Here you can download Minecraft PE 0.8.1 for Android. It is one of the popular game on the google market, every month Mojang (the company that created the game) sell hundreds of copies. Players all over the world do letsplays and reviews on it on youtube. You'll see original and creative pixel graphics. Survival is Minecraft's main goal. After great success Mojang decided transferred the game to Android, iOS and Windows devices. It was a big surprise to fans and MCPE made more fame and respect. Like I said, survival is the main goal here. You have a great world of peace and hostile mobs. Some of them can attack you. You can mine and get resources to build or do something. There's multiplayer here. Create the game and invite your friend or join the server game and play with other people around the world. There are many maps where you will have contests. Minecraft is more of a game. Change the borders and make your mind play on it more and more. Attention!
