Heating, Handlits, and Air ConditioningWillis H. Wagner - was Professor Emeritus for the Department of Industrial Technology at Iowa State University. Mr. Wagner earned an undergraduate in science degrees from Central Missouri State University and a master's in science degrees at the University of Missouri. He worked in industries as a draft and wooden worker, and taught at the high school and college level. Mr. Wagner was a member of IAITA and ITEEA, and an honored member of the Waterloo Technical Society. Howard Bud Smith - spends most of his career as a magazine and text editor. She has also worked as a carpenter for several years while earning a PhD in journalism at Marquette University. Mr Smith has published articles in a variety of magazines about his career. He's actually retired. Mark Huth – brought the Modern Carpentry a great deal of construction educational experience from multiple perspectives. Besides working as a carpenter and contractor, she worked as a carpentry teacher and as a consultant to both high and posecondent educators. Mr. Huth also writes books in the areas of reading printing construction, construction principles, and mathematical construction. Authors: Willis H. Wagner, Howard Bud Smith, and Mark W. Huth Modern Carpentry provide detailed assurance to all aspects of light construction, including site preparation and layout, foundation, frame with heat, roofs, windows and doors, exterior finishes, staircase, cabinet, and finishes. Special topics, such as chemney, fireplaces, and decks, are also covered. The text accustoms students with other aspects of the exchange of buildings and chapters on the plumbing, electrical, and HVACR. Premium content includes videos and animations, label art activities, vocabulary activities, and question reviews.
