Simple and reliableWhen the default key torque value is reached, a simple and reliable mechanical operation inside the handle produces a click that you can hear and feel, alerting you to stop applying force. Easy-to-read ScaleHigh-contrast, two-game mask is easy to read, even in low light situations. All-Steel ConstructionBuilt for consistent performance and years of reliable service, mechanical design does not need batteries, and steel construction does not have plastic parts to break or wear out.
