## Glass etching kit michaels

Reinvent your kitchenutensils, flower pots, candle sleeves, mason pots, and more with these design ideas using glass paint, adhesive stencil, and your own artistic vision. By itself, a simple glass surface is functional and smooth: a tumbler shows the drink inside; a mirror shines like a quiet pool. But a touch of unexpected contrast—the rough, icy texture of engraved glass—can add drama, elegance, or functionality to many household objects. Although glass engraving has existed since the 1700s, it was not commonly used until the advent of the Industrial Revolution, when new technologies made large sheets of glass widely available for doors, windows, and other architectural details. This abundance of home glass created a decorative glass market among Victorian owners, who embellished their windows with elaborate floral designs. In the early days of glass decoration, the craftsmen painted a resistance on areas intended to remain smooth, then used hydrofluoric acid to eat the exposed glass. At the end of the 19th century, craftsmen abandoned acid engraving in favor of sand blasting, which is less expensive and less dangerous. Today, professional etchers still use the sand blasting technique to create a range of textures, resulting in complicated and nuanced images. For craft projects, you can get a similar effect using engraving cream. Adhesive stencil is better because the engraving cream needs to sit for a while, and can easily infiltrate under the edges of other types of stencil if they are accidentally poked. It's easy to apply it on almost any glass surface (except tempered glass): Try a custom set of drinkware or a bubbly glazing dotted with polka. The process is so easy, you can find yourself leaving a mark all over the house. Propaganda Propaganda Stripes in subtle pastel shades customize this simple glass and jug set. Cover each piece with adhesive tape, dab glass embossing cream on the exposed glass stretch marks and allow to dry before removing the tape. Shop Now: Martha Stewart Crafts Glass Etch Cream & Brush, \$32, michaels.com. Martha Stewart Crafts Dauber Set, \$10, michaels.com. Having trouble finding the perfect porcelain pattern?
