## Titanfall 2 dlc trophy guide

We encourage you to read the updated [privacy policy](#) and the [cookie policy](#). Estimated cup difficulty: 5/10 Approximate amount of time to platinum: 10-15 hours offline prizes: 47 (37, 8, 2) Online prizes: 4 (3, 1) number of prizes not to be missed: 0 (everything can be obtained by mission selection) Glitched prizes: 0 (cup to hit the difficulty of masters is slightly when doing so by selecting the mission, but get them if the last replay is open to the Masters. Does the difficulty affect the awards?: Yes, you have to overcome the campaign on the difficulty of the experts. Minimal Playthroughs: 1 collect all 46 aviator helmet collectibles (see cup every corner and creamine) and beat the campaign on expert difficulty. This is the highest difficulty and it's unlocked from the beginning. After the first cutscene you must stop the game immediately and change the difficulty to the expert! I suggest you follow this YouTube playlist to get all the prizes at the first opportunity. Trophy Titanfall 2. Although nothing can be missed (you can go back via mission selection) there are some prizes that are linked to certain places in the campaign. When you get them at the first opportunity you don't have to re-mission later. Tons of trophies will come naturally without a try, especially combat ones. Just focus on collectibles, expert difficulty and follow the playlist. All remaining prizes can be cleared quickly later. Step 2: Drive mop-up still missing cup campaign? Now is the time to get it. By the end of your expert play through you must have about 90% of the prizes unlocked. If you are missing something you can do this quickly by selecting the task. In longer missions you can even select subseasons so you don't have to replay the entire mission from the beginning. Step 3: Multiplayer there are only 3 multiplayer prizes. They are very easy, fast and psychological. You just need to join the network, change your load and win the game. Titanfall 2 trophy guide mark from lawyer won all the other prizes to unlock platinum (DLC is not required). Student... Pilot Anderson won the time recorder ghost glove see... He becomes the master of the cup. ... The main place becomes the top 3 on the gauntlet scoreboard and this will also earn you the student... Cup or achievement. In the first task you must go through training. To put in the top 3 you must beat The Glove parkour in less than 33.65 seconds. This is very challenging and I recommend you to keep this cup for another. Time here is very limited. If you make one mistake you have to restart (pause the game and select retry if you mess). This is very skill-dependent and can take some time. It comes to practice and save all moves. You must kill all 15 enemies in the parkour. If you miss one it will add Again to your time. L loadout i was EPG (rocket launcher), EVA 8 auto (gun) and bow bombs. Use bow bombs to kill combos. Always do not wall dashes from one wall to another to get speed. Here are some additional tips: You should move at all times. When the wall run always push the left stick forward (not to the side). When pushing the stick to the side may slow down and fall from the wall. This is particularly true in the long corridor before the last room. Start with the rocket launcher and once it is empty switch to a gun. This way you won't have to reload. You can waste most of the time in the first and last room. Room 1: You must be smashed on the wall at every opportunity. First, double the jump on the wall to the left (before the starting line). From that wall jump to the right wall in the first big room. Now immediately jump a dash along that wall again. Another double jump to the circular structure on the ceiling. As you jump from this circular thing throw a grenade to take out all 3 enemies, then another jump to the wall on the right (hold the stick to the far right to the target where you want to dash). As you fall this wall shoot the rocket launcher under the slot in the track, to take out an enemy before you have to slide under it. Last room: You have to make a tough jump here. As you run along the right wall you must jump off and during your first enemy target shoot. Now immediately jump the dash on the right wall. While running along that wall I shot the last goal what I did was go back and forth in the area without finishing the parkour and I just practiced this one jump for 30 minutes so I was sure I could do it. Graduate training to complete the relevant story, opens automatically, can not be missed. BT head fully powered BT-7274 related story, opens automatically, can not be missed. Hot Mess defeated Ken related story, opens automatically, can not be missed. Close shaving kept Lieutenant Shaving and Lieutenant Freeburn alive Mission 3: Blood and Rust there are two friendly titans at the start of the third mission. They're Lieutenant Schaefer and Lieutenant Freeburn. If one of them dies you must restart the task. Kill all enemies as fast as possible. Run up to enemies so they focus their fire on you and not your allies. This is best done on easy difficulty. Please provide a roadmap for prizes in this game.
