terrible to defend or support 4lung. In their tweet, they wrote: People responding to 4lung saying it's transmisogynistic for people to talk about this because he's trans can go straight to hell. How dare you send a message to your under-aged trans girl followers that uncritical solidarity is more important than their safety. Get the out of here.
