Subnautica Charts Guide - List of Charts, Where to Find ... February 2, 2018. Very high capacity tank, modified station, equipment. Swimming charge fins, modified station, equipment. Unusual doll, fragments ... Subnautica &t; discussion of general play &t; topic details of hi station modification, I have a rather big problem, I can not find the modification station anywhere in the game, I have looked at the proposed degasi habitat in jellyshroom caves, I've looked everywhere in the great reef and mushroom forest. I have submarine bikes and shrimp unlocked, but plans for mod station can not be found anywhere in the game! I've read somewhere in a forum the player discovered that it was a bug, deleted his save, (it turns out it's supposed to be in degasi ruins of jellyshroom cave) is that true? I don't really feel like deleting 20 hours of work. Where can I get the station? Do I need to use comand console? that I really prefer not, or are there other places for me to explore for the mod station? Note: This is only for use in spam reporting, advertising, and problematic (harassment, fighting, or rude) publications. Community sharing content in English comments is available under CC-BY-SA unless otherwise stated. I've heard a post about an amendment. Being random at the beginning of each game. I was just wondering if anyone knew anything else about the location of the editing station. Thank you very much! Page 2 9 Comments Comments
