He is often associated with Ray Charles, a 1960s native. In 1979, the state of Georgia marked Ray Charles's official national song as an official version. [1] [2] This song title is often mentioned during the 2020 Presidential Elections in the United States, because Georgia is a battleground state in both presidential and Senate races. [4] The background and composition of Stuart Gorrell's letter to Bremen Enquirer, August 3, 1961, included hoagy carmichael writing a song about his sister Georgia. [5] But Carmichael wrote in his second autobiography Sometimes I Wonder that the saxophonist Frankie Trumbauer told him that he should write a poem about the state of Georgia. In jest, he volunteered the first two words, Georgia, Georgia..., which Carmichael eventually used while working on a song with his roommate Stuart Gorrell, who wrote the lyrics. [6] There was no gorrell's name, but Carmichael sent him royal checks anyway. [6] Carmichael filmed Georgia on My Mind with Bix Beiderbecke on a cone in New York on September 15, 1930. External links Lyrics of this song at MetroLyrics Retrieved from March 2, 2020 2:28PM ET In early March 1978, Willie Nelson was at the top of Billboard country albums and country single charts with friend and frequent duet partner Waylon Jennings. Their Waylon & Willie LP took a big hit with Mamas Don't Let Your Babies Grow Up To Be Cowboys, who enjoyed a four-week run at number one. Nelson, meanwhile, could be seen as if with his follow-up album, which on the surface would still appeal less to cowboys than doctors and lawyers and so on. Released on April 19, 1978, Stardust offered Nelson an interpretation of American pop standards. The first single album, Nelson's passionate reading of Hoagy Carmichael Georgia on My Mind, was released on March 2, 1978, 42 years ago today. With Stardust, Nelson was a hit song-maker completely absent, which meant that his interpretive abilities allowed him to flourish on songs such as All of Me, Moonlight and Vermont, and Blue Skies. After Nelson's version of Georgia on My Mind, which would reach No.1 in June and become only the third of the texas native's solo hits at the top of the chart, the Blue Skies became another chart-topper, making Stardust Nelson's first LP to produce more than one hit No. A year after its release, Nelson's version of the song earned a Grammy for best male country vocal performance. Most impressively, Stardust logged 540 weeks on Billboard's Top Country Albums chart, but eventually postponed the survey even a decade later in 1988, when Nelson was a bona fide american legend. Georgia on My Mind was written by Carmichael in 1930 with his roommate, Stuart Gorrell. Thirty years later, ray charles has had a pop hit Number One and remains the artist most associated with the wistful melody. In 1984, Charles, who in 1962 released Modern Sounds in Country & Western Music, a landmark LP that interprets classic country songs, returned to the genre for Friendship, LP duets with Nashville acts including George Jones, Hank Williams Jr., Merle Haggard, Johnny Cash, Ricky Skaggs and more. With Nelson, Charles recorded the LP's Seven Spanish Angels, making it the country's largest gun. In 1985, nelson was a member of the Nashville Network concert, titled The Willie Nelson Special, with Charles. The couple Georgia on My Mind was the highlight of the program, as the two friends sat together for a long time at the piano to swap vocals on the song, as seen above. But Nelson and Charles, too, played backstage and enjoyed the rivalry of chess, something Nelson joked about during the special. He won, Nelson said, adding, But next time we're going to turn on the lights. The comment earned Charles a heart of laughter, as can be seen in the clip below. Stardust would co-star with Nelson's first appearance on the cover of Rolling Stone in 1978. In an interview with Chet Flippo magazine, Nelson acknowledged the huge gamble he was taking with the LP. I had an idea for a while, but until I met Booker [T. Jones, who produced Stardust], I wasn't sure how well I could do these songs because of my limited musical ability when it came to writing songs of that caliber. These are complex poems; There's a lot of chords in them. I needed someone like Booker to write and edit. When I came with him, it was easy to make an album. For other uses, see Georgia on My Mind.
