

Logitech ipad keyboard manual pdf

Home » IPad Keyboards » Logitech Type + Setup Guide and Review for iPad Air 2 Logitech Type + Is A Paper Case with Integrated Keyboard Designed Specifically for iPad Air 2. With solids and stylish shapes, this case protects your iPad. Built-in with the keyboard, it will no doubt give you ease of use wherever and whenever. Write, write, write, watch, or whatever will remain comfortable with logitech type+. Type+ will make your iPad look like a laptop. A Bluetooth keyboard with smart and convenient keys, iOS shortcuts, and a versatile display helps you explore in depth. Also, the keyboard on the + type is designed to type with ease. The perfect concave shape will provide comfort in writing and avoid typo. Logitech Type + iPad 2 type+, which is stable and seeking from durable, will provide front and back protects the iPad and is safe from water spills or other liquids. In the corner of the iPad will also remain protected with a layer of plastic case, so it is easy to insert or remove. It is designed with excellent precision from Logitech, making this case extremely thin and very light. With a thickness of only 0.67 inches, this case will certainly not give you a burden when you use it. Although thick and weighing less than a pound, this condition is still strong with additional protection for the iPad. This way, it will undoubtedly help to protect and always look elegant in style. Read also: Logitech Smart Type + can be run in several uses, which include writing and reading. You can use the case with the keyboard when you need to type, and you can put a flat iPad for a convenient review or reading. For more details and other configurations, you can download logitech type + setup link guide that you included below. The keyboard with wireless system or with Bluetooth, of course, must have enough battery power to last. Logitech Type + can last up to 3 months to charge one battery. Charging is fast and direct, using a USB cable that is included in the box. The battery life of up to 3 months is an average level if you write for 2 hours per day. Type+ also has intelligent power management to extend battery life. The keyboard will turn on when the status is opened, and turned off when it is closed. Switching the iPad to the typing position on the keyboard will make the type + on, and when used in the position to read it will make it off. Logitech type + priced around \$99, which you can get from the official website of Logitech or other market places. Logitech Type + Dimensional Specifications: 7.23 inches high, 10.23-inch width, 0.67 inches depth Protocol: Bluetooth Features: HID OS / Platform Support: iOS Power Type: Recharging basic or manual setup instructions for logitech+ type (in . PDF) Download here thanks for visiting Logitech support site is useful and can help you. Your satisfaction is our pride and pleasure.
