This is the first game of Tapulous' Tap Tap series. Development for the game began before the release of the iPhone SDK, and was originally titled Tap Tap Revolution. The goal of the screen. If the ball is hit on the rhythm, the player earns points, but otherwise it counts as a lack. There are also shakes, which require the player to move the iPhone, iPod Touch or iPad (although the game was designed for the first two) right, left or middle. The reception of the game was generally positive, and it became the most downloaded free game from the App Store for 2008. The game was followed by Tap Revenge 2, Tap Revenge 3 and Tap Tap Revenge 4. In 2010, the series of games and its parent company were acquired by Disney. Via a message on their Facebook page, in January 2014, the game was removed from the App Store by the Disney owner and there is no plans to support the game. [1] Gameplay The game was modeled on the popular gameplay of konami Dance Dance Revolution series. Players use their fingers to type colored balls when they reach the bottom of the screen. The goal is to hit the balls at the right time (as dictated by the rhythm of the song), and thus earn points. The shakes, represented as arrows on the screen, follow the same pattern as the colored balls, but the player's input is recognized from a physical shake of the device in the right direction (right, left or rear). After the end of a song, the points score online with other players. A combination of correct keys by the player results in additional points, and after a certain point, a Vengeance mode is available for use. The player must physically shake the device to activate the modes can only be accessed via the same physical device. While the game initially has a set of playable songs, more songs can be downloaded from inside the game. The game has four levels of difficulty, and most songs are available for specifically a difficulty level. On February 5, 2014, Tapulous announced that the Tap Tap Revenge franchise will stop and all servers will be shut down, and all Tap Tap Revenge games will no longer be downloadable from the App Store. Development and History On September 11, 2007, Nate True published Tap Tap Revolution (named and based on the popular music game series Dance Dance Revolution) for iOS via his personal blog. [2] The game preceded the release of the iOS SDK, and players were required to jailbreak their iPhone to play the game. The game had been developed by True in a two-day period. Shortly after this version came a new user interface of Tino Bedi (Doc). [3] and the ability to play songs from your iTunes library and share tap tracks in the cloud. It quickly became one of the most popular games for jailbroken iPhones, and received media attention. [4] [5] On July 8, 2008, True announced that the game would be released from the App Store at launch as a revamped game under the name Tap Tap Revenge. He also announced that the game had been purchased by the start-up Tapulous, and that he was hired as a developer. After the release of the seguel, Tap Tap Revenge 2, Tapulous reissued the title tap tap revenge classic. It seems that Tap Tap Revenge Classic is no longer available. Reception Review Reception Review Reception Advented 1 million downloads. The total installed iPhone OS 2.0 user base was 5-6 million. Tapulous also announced that they were in talks with Indie and and musicians to release purchasable suites for the game. In December, Apple announced that the game was the second most downloaded free app of the year from their App Store, and the most downloaded free app of the year from their App Store. announced the results of a study that claimed 1 in 3 U.S. iPhone bone users had downloaded the game, and that it was the most popular app for the iPhone and iPod touch. [12] As part of the 2nd generation iPod touch advertising campaign, Apple introduced Tap Tap Revenge in print and TELEVISION ads with the headline The Funniest iPod Ever. [13] The game spawned three direct sequels, Tap Tap Revenge 2, Tap Tap Revenge 3, and Tap Tap Revenge 4, as well as a set of spin-offs and video games centered on the artist. The digital distribution of the Tap Tap series has more than 15 million downloads combined. [15] See also Tap Tap (series) Tapulous References - Jeff. Tap Tap Tap Revenge is coming to an end.
